APPALACHIAN REGIONAL COMMISSION GRANT CONTRACT
between the
WEST VIRGINIA DEVELOPMENT OFFICE
and the
Calhoun County Commission

THIS AGREEMENT, entered into this 10th day of February, 2006, by the West Virginia Department of Finance and Administration on behalf of the West Virginia Development Office, hereinafter called the "State," and the Calhoun County Commission and its authorized officers, agents, and representatives, hereinafter called the "Grantee."

WITNESS THAT:

WHEREAS, the State has elected to administer an Appalachian Regional Commission Grant WV-15363-07, approved on February 10, 2006, under Section 214 of the Appalachian Region Commission Act of 1965, as amended, subject to the applicable regulations of the Department of Housing and Urban Development, including but not limited to 24 CFR Part 570, Sub-Part I, as amended or revised, and subject to the scope of the State of West Virginia's Grants Management Handbook and other Program Guidelines, receipt of which is hereby acknowledged by the Grantee.

WHEREAS, the Grantee has identified its housing and community development needs, including those of low- and moderate-income persons and the activities to be undertaken to meet such needs.

WHEREAS, the Grantee has prepared a written citizen's participation plan which provides opportunities for citizen participation, hearings, and access to information with respect to the proposed project statement in such a manner as to afford affected citizens an opportunity for examination and comment regarding the proposed project and on the community development performance of the Grantee, a Community Development Plan, and an Anti-displacement and Relocation Assistance Plan.

WHEREAS, for audit purposes, the Catalog of Federal Domestic Assistance number is 23.002, Appalachian Supplements to Federal Grant-in-Aid (Area Development), Appalachian Regional Commission, funded by the Appalachian Regional Commission.

WHEREAS, the Grantee has requested assistance from the State and has offered assurances that maximum feasible priority has been given to activities which will benefit low- and moderate-income families, or aid in the prevention or elimination of slums or blight, or to meet other community needs having a particular urgency because an existing condition poses a serious and immediate threat to the health and welfare of the community where other financial resources are not available to meet such needs.

NOW, THEREFORE, the parties hereto do mutually agree as follows:

1. **Assistance to Grantee.** The State shall obligate to the Grantee, from funds allocated to the State by Grant Agreement WV-15363-07, \$1,500,000.00 to perform such tasks hereafter described in the Scope of Services.

2. **Scope of Services.** The Grantee, or its designated agent, in accordance with the Small Cities Block Grant Handbook other Program Guidelines to be used in administration of the Appalachian Regional Commission Grant, and in accordance with the approved application of the Grantee which is attached hereto and made a part hereof as Attachment A, shall do, perform, and carry out, in a satisfactory and proper manner all duties, tasks, and functions necessary to assist the Calhoun County Commission to enable the Mt. Zion Public Service District to provide water service to approximately 183 new customers in the Sand Ridge, Russett, and Route 16 South areas of Calhoun County.

3. **Changes.** The State and the Grantee, from time to time, may require changes in the Scope of the Services of the work to be performed hereunder. Such changes, including any increase or decrease in the amount of the Grantee's compensation and work to be performed which are mutually agreed upon by and between the State and the Grantee, shall be incorporated in written amendments to

this Contract. Major changes in the Scope of Services which substantially deviate from that originally approved shall require the same citizen participation process as performed for the initial submission of the grant proposal. The State reserves the right to make final determination on questions regarding changes in the Scope of Services.

4. **Time of Performance.** The Grantee will commence its duties under this Contract on February 10, 2006, and such duties shall be undertaken and completed in such sequences as to assure their expeditious completion in light of the purpose of the Contract; but, in any event, all of the services required hereunder shall be completed by February 10, 2009. Completion date of this Contract may only be extended by mutual written agreement of both parties.

5. **Performance Measures.** Performance measures establish that the Grantee should have all other funding in place and design and engineering completed within twelve months. Furthermore, construction should be started within eighteen months after the execution of this Agreement by both parties. These performance measures establish goals against which performance under this contract can be measured and evaluated during regular scheduled monitoring visits by the State. Failure to meet these performance measures can result in termination of this contract (see Provision 10 of this agreement).

6. **Administrative Requirements and Procedures.**

(A) *Personnel.* The Grantee represents that it has or will secure personnel with the necessary qualifications and experience required to perform the services under this Contract. Such personnel shall not be employees of, or have any contractual relationship with the State, consistent with the procedures identified in the Small Cities Block Grant Handbook.

(B) *Applicable Law.* The Grantee, its agents, and subrecipients shall comply with all the restrictions, conditions, policies, guidelines, and requirements of Title I of the Housing and Community Development Act of 1974 (Public Law 93-383), as amended; with all applicable State and Federal Laws and regulations including 24 CFR Part 570; 24 CFR

Part 85; OMB Circulars A-87, A-110, A-122, and A-133, as applicable, in administering and distributing funds provided under this Agreement including, but not limited to, the following:

(1) P.L. 88-352: Refers to Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et. seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Implementing regulations are found in 24 CFR Part I.

(2) P.L. 90-284: Refers to Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601-20 et. seq.) popularly known as the Fair Housing Act which provides for fair housing throughout the United States and prohibits any person from discriminating in the sale or rental of housing, the financing of housing, or the provision of brokerage services, including otherwise making unavailable or denying a dwelling to any person, because of race, color, religion, sex, national origin, handicap, or familial status. The Grantee further certifies that it will take actions necessary to affirmatively further fair housing.

(3) Executive Order 11063, as amended by Executive Order 12259, requires that taking of all actions necessary and appropriate to prevent discrimination because of race, color, religion (creed), sex, or national origin, in the sale, leasing, rental, or other disposition of residential property and related facilities (including land to be developed for residential use), or in the use of occupancy thereof. Implementing regulations are contained in 24 CFR 107.

(4) Section 109 of P.L. 93-383 requires that no person in the United States shall, on the grounds of race, color, national origin or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under, any program or activity funded in whole or in part with community development funds.

Section 109 of the Act further provides any prohibition against discrimination on the basis of age under the Age Discrimination Act of 1975 (42 U.S.C. 6101 et. seq.) or with respect to an otherwise qualified handicapped person as provided in Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) shall also apply.

(5) Section 110 of P.L. 93-383 requires compliance with the Davis-Bacon Act, as amended (40 U.S.C. 276a - 276a-5). By reason of the foregoing requirement, the Contract Work Hours and Safety Standards Act (40 U.S.C. 327 et. seq.) also applies. In addition, the West Virginia Act on Construction of Public Improvements, Article 5A, Chapter 21 of the West Virginia Code applies.

(6) Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. 1701U) requiring that to the greatest extent feasible opportunities for employment and training be given to lower income persons residing within the unit of local government or metropolitan area or nonmetropolitan county in which the project is located, and that Contracts for work in connection with the project be awarded to eligible business concerns which are located in, or owned in substantial part by, persons residing in the same area.

(7) Executive Order 11246, as amended by Executive Order 12086 shall apply and provides that no person shall be discriminated against on the basis of race, color, religion, sex, or national origin in all phases of employment during the performance of Federal or Federally assisted construction contracts.

(8) Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4831b) prohibits the use, and requires the elimination and/or abatement of the hazards of lead-based paints in residential structures constructed or rehabilitated with Federal assistance to include notification of the hazards of lead-based paint. The Lead Safe Housing Regulation (24 CFR Part 35) established the requirements for notification, evaluation, and reduction of lead-based paint hazards in federally-owned residential property and housing that receives federal assistance.

