XO's Gold Services provide XO's customers with direct dialed communications services which are available for use by its customers on a twenty-four (24) hours a day seven days a week basis. Customers may originate Gold services from locations served by the Company, and may terminate such calls to any location within the United States. **(D)**

For the purposes of this Section 4.1, timing of messages will be determined by the following method.

- (a) Chargeable time begins when connection is established between the calling station and the called station.
- (b) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by automatic timing equipment in the telephone network.