(9) The Grantee agrees to assume all of the responsibilities for environmental review, decision making, and action as specified and required in regulations issued by the Secretary of Housing and Urban Development pursuant to Section 104(g) of the Act and published in 24 CFR Part 58. In addition to assuming responsibility for National Environmental Policy Act (P.L. 91-190), the Grantee must take into account, where applicable, the criteria, standards, policies, and regulations of the following: (a) Historic

Preservation Act of 1966; (b) Executive Order 11593; (c) The Reservoir Salvage Act of 1960; (d) Flood Disaster Protection Act of 1973; (e) Executive Order 11988, Floodplain Management; (f) Executive Order 11990, Protection of Wetlands, (g) Coastal Zone Management Act of 1972; (h) the Safe Drinking Water Act of 1974; (i) the Endangered Species Act of 1973; (j) the Wild and Scenic Rivers Act of 1968; (k) the Clean Air Act ; (l) Environmental Criteria and Standards (44 FR 40860-40866, July 12, 1979); (m) 24 CFR Part 51, Subpart B, Noise Abatement and Control; (n) Subpart C - Siting of HUD Projects Near Hazardous Operations Handling Conventional Fuels or Chemicals of an Explosive or Flammable Nature; (o) and Subpart D - Siting of HUD Projects in Runway Clear Zones and Accident Potential Zones at Military Airfields. Before committing any funds (other than for exempt activities), the Grantee must certify to the State that it has complied with all requirements and obligations that are set forth by 24 CFR Part 58. In addition, the Grantee must submit all requested Evidentiary Material to the State for approval prior to the obligation of any funds (other than for exempt activities).

(10) The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA) (42 U.S.C. 4601) and HUD implementing regulations at 24 CFR Part 42 apply to the acquisition of real property for an activity assisted under this part and to the displacement of any family, individual, business, nonprofit organization or farm that results from such acquisition. The West Virginia Code, Chapter 54-3 also applies.

The Grantee must certify compliance with URA. Under Section 104(d) of the Act, each Grantee must adopt, make public and certify that it is following a residential anti-displacement and relocation assistance plan providing one-for-one replacement units and relocation assistance. The plan must also indicate the steps that will be taken to minimize the displacement of persons from their homes as a result of any activities assisted under this part all in accordance with 24 CFR Part 570.488(b).

(11) The State and the Grantee will comply with the provisions of the Department of Treasury Circular 1075 and/or the State's Small Cities Block Grant Handbook,

as revised, in the process of requesting and administering funds from the State's Letter of Credit.

(12) Funds provided under this agreement shall not be expended for acquisition or construction purposes in an area that has been identified by the Federal Emergency Management Agency (FEMA) as having special flood hazards unless the community in which the area is situated is participating in the National Flood Insurance Program; and flood insurance is obtained in accordance with Section 102(a) of the Flood Disaster Protection Act of 1973.

(C) *Accounting.* The Grantee will establish a separate account for the proper recording of project costs in accordance with generally accepted accounting principles and procedures so as to reflect all receipts and allowable expenditures, including program income in connection with the said project and the purpose thereof. PI generated prior to project closeout must be expended as received for project related activities in accordance with 24 CFR 570. If the Grantee received less than \$25,000 per state fiscal year in program income after closeout, the dollars received are not subject to provision of 24 CFR 570 and may be used at the Grantee's discretion. If program income exceeds \$25,000 in any given state fiscal year after closeout, all program income earned must be expended in accordance with 24 CFR 570.489.

(D) *Audit.* Pursuant to provisions of Chapter 6, Article 9, Section 7 of the West Virginia Code, the Community Development Division has adopted the policy of accepting annual financial audits contracted or performed by the State Auditor's Office. The Grantee will include these funds to be audited with its yearly organization-wide audit. Audits shall be conducted in accordance with the provisions of the Office of Management and Budget (OMB) Circular A-133, and with standards established by the Comptroller General as specified in Standards for Audit of Governmental Organizations, Programs, Activities, and Functions. Units of local government will make audit reports available for public inspection within thirty (30) days after the completion of the audit.

(E) *Record Retention.* Financial records, supporting documents, statistical records, and all other records pertinent to the grant shall be retained for a period of three years, with the following qualifications:

(1) If any litigation, claim, or audit is started before the expiration of the three-year period, the records shall be retained until all litigations, claims, or audit findings involving the records have been resolved.

(2) Records for nonexpendable property acquired with Federal funds shall be retained for three years after its final disposition.

(3) Records for displacement shall be retained in accordance with the Small Cities Block Grant Handbook.

(4) The retention period starts from the date of the issuance of the final audit report.

(F) *Access to Records.* The Grantee shall, at any time during normal business hours and as often as the State or its designated representatives deem necessary, make available for examination all records, books, accounts, reports, files, and other papers, things or property of the Grantee with respect to the matters covered by this Contract. All negotiated contracts awarded by the Grantee shall include a provision that the Comptroller General or any duly authorized representative of the State or HUD shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to a specific grant program for the purpose of making audit, examination, excerpts, and transcriptions.

(G) *Repayment.* The Grantee shall refund to the State or Federal government any expenditures determined to be made for an ineligible purpose for which Federal funds were received.

(H) *Competitive Procurement Procedures.* All procurement transactions, including professional services, regardless of whether negotiated or advertised and without regard to dollar value, shall be conducted in a manner that provides maximum open and free

competition consistent with procedures identified in the Small Cities Block Handbook, 24 CFR Part 85, and with applicable local or State law.

The Grantee shall procure architect/engineer services in accordance with Chapter 5G of the West Virginia State Code and be in compliance with 24 CFR Part 85.

The Grantee shall procure construction contracts in accordance with Chapter 5-22-1 of the West Virginia State Code and be in compliance with federal regulations 24 CFR Part 85.

The Grantee shall solicit sealed bids for all construction-related contracts or supplies related to their project which has an estimated value of over \$25,000. All transactions under \$25,000 whether construction-related contracts, supplies, or professional services should be procured in a manner that provides maximum open and free competition and files are to be maintained to document such activities. Any attempts by the Grantee to segregate the project into sections in order to circumvent competitive procurement may be cause for termination of this Agreement under the provisions of Paragraph 9. These bids shall be obtained by public notice as a Class II legal advertisement in compliance with the provisions of Article Three, Chapter Fifty-Nine of the Code of West Virginia. This notice shall be published by the Grantee in the newspaper with the largest circulation serving the general area within a period of fourteen consecutive days with at least an interval of six full days within such period between the date of the first publication and the date of the second publication preceding the final date of submitting bids. The Grantee shall also, where feasible, solicit sealed bids by listing the project in the F. W. Dodge Reports, sending requests by mail to prospective suppliers or contractors, sending notification to the State's Small Business Development Center Division, and by posting notice on a bulletin board in a public place. The Grantee shall have available upon request for review by the State or its designated representative, bid documents and other evidence of compliance with these procedures. The resolution of bid and contract disputes is the responsibility of the Grantee.

Grantees have the ability to procure professional and construction services, therefore, the design-build method (5-22A-1). Public agencies can only utilize design-build

on building project. Highways, water, sewer, and all other public works projects are specifically prohibited from using the design-build method.

(I) *Bonding and Insurance.* As otherwise required by law, a grant that requires the contracting or subcontracting for construction or facility improvements under \$100,000 shall provide for the Grantee to follow local or State requirements relating to bid guarantees, performance bonds, and payment bonds provided that the Grantee's and State's interest is adequately protected and that such contracts can be executed in a timely manner; otherwise, bonding requirements shall be the same as for contracts exceeding \$100,000. If the contracts or subcontracts exceeds \$100,000, the minimum bonding and insurance requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. This bid guarantee shall consist of a firm commitment such as bid bond, certified check, or other negotiable instrument accompanying a bid that the bidder will, upon acceptance of the bid, execute the contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. This performance bond shall be executed by the successful contractor in connection with a contract to secure fulfillment of the contractor's obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. This payment bond shall be executed in connection with a contract to assure payment is required by law of all persons supplying labor or materials in the execution of the work provided for in the Contract.

(J) *Facilities Operation.* The Grantee shall operate and maintain all facilities to which the general public has right of access constructed under the auspices of this Contract in accordance with minimum standards as may be required or prescribed by the applicable Federal, State and local statute, law, ordinance, or regulation as to actual construction procedures. The Grantee shall be responsible for maintenance and operation

of such facilities upon completion. The Grantee may not change the use or planned use of any such facility (including the beneficiaries of such use) from that purpose initially approved unless the Grantee provides affected citizens with reasonable notice thereof and opportunity to comment on any proposed change all in accordance with 24 CFR Part 570.489(j).

(K) *Conflict of Interest.* No officer, agent, consultant, employee, elected or appointed official of the State, the Grantee, or any public agency or subrecipient receiving Community Development Block Grant funds who exercises or has exercised any function or responsibilities with respect to activities assisted with Community Development Block Grant funds or who are in a position to participate in a decision-making process or gain inside information with regard to such activities, may obtain a personal or financial interest or benefit from such activity or have an interest in any contract, subcontract, or agreement with respect thereto, or the proceeds thereunder, either for themselves or those with whom they have family or business ties, during their tenure or for one (1) year thereafter. The conflict of interest provision of 24 CFR 85.36; 24 CFR 570.489 (g) and (h); and OMB Circular A-110 also apply as appropriate.

7. **Recovery of Capital Costs.** The Grantee will not attempt to recover any capital costs of public improvements assisted in whole or in part with funds from this program by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements unless: (a) funds received are used to pay the proportion of such fee or assessment that relates to the capital costs of such public improvements that are financed from other revenue sources; or (b) for purposes of assessing any amount against properties owned and occupied by persons of low and moderate income who are not persons of very low income, the Grantee certifies to the State of West Virginia that it lacks sufficient funds received under the program to comply with the requirements of clause (a).

8. **Method of Payment.** In order to receive any and all payments under the terms of this Agreement, the Grantee shall submit the following: (a) a Letter of Transmittal

containing a progress report, and (b) a Request for Payment Financial Report. Upon receipt of said documents, the State shall review the same for reasonableness, appropriateness and eligibility and, if approved, will cause a warrant to be made on that sum to the Grantee for authorized expenditures from the State's Letter of Credit with the Department of Housing and Urban Development.

9. **Cost Underruns.** The State reserves the right to recapture all SCBG funds remaining due to cost underruns. The amount to be recovered will be prorated and proportional to the percent of actual total project expenditures.

10. **Termination of Contract for Cause.** If, through any cause, the Grantee shall fail to fulfill in a necessary and proper manner its obligations under this Contract or if the Grantee shall violate any of the covenants, agreements, or stipulations of this Contract, the State shall thereupon have the right to terminate this Contract by giving written notice to the Grantee to such termination and specifying the effective date thereof, at least fifteen days before the effective date of such termination. The Grantee shall be entitled to receive just and equitable compensation for any satisfactory work completed on the described project.

Notwithstanding the above, the Grantee shall not be relieved of liability to the State for damages sustained by the State by virtue of any breach of the Contract by the Grantee, and the State may withhold any payments to the Grantee for the purpose of off-setting those damages until such time as the exact amount of damages due the State from the Grantee is determined.

11. **Termination for Convenience of the State.** The State may terminate this Contract at any time by giving written notice to the Grantee of such termination and specifying the effective date of termination. If the Contract is terminated by the State as provided herein, the Grantee will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Grantee covered by this Contract, less payments of compensation previously made.

12. **Termination by the Grantee.** The Grantee may unilaterally rescind this Agreement at any time prior to the commencement of the project. After project

commencement, this Agreement may be rescinded, modified, or amended only by mutual agreement. A project shall be deemed commenced when the State makes any expenditure or incurs any obligation with respect to the project.

13. **Reporting.** A Final Performance Report shall be submitted to the State with the final request for payment for project costs, excluding audit. Said Performance Report shall be made on the forms provided by the State and meet the requirements of said report as set forth in the appropriate Small Cities Block Grant Handbook of the State of West Virginia. Other reports may be requested by the State during the grant period as the State deems necessary and directs.

14. **Final Closeout.** Final Closeout shall be completed when the State: (a) is in receipt of a Final Performance Report; (b) has determined that all monitoring findings have been formally addressed and are resolved; and (c) has received a completed, final project audit and has determined that any findings have been resolved.

15. **Resolution of Disputes.** Resolution of disputes between the State and the Grantee concerning administrative and programmatic matters during the terms of this Agreement shall be initiated through consultation and discussion at the State's Administrative Offices with final decision on questions of policy or fact being determined by the Director of the Community Development Division of the West Virginia Development Office or his/her designated representative. Nothing in this Agreement shall be construed as making the final decision on a question of law, or to limit in any manner any remedies or recourses available under applicable laws. Citizen's complaints or disputes regarding Grantee performance or actions relative to the approved project are the responsibility of the Grantee.

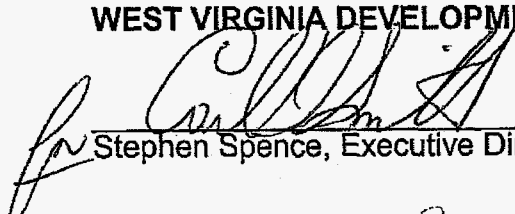

16. **Notice.** The parties hereto agree that notice shall be served when mailed certified U.S. Mail to the following addresses:

Grantee is able to finance not more than \$ 2,100,000 of the development costs through revenues, charges, taxes or assessments, or funds otherwise available to Grantee resulting in a reasonable user charge.

Said sum of \$ 2,100,000 has been committed to and by Grantee for such project development costs.

Grantor has agreed to grant the Grantee a sum not to exceed \$ 1,800,000 or 75 percent of said project development costs, whichever is the lesser, subject to the terms and conditions established by the Grantor. Provided, however, that the proportionate share of any grant funds actually advanced and not needed for grant purposes shall be returned immediately to the Grantor. The Grantor may terminate the grant in whole, or in part, at any time before the date of completion, whenever it is determined that the Grantee has failed to comply with the Conditions of the grant.

As a condition of this grant agreement, the Grantee assures and certifies that it is in compliance with and will comply in the course of the agreement with all applicable laws, regulations, Executive orders and other generally applicable requirements, including those set out in 7 CFR 3015.205(b), which hereby are incorporated into this agreement by reference, and such other statutory provisions as are specifically set forth herein.

NOW, THEREFORE, In consideration of said grant by Grantor to Grantee, to be made pursuant to Section 306(a) of The Consolidated Farm and Rural Development Act for the purpose only of defraying a part not to exceed 75 percent of the project development costs, as defined by applicable Rural Utilities Service instructions.

F. Expand its system from time to time to meet reasonably anticipated growth or service requirements in the area within its jurisdiction.

G. Provide Grantor with such periodic reports as it may require and permit periodic inspection of its operations by a representative of the Grantor.

H. To execute any agreements required by Grantor which Grantee is legally authorized to execute. If any such agreement has been executed by Grantee as a result of a loan being made to Grantee by Grantor contemporaneously with the making of this grant, another agreement of the same type need not be executed in connection with this grant.

I. Upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will repay to Grantor forthwith the original principal amount of the grant stated herein above with the interest at the rate of 5 percentum per annum from the date of the default. Default by the Grantee will constitute termination of the grant thereby causing cancellation of Federal assistance under the grant. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

J. Return immediately to Grantor, as required by the regulations of Grantor, any grant funds actually advanced and not needed by Grantee for approved purposes.

2. The Grantee shall obtain approval by the Grantor agency for the use of the real property in other projects when the Grantee determines that the property is no longer needed for the original grant purposes. 3. When the real property is no longer needed as provided in 1 and 2 above, the Grantee shall request disposition instructions from the Grantor agency or its successor Federal agency. The Grantor agency shall observe the following rules in the disposition instructions:

(a) The Grantee may be permitted to retain title after it compensates the Federal Government in an amount computed by applying the Federal percentage of participation in the cost of the original project to the fair market value of the property.

(b) The Grantee may be directed to sell the property under guidelines provided by the Grantor agency. When the Grantee is authorized or required to sell the property, proper sales procedures shall be established that provide for competition to the extent practicable and result in the highest possible return.

[Revision 1, 04/17/1998]

(c) The Grantee may be directed to transfer title to the property to the Federal Government provided that in such cases the Grantee shall be entitled to compensation computed by applying the Grantee's percentage of participation in the cost of the program or project to the current fair market value of the property.

Equipment means tangible, non-expendable, personal property having a useful life of more than one year and an acquisition cost of \$5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

[Revision 1, 04/17/1998]

1. Use of equipment.

(a) The Grantee shall use the equipment in the project for which it was acquired as long as needed. When no longer needed for the original project, the Grantee shall use the equipment in connection with its other Federally sponsored activities, if any, in the following order of priority:

(1) Activities sponsored by the Grantor.

(2) Activities sponsored by other Federal agencies.

(b) During the time that equipment is held for use on the property for which it was acquired, the Grantee shall make it available for use on other projects if such other use will not interfere with the work on the project for which the equipment was originally acquired. First preference for such other use shall be given to Grantor sponsored projects. Second preference will be given to other Federally sponsored projects.

2. Disposition of equipment. When the Grantee no longer needs the equipment as provided in paragraph (a) above, the equipment may be used for other activities in accordance with the following standards:

(a) Equipment with a current per unit fair market value of less than \$5,000. The Grantee may use the equipment for other activities without reimbursement to the Federal Government or sell the equipment and retain the proceeds.

The Grantee may retain the equipment for other uses provided that compensation is made to the original Grantor agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value or proceeds from sale of the equipment. If the Grantee has no need for the equipment and the equipment has further use value, the Grantee shall request disposition instructions from the original Grantor agency.

The Grantor agency shall determine whether the equipment can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the equipment shall be reported, in accordance with the guidelines of the Federal Property Management Regulations (FPMR), to the General Services Administration by the Grantor agency to determine whether a requirement for the equipment exists in other Federal agencies. The Grantor agency shall issue instructions to the Grantee no later than 120 days after the Grantee requests and the following procedures shall govern:

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the Grantee's request, the Grantee shall sell the equipment and reimburse the Grantor agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the Grantee shall be permitted to deduct and retain from the Federal share ten percent of the proceeds for Grantee's selling and handling expenses.

(2) If the Grantee is instructed to ship the equipment elsewhere the Grantee shall be reimbursed by the benefiting Federal agency with an amount which is computed by applying the percentage of the Grantee participation in the cost of the original grant project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the Grantee is instructed to otherwise dispose of the equipment, the Grantee shall be reimbursed by the Grantor agency for such costs incurred in its disposition.

3. The Grantee's property management standards for equipment shall also include:

(a) Records which accurately provide for: a description of the equipment; manufacturer's serial number or other identification number; acquisition date and cost; source of the equipment; percentage (at the end of budget year) of Federal participation in the cost of the project for which the equipment was acquired; location, use and condition of the equipment and the date the information was reported; and ultimate disposition data including sales price or the method used to determine current fair market value if the Grantee reimburses the Grantor for its share.

(b) A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years to verify the existence, current utilization, and continued need for the equipment.

- (c) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented.
- (d) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.
- (e) Proper sales procedures shall be established for unneeded equipment which would provide for competition to the extent practicable and result in the highest possible return.

This Grant Agreement covers the following described equipment(use continuation sheets as necessary).

Prompt notification is required prior to contract award.

2. To certify that any facility to be utilized in the performance of any nonexempt contractor subcontract is not listed on the EPA list of Violating Facilities pursuant to 40 CFR Part 32 as of the date of contract award.

3. To include or cause to be included the above criteria and the requirements in every nonexempt subcontract and that the Contractor will take such action as the Government may direct as a means of enforcing such provisions.

As used in these paragraphs the term "facility" means any building, plan, installation, structure, mine, vessel or other floating craft, location, or site of operations, owned, leased, or supervised by a Grantee, cooperator, contractor, or subcontractor, to be utilized in the performance of a grant, agreement, contract, subgrant, or subcontract. Where a location or site of operation contains or includes more than one building, plant, installation, or structure, the entire location shall be deemed to be a facility except where the Director, Office of Federal Activities, Environmental Protection Agency, determines that independent facilities are co-located in one geographical area.

Grantor Agrees That It:

A. Will make available to Grantee for the purpose of this Agreement not to exceed \$ 1,800,000 which it will advance to Grantee to meet not to exceed 75 percent of the project development costs of the project in accordance with the actual needs of Grantee as determined by Grantor.

B. Will assist Grantee, within available appropriations, with such technical assistance as Grantor deems appropriate in planning the project and coordinating the plan with local official comprehensive plans for sewer and water and with any State or area plans for the area in which the project is located.

D. Make the services of said system available within its capacity to all persons in Grantee's service area without discrimination as to race, color, religion, sex, national origin, age, marital status, or physical or mental handicap (possess capacity to enter into legal contract for services) at reasonable charges, including assessments, taxes, or fees in accordance with a schedule of such charges, whether for one or more classes of service, as approved by the West Virginia Public Service Commission, as may be modified from time to time by Grantee. The initial rate schedule must be approved by Grantor. Thereafter, Grantee may make such modifications to the rate system as long as the rate schedule remains reasonable and nondiscriminatory.

E. Adjust its operating costs and service charges from time to time to provide for adequate operation and maintenance, emergency repair reserves, obsolescence reserves, debt service and debt service reserves.

I. Upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will repay to Grantor forthwith the original principal amount of the grant stated herein above with the interest at the rate of 5 percentum per annum from the date of the default. Default by the Grantee will constitute termination of the grant thereby causing cancellation of Federal assistance under the grant. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

There are 138,000 people in the six county area covered by the Health Department and in case of emergency it could take up to four days to give every one a shot. Mr. Lee stated that he would keep the Commission informed about future programs.

The Commission also discussed the Wayne Underwood monument at the old field and that the School wants to move it to the new field. The Commission agreed that there would be no problem in moving it or leaving it there until they were ready to move it..

Barry Pitts gave a report on the E-911 addressing and that Ellen Wade a mail carrier was working on her area. Mr. Pitts stated that he was still unable to contact Mr. McKenzie, who had the contract to do the address and then went bankrupt, concerning the final addressing. The Commission suggested that Mr. Pitts contact the State E-911 Board concerning the problem.

BE IT RESOLVED AND ORDERED BY THE PUBLIC SERVICE BOARD OF MT. ZION PUBLIC SERVICE DISTRICT, CALHOUN COUNTY, WEST VIRGINIA:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS
AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution is adopted pursuant to the provisions of Article 13A, Chapter 16 of the West Virginia Code, as amended (the "Act") and other applicable provisions of law.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows:

A. Mt. Zion Public Service District (the "PSD" or "Issuer") is a public service district created, expanded and contracted pursuant to the Act by orders issued by The County Commission of Calhoun County, located in Calhoun County, West Virginia.

B. The Issuer now has a public water system and desires to improve and expand that system and it is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the Issuer and, accordingly, it is hereby ordered, that there be acquired and constructed certain additions, betterments and improvements to the existing public water system of the Issuer known as the "System" (sometimes referred to herein as the "System") so as to improve the public health, comfort and convenience of residents of the Public Service District, including the construction and installation of all necessary appurtenant facilities (the "Project"), and generally described as water line extensions, pumps, pumping stations, water plant improvements and necessary appurtenances particularly described in and

according to the plans and specifications prepared by the Consulting Engineer for the Project and heretofore filed in the office of the Secretary of the Public Service Board (the "Governing Body") of the Issuer. The construction and acquisition of the Project and the financing hereby authorized and provided for are public purposes of the Issuer and are ordered for the purpose of meeting and serving public convenience and necessity.

C. It is necessary for the Issuer to issue its revenue bonds in the principal amounts of \$600,000 and \$850,000 to finance a portion of the cost of such construction in the manner hereinafter provided.

D. The estimated maximum cost of the construction of the Project is \$5,200,000, which will be obtained from the proceeds of sale of the Series 2009 A and the Series 2009 B Bonds herein authorized and from grants to be made by RUS in the amounts of \$1,800,000 and \$450,000, and a grant from the HUD - Small Cities Block Grant Program, as hereinafter defined, in the amount of \$1,500,000. The cost of such construction shall be deemed to include, without being limited to, the construction or acquisition of the Project, the acquisition of any necessary property, real or personal, or any interest therein; interest on the 2009 Bonds prior to, during and for six (6) months after completion of such construction to the extent that revenues of the System are not sufficient therefor; engineering and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and such other expenses as may be necessary or incidental to the construction of the Project and the financing authorized hereby.

E. The period of usefulness of the System after completion of the Project is not less than forty (40) years.

F. There are currently outstanding the obligations of the Issuer with which the 2009 Bonds, as hereinafter defined, will rank on a parity as to lien and source of and security for payment as follows:

(i) Waterworks Revenue Bonds, Series B(1974), of the Issuer, dated January 10, 1974 (the "1974 Bond") issued in the original principal amount of \$40,000 secured under the terms of the 1974 Resolution (hereinafter defined);

(ii) Water Revenue Bonds, Series 1984, of the Issuer, dated February 2, 1984 (the "1984 Bond") issued in the original principal amount of \$161,000 secured under the terms of the 1984 Resolution (hereinafter defined); and

(iii) Water Revenue Bonds, Series 1998 of the Issuer, dated May 20, 1998 (the "1998 Bond") issued in the original principal amount of \$40,000 secured under the terms of the 1998 Resolution (hereinafter defined).

With the exception of the bonds described above, there are no other outstanding bonds or obligations of the Issuer, which will rank prior to or on parity with the 2009 Bonds as to lien, pledge and/or source of and security for payment.

G. The Issuer is not in default under the terms of the 1974 Resolution, the 1984 Resolution and the 1998 Resolution or any document in connection therewith, and has complied with all requirements of all the foregoing with respect to the issuance of parity bonds or has obtained a sufficient and valid waiver thereof.

H. The estimated revenues to be derived in each year from the operation of the System after completion of the Project will be sufficient to pay all the costs of the operation and maintenance of the System, the principal of and interest on the 2009 Bonds (as hereinafter defined) and all debt service, reserve fund and other payments provided for herein.

I. The Issuer has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the 2009 Bonds, or will have so complied prior to issuance of the 2009 Bonds including, among other things, the imposition of rates and charges, the consent and approval, pursuant to the Act, of the issuance of the 2009 Bonds by the Public Service Commission of West Virginia by final order.

J. It is in the best interests of the Issuer that the 2009 Bonds be sold to the United States Department of Agriculture, Rural Development, acting on behalf of the Rural Utilities Service (the "Purchaser" or "RUS"), pursuant to the terms and provisions of a letter of conditions dated July 1, 2002, as amended by Amendment No. 1 to Letter of Conditions dated May 18, 2007, and all amendments thereto (collectively, the "Letter of Conditions").

K. The Issuer has been notified by RUS that interim construction financing for the Project is not required.

Section 1.03. Resolution to Constitute Contract. In consideration of the acceptance of the 2009 Bonds by the Purchaser, this Resolution (the "Resolution") shall be deemed to be and shall constitute a contract between the Issuer and the Purchaser, and the covenants and agreements set forth herein to be performed by the Issuer shall be for the benefit, protection and security of the Registered Owner of the 2009 Bonds.

Zion Public Service District, Water Revenue Bond, Series 2009 A" in the principal amount of \$600,000, and "Mt. Zion Public Service District, Water Revenue Bond, Series 2009 B" in the principal amount of \$850,000, are hereby authorized to be issued for the purpose of financing a portion of the cost of the construction and acquisition of the Project.

(FORM OF A BOND)

\$600,000
MT. ZION PUBLIC SERVICE DISTRICT
WATER REVENUE BOND,
SERIES 2009 A

No. AR-1

Date: December __, 2009

FOR VALUE RECEIVED, the MT. ZION PUBLIC SERVICE DISTRICT, a public service district created, expanded and contracted pursuant to the Act by orders issued by The County Commission of Calhoun County, in Calhoun County, West Virginia (herein called "Issuer"), hereby promises to pay to the order of the United States of America (the "Government"), or its registered assigns at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of Six Hundred Thousand and 00/100 Dollars (\$600,000), plus interest on the unpaid principal balance at the rate of four and 125/100 percent (4.125%) per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing on the 30th day following delivery of the Bond and continuing on the corresponding day of each month for the first twenty-four (24) months after the date hereof, and \$2,754.00 covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of forty (40) years from the date of this Bond, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Issuer as requested by Issuer and approved by the Government, and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto and made a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to the principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Issuer. Refunds and extra payments, as defined in the regulations of the Rural Development Authority, acting on behalf of the Rural Utilities Service, according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Issuer to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Issuer shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Issuer may, at the option of the Government, be remitted by the Government to the holder

promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Issuer, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Issuer, and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Issuer to the Government without demand. Issuer agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Issuer hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of construction of improvements to a water system (the "System") of the Issuer, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Issuer, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Bond Legislation, and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Article 13A of Chapter 16 of the West Virginia Code (herein called the "Act").

If at any time it shall appear to the Government that Issuer may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Issuer will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Issuer made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act, as amended. This Bond shall be subject to the present regulations of the Rural Development Authority, acting on behalf of the Rural Utilities Service, and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND SHALL BE ON A PARITY AS TO LIEN ON AND SOURCE OF PAYMENT WITH THE ISSUER'S WATERWORKS REVENUE BONDS, SERIES B(1974), WATER REVENUE BONDS, SERIES 1984, WATER REVENUE BOND, SERIES 1998, AND WATER REVENUE BOND, SERIES 2009 B OF THE ISSUER DESCRIBED IN THE RESOLUTIONS ISSUED WITH RESPECT TO EACH SERIES.

- (1) Revenue Fund or System Revenue Fund;
- (2) Operation and Maintenance Fund;
- (3) Renewal and Replacement Fund; and
- (4) Construction Fund.

Section 4.02. Establishment of Funds and Accounts with Commission. The following special funds or accounts are hereby created or continued with the Commission:

- (1) Series 2009 Bonds Sinking Fund;
 - (a) Within the Series 2009 Bonds Sinking Fund, the Series 2009 Bonds Reserve Account.

Section 4.03. System Revenues; Flow of Funds.

A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the System Revenue Fund established herein. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided.

(1) The Issuer shall first each month transfer from the Revenue Fund to the Operation and Maintenance Fund the amount necessary and sufficient to pay current Operating Expenses.

(2) The Issuer shall next, each month, on or before the due date of payment of each installment on the 2009 Bonds, transfer from the Revenue Fund and remit to the National Finance Office designated in the 2009 Bonds (or such other place as may be provided pursuant to the 2009 Bonds), the amount required to pay the interest on the 2009 Bonds, and to amortize the principal of the 2009 Bonds and the Prior Bonds over the respective lives of each bond issue. All payments with respect to principal of and interest on the 2009 Bonds and the Prior Bonds shall be made on an equal pro rata basis in accordance with the respective aggregate principal amount thereof outstanding and on parity with each other. There is hereby created a sinking fund at the Depository Bank into which the Issuer shall deposit sufficient

amounts from the Revenue Fund to pay the interest on the 2009 Bonds and to amortize the principal of the 2009 Bonds and the Prior Bonds over the remaining respective lives of each bond issue. As long as the Government owns the 2009 Bonds, such deposits can be replaced by the remittances described above.

(3) The Issuer shall next, on the first day of each month, commencing one (1) month prior to the first date of payment of principal and interest of the 2009 Bonds, if not fully funded upon issuance of the 2009 Bonds, apportion and set apart out of the Revenue Fund and remit to the Commission, on a pro rata basis with the Prior Bonds, for deposit into the Series 2009 Bonds Reserve Account, an amount equal to .4167% of the Series 2009 Bonds Reserve Requirement on a parity with the Prior Bonds; provided, that no further payments shall be made into the Series 2009 Bonds Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 2009 Bonds Reserve Requirement.

(4) From the moneys remaining in the Revenue Fund, the Issuer shall next, transfer to the Renewal and Replacement Fund .4167% of the amount of the Series 2009 Bonds Reserve Requirement, exclusive of any payments into the Series 2009 Bonds Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in Qualified Investments, as defined herein. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in the Series 2009 Bonds Reserve Account [except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof,] shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

Moneys in the Series 2009 Bonds Sinking Fund shall be used only for the purposes of paying principal of and interest, if any, as the same shall become due. Moneys in the Series 2009 Bonds Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the 2009 Bonds, as the same shall come due, when other moneys in the attendant Series 2009 Bonds Sinking Fund are insufficient therefor, and for no other purpose.

Except to the extent transferred to the Rebate Fund at the request of the Issuer, all investment earnings on moneys in the Series 2009 Bonds Sinking Fund and Series 2009 Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall, during construction of the Project, be deposited in the Construction Fund, and following completion of construction of the Project, shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payments, if any, due on the respective series of bonds, and then to the next ensuing principal payments due thereon.

Except with respect to transfers to the Rebate Fund permitted hereunder, any withdrawals from the Series 2009 Bonds Reserve Account which result in a reduction in the balance of the

Series 2009 Bonds Reserve Account to below the Series 2009 Bonds Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full, to the Series 2009 Bonds Sinking Fund for payment of debt service on the 2009 Bonds.

B. As and when additional bonds ranking on a parity with the 2009 Bonds and the Prior Bonds are issued, provision shall be made for additional payments into the Sinking Fund sufficient to pay the interest on such additional parity bonds and accomplish retirement thereof at maturity and to accumulate a balance in the appropriate reserve account in an amount equal to the maximum provided and required to be paid into the Sinking Fund in any year for account of the bonds of such series, including such additional bonds which by their terms are payable from such Sinking Fund.

The Issuer shall not be required to make any further payments into the Series 2009 Bonds Sinking Fund or into the Series 2009 Bonds Reserve Account therein when the aggregate amount of funds in said Series 2009 Bonds Sinking Fund and Series 2009 Bonds Reserve Account are at least equal to the aggregate principal amount of the 2009 Bonds issued pursuant to this Resolution then Outstanding and all interest to accrue until the maturity thereof.

The Commission is hereby designated as the fiscal agent for the administration of the Series 2009 Bonds Sinking Fund created hereunder, and all amounts required for said Series 2009 Bonds Sinking Fund shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein.

The payments into the Series 2009 Bonds Sinking Fund shall be made on the first day of each month, except that when the first day of any month shall be a Sunday or legal holiday then such payments shall be made on the next succeeding business day, and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Ordinance.

Moneys in the Series 2009 Bonds Reserve Account shall be invested and reinvested by the Commission in Qualified Investments, as defined herein.

The Series 2009 Bonds Sinking Fund, including the Series 2009 Bonds Reserve Account therein, shall be used solely and only for, and are hereby pledged for, the purpose of servicing the 2009 Bonds and any additional bonds ranking on a parity therewith that may be issued and Outstanding under the conditions and restrictions hereinafter set forth.

C. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in said Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into the Series 2009 Bonds Sinking Fund, including the Series 2009 Bonds Reserve Account therein and the Renewal and Replacement Fund during the following month or such other period as required by law, such excess shall be considered Surplus Revenues. Such Surplus Revenues shall be used to redeem the Bonds or for any lawful purposes of the System.

D. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as the Commission, the Registrar, the Paying Agent or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay the Commission's fees, the Registrar's fees, the Paying Agent's fees and the Depository Bank's charges then due.

E. Calhoun County Bank is hereby designated the Depository Bank. The Commission is hereby designated as Paying Agent for the 2009 Bonds.

F. The moneys in excess of the sum insured by the maximum amounts insured by FDIC in the Revenue Fund and the Renewal and Replacement Fund shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 4.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

I. The Gross Revenues of the System shall only be used for purposes of the System.

J. All Tap Fees shall be deposited by the Issuer, as received, in the Construction Fund, and following completion of the Project, shall be deposited in the Revenue Fund and may be used for any lawful purpose of the System.

Section 4.04. Excess Bond Proceeds. The Issuer shall place any excess proceeds from the 2009 Bonds not required by the Project in the Series 2009 Bonds Reserve Account or as otherwise directed by RUS.

ARTICLE V

BOND PROCEEDS; CONSTRUCTION DISBURSEMENTS

Section 5.01. Application of Bond Proceeds. From the moneys received from time to time from the sale of any or all of the 2009 Bonds, the following amounts shall be first deducted and deposited in the order set forth below:

A. From the proceeds of the 2009 Bonds, there shall be deposited with the Commission in the Series 2009 Bonds Reserve Account the sum, if any, required hereunder for funding the Series 2009 Bonds Reserve Account.

B. The remaining moneys derived from the sale of the 2009 Bonds shall be deposited by the Issuer as received from time to time in the Construction Fund established hereunder.

C. The Depository Bank shall act as a trustee and fiduciary for the Bondholder with respect to the Construction Fund and shall comply with all requirements with respect to the disposition of the Construction Fund set forth in this Resolution. Except with respect to any transfers to the Rebate Fund, moneys in the Construction Fund shall be used solely to pay Costs of the Project and, until so transferred or expended, are hereby pledged as additional security for the 2009 Bonds.

Section 5.02. Disbursements From the Construction Fund. Payments for Costs of the Project shall be made monthly.

On or before the Closing Date, the Issuer shall have delivered to RUS a report listing the specific purposes for which the proceeds of the 2009 Bonds will be expended and the disbursement procedures for such proceeds, including an estimated monthly draw schedule. Payments for Costs of the Project shall be made monthly.

Except as provided in Section 5.01 hereof, disbursements from the Construction Fund shall be made only after submission to, and approval from, RUS of the following:

- (1) a completed and signed "Payment Requisition Form," and
- (2) a certificate, signed by an Authorized Officer and the Consulting Engineers, stating:
 - (A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;
 - (B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;
 - (C) That each of such costs has been otherwise properly incurred; and
 - (D) That payment for each of the items proposed is then due and owing.

In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Construction Fund only the net amount remaining after deduction of any such portion. All payments made from the Construction Fund shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Construction Fund. The Consulting Engineers shall from time to time file with the Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Construction Fund, including any accounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

Until disbursed by the Issuer, moneys in the Construction Fund, including any accounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

ARTICLE VI

GENERAL COVENANTS

Section 6.01. General Statement. So long as the 2009 Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Reserve Fund a sum sufficient to prepay the entire principal of the 2009 Bonds remaining unpaid, together with interest accrued and to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Purchaser.

Section 6.02. Rates. The Issuer will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide revenues in each fiscal year sufficient to produce net revenues equal to not less than one hundred ten percent (110%) percent of the annual debt service on the 2009 Bonds and to make the payments required herein into the Reserve Fund and all the necessary expenses of operating and maintaining the System during such fiscal year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate revenues for such purposes.

Section 6.03. Sale of the System. The System will not be sold without the prior written consent of the Purchaser so long as the 2009 Bonds are outstanding. Such consent will provide for disposition of the proceeds of any such sale.

Section 6.04. Issuance of Additional Parity Bonds or Obligations. No additional parity bonds or obligations payable out of the revenues of the System or any part thereof shall be issued after the issuance of the 2009 Bonds pursuant hereto except with the prior written consent of the Purchaser or the then holder of or Trustee or agent for the holder of the 2009 Bonds.

Section 6.05. Insurance and Bond. The Issuer hereby covenants and agrees that it will, as an expense of construction, operation and maintenance of the System, procure, carry and maintain, so long as the 2009 Bonds remain outstanding, insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(a) Real Property Insurance, to be procured upon acceptance of any part of the Project from the contractor, and immediately upon any portion of the System now in use, on all above-ground structures of the System in an amount equal to the full insurable value thereof. In the event of any damage to or destruction of any portion of the System, the Issuer will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The Issuer will itself, or will require each contractor and

subcontractor to, obtain and maintain builder's risk insurance to protect the interests of the Issuer during construction of the Project in the full insurable value thereof.

(b) Public Liability Insurance, with limits of not less than \$1,000,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from the operation of the System, such insurance to be procured not later than the date of delivery of the 2009 Bonds.

(c) Vehicular Public Liability Insurance, in the event the Issuer owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the Issuer is operated at any time or times for the benefit of the Issuer, with limits of not less than \$1,000,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle for the Issuer.

(d) Workers' Compensation Coverage for all Employees of the District Eligible Therefor and Performance and Payment Bonds, such bonds to be in the amounts of one hundred percent (100%) of the construction contract, will be required of each prime contractor, and such payment bonds will be filed with the Clerk of the County Commission of Calhoun County prior to commencement of construction of the Project in compliance with West Virginia Code Section 38-2-39. Workers' compensation insurance will be maintained as required by the laws of the State of West Virginia.

(e) Fidelity Bonds will be provided as to every member of the Governing Body and every officer and employee of the PSD having custody of the Revenue Fund or of any revenues or other funds of the System in an amount at least equal to the total annual debt service requirements for all outstanding RUS loans.

(f) Flood Insurance to be procured, to the extent available at reasonable cost to the Issuer.

(g) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project and so long as the 2009 Bonds are outstanding, the Issuer will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the Issuer, and during such construction will require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Purchaser may specify, with insurance carriers or bonding companies acceptable to the Purchaser.

Section 6.06. Statutory Mortgage. For the further protection of the holder of the 2009 Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon delivery of the 2009 Bonds.

Section 6.07. Events of Default. Each of the following events is hereby declared an "Event of Default":

(A) Failure to make payment of any monthly amortization installment at the date specified for payment thereof; and/or

(B) Failure duly and punctually to observe or perform any of the covenants, conditions and agreements on the part of the Issuer contained in the 2009 Bonds or herein, or violation of or failure to observe any provision of any pertinent law or of this or the other Bond Resolutions.

Section 6.08. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, the Purchaser may proceed to protect and enforce its rights by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement, or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights and shall have all rights prescribed by the Act, W.Va. Code and other applicable law.

Upon application by the Purchaser, such court may, upon proof of such default, appoint a receiver for the affairs of the Issuer and the System. The Receiver so appointed shall administer the System on behalf of the Issuer, shall exercise all the rights and powers of the Issuer with respect to the System, shall proceed under the direction of the court to obtain authorization to increase rates and charges of the System, and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct.

Section 6.09. Fiscal Year; Budget. While the 2009 Bonds are outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a fiscal year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than thirty (30) days prior to the beginning of each fiscal year, the Issuer agrees to adopt an Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such fiscal year unless unanimously authorized and directed by the Governing Body. Copies of each Annual Budget shall be delivered to the Purchaser by the beginning of each fiscal year.

If for any reason the Issuer shall not have adopted an Annual Budget before the first day of any fiscal year, it shall adopt a Budget of Current Expenses from month to month until the adoption of an Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the year next preceding by more than ten percent (10%); and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget be for a reason beyond the control of the Issuer. Each such Budget of Current Expenses shall be mailed immediately to the Purchaser.

Section 6.10. Compensation of Members of Governing Body. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body in excess of the amount permitted by the Act. Payment of any compensation to

any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision hereof.

Section 6.11. Covenant to Proceed and Complete. The Issuer hereby covenants to proceed as promptly as possible with the construction of the Project to completion thereof in accordance with the plans and specifications prepared by the Consulting Engineer and on file with the Secretary on the date of adoption hereof, subject to permitted changes.

Section 6.12. Books and Records; Audits. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and the Purchaser shall have the right at all reasonable times to inspect the System and all records, accounts and data of the Issuer relating thereto.

The Issuer shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants and shall mail a copy of such audit report to the Purchaser. The Issuer further covenants to comply with the Act with respect to such books, records and accounts.

Section 6.13. Maintenance of System. The Issuer covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as the 2009 Bonds are outstanding.

Section 6.14. No Competition. To the extent legally allowable, the Issuer will not permit competition with the System within its boundaries or within the territory served by it and will not grant or cause, consent to or allow the granting of any franchise, permit or other authorization for any person, firm, corporation, public or private body, agency or instrumentality whatsoever to provide any of the services supplied by the System within the boundaries of the Issuer or within the territory served by the System.

Special Meeting
Mt. Zion PSD
November 28, 2009

Meeting was called to order by Sharon Postalwait, Chair, at 6:10 p.m.

Members present: Sharon Postalwait, Shirley Mace, Roscoe Gainer, II.

Others: See accompanying list,

Agenda items:

1. To receive the comments of the public in a public hearing in regard to the 2009 Mt. Zion Public Service District Water Extension Project:
 - a. Tom Whittier made statements: 1: The public needs and wants water, and 2: Will ask who is in favor of financing this project as described with USDA. Who lives in the boundaries of this project? Total=10. Whittier asked the crowd how many wants the water to go through = 10 hands (unanimous). Whittier then explained the financing provides \$5.2 million and the Mt. Zion PSD would have to borrow \$600,000. Grant money for \$4.6 million would cover the remainder of the project costs. He then explained the customers would end up paying 20%, 80% would be paid by others. He asked if there were any objections to this ration of grant to loan = 0 (no hands shown to object). He then asked if there were any other comments from the crowd. There were none.
2. To consider and act upon a bond resolution authorizing the financing of the 2009 Mt. Zion Public Service District Water Extension Project as described in the published notice of public hearing:
 - a. Whittier explained it is proper to ask the board, due to improper minutes of prior meeting, to approve the bond resolution. Roscoe Gainer, II, moved to approve the bond resolution as presented by bond counsel. Shirley Mace 2nd the motion. Motion carried.
3. To receive the advice of the United States Department of Agriculture, Rural Development Office, in regard to the award of bids for the 2009 Mt. Zion PSD Water Extension Project:
 - a. Whittier reported he had received a letter from Virginia McDonald of the USDA dated November 27, 2009, in which she recommends and concurs with the PSD's recommendation and gives permission to award the bids. The USDA concurs with the recommendation to award Contract #1 to Bruce Allen and to award Contract #2 to Mid-Atlantic for \$319,600.00. A pre-construction and pre-closing conference is scheduled for December 21, 2009 and final is December 23, 2009. The letter then goes through the various steps prior to this closing.
4. To award a contract for Contract 1:
 - a. Gainer moved to award Contract #1 according to USDA recommendations. Mace 2nd the motion. Motion carried.
5. To award a contract for Contract 2:

- a. Gainer moved to award Contract #2 according to USDA recommendations. Mace 2nd the motion. Motion carried. Mr. Caswell noted that the letter from the USDA was not a recommendation. Gainer moved to award Contract #2 to Mid-Atlantic. Mace 2nd the motion. Motion carried. Call for vote, 3 for 0 against.
6. To evaluate the condition of the equipment and records received by the District from Wilma Mace and to take any action necessary to correct any deficiencies:
 - a. Shirley Mace reported Wilma had resigned and she went out to pick up some boxed items, the computer, printer, fax machine and several boxes of older paperwork. After consulting a professional computer technician, it was suggested we clone the computer and work from a copied hard drive. Norma Collins and Shirley did so and now have the computer back. On advice of Whittier, we are taking inventory of each box we have received. We have not received filing cabinets yet. We are not having any resistance by Wilma or family to cooperate with the PSD. We are finding many unopened-overdue bills. We are not ready to mail November 20 bills yet. Norma is working on setting up a training session with ASI for Sandra Ballengee, board members, and Norma as a backup. We are finding unopened unpaid bills two months old and some older. These are adding up to more that PSD has on hand. Will remedy that one step at a time.
 - b. Whittier reported there are two actions against the PSD with the Public Service Commission. First is the Calhoun County Commission, second is a case with Gary Burdick for erroneous billing.
7. To receive and act upon the resignation of Wilma Mace:
 - a. Gainer moved to accept the resignation of Wilma Mace. Shirley Mace 2nd the motion. Motion carried.
8. To act upon the employment of a replacement for Wilma Mace:
 - a. Sandra Ballengee is a temporary volunteer along with Norma Collins to help until funds are available for a permanent hire. The permanent position will be posted. We will need to adopt a job description. The board also needs to elect a Secretary/Treasurer. This is a matter for the regular meeting.
9. To vote on any decisions made as a result of the information received in any of the above matters:
 - a. None.

Gainer moved the meeting adjourn. Shirley Mace 2nd the motion. Motion carried. Meeting adjourned at 6:36 p.m.

Members of the public asked to speak.

Bob Weaver asked if there was documentation on Ron Lane's letter. Whittier explained that Rodecker was the counsel on that issue and his opinion concluded that Lane's bid extension was ineffective due to stipulation in the letter for modifications of the original pricing. The

letter was furnished at the last meeting. USDA indicated concurrence with that opinion. Weaver asked if there was any documentation that MOVRC needed the process to be sped up? Whittier rendered in his opinion that both MOV and USDA were concerned about any more delays. No documentation directly to that effect. Are there copies of both opinions, yes from prior meetings? Could they have a copy? Shirley Mace replied the PSD couldn't provide those right now. Neither Ron Lane nor Bruce Caswell got copies of these letters.

Ron Lane asked board about their reluctance to make the motion and second the motion to award the job to Bruce Allen. Was there conversation that said the PSD would lose their funding if they didn't award the job right then? Gainer reported these issues were discussed in executive session. Lane asked if the board was pressured to make the decision? Chip Westfall spoke up and reported he had attended a meeting as a member of the board for the MOVDA and had asked Time Meeks about a re-bid situation. Meeks felt if the PSD re-bid there wouldn't be enough money to complete the project. Whittier heard the same concerns. He felt bids would go up. The project started at \$3.9 million and went up to \$5.2 million. A delay would increase the bids. Lane reported that prices had gone up but were now coming back down. He felt the PSD should have a new engineer and re-bid the project. Lane also stated two things: 1-the community wants the water, 2-they want the corruption stopped. Whittier responded that everyone has the best interest of the community in mind and are dedicated to getting the water. Lane reported he had been awarded the job two times. He wanted the bid extension letters to be looked at equally and fairly. The time factor was an issue. He felt it indicated unfair bidding.

Unfinished business:

1. Route 16 Waterline extension project reports: Roscoe Gainer moved to go into executive session to receive advice of counsel on the Rt. 16 Waterline extension project. Shirley Mace 2nd the motion. Motion carried. Board went into executive session at 6:20 p.m.. Board returned at 7:18 p.m. No actions or decisions were made and no votes taken on items.
 - a. Pending litigation on Contract 1,
 - b. Litigation procedure on Contract 2,
 - c. Closing procedures Dec. 21, and Dec. 23,
 - d. Any updates or reports from USDA,
 - e. Any other comments.

2. Report on actions pending before Public Service Commission:
 - a. Gary Burdick Case: Both cases were given additional time to respond by the PSC. The date was extended at least 30 days. Shirley, Norma and Sandra worked with Walter Fraser from Appalachian Software, Inc. and corrected mistakes made in data entry to Gary Burdick's account. Norma will compile and get information to Tom Whittier for a response to the PSC case.
 - b. Calhoun County Commission: Shirley reported some minutes are not found yet. She, Norma, and Sandra are still looking through boxes. Have found most and if we can't find the rest we will submit all we have.
3. Report on DEP violation and fine: Tom Whittier is working on getting the monthly payment lowered. PSD will have to make payments. No response yet to the request to make \$1,000 per month payments instead of \$2,000 per month. He will forward that as soon as he receives it.
4. Authorization to prepare a written Operation and Maintenance contract for B & T Battery Doctor – Tom Fluharty and Dick Ullum, approved for contracted services August 10, 2009: Tom Whittier reported that the USDA and PSC requires contracts in writing. We are now operating under a word of mouth contract. There are acceptable contracts already in format-Whittier will modify and bring to next board meeting for approval.
5. Water and Sewer Field Reports:
 - a. Water: Dick reported he ordered water valves for Millstone tank (altitude valves). Friday the phones went out and came back on. The pump on the Gunn tank was reset to pump and pumped out 127,000 gallon water overflow. Grantsville phoned Dick and they were pumping too much and needed to check. Tom and Dick filled the tanks manually all weekend. Kevin Church came out and checked the phone line and found it working properly. We need some sort of warning system. Grantsville has a back-up system and computer calls the operator if it suspects error. Need a red light or something on the tanks. They also reported they are still digging out isolation valves. Have a report from J.D. Douglas of the WV Health Department. He listed several things needed to be repaired or upgraded. We have 20 days to respond to the report. There followed a discussion about possible funds from Homeland Security Grants. Grants are usually done through engineers (Whittier) asked Tim Meeks if USDA could assist. Tim agreed to look into sources and will call J.D. and contact them, then start the process to apply for funding.
 - b. Sewer: Need the sludge hauled and need decolor tablets. DEP stops to inspect at random. The DEP from St Albans stopped in and looked around and noted deficits and suggested we needed a larger plant. Water is much cleaner going out.

Sharon Postalwait, Chair

Shirley Mace, Sec/Trs

A lot of water and sewer coming into the plant, 40,000 capacity is not large enough. A flow-meter is still needed. Drains on roofs are sometimes put through the system. DEP requires a plan on how to deal with this. 2010 is the deadline. Dick and Tom could use a list of sewer customers. Sludge every month is \$400-\$500. If apply for a "Land Disposal Permit" for each field. Tom can haul or could sell to farmers. Different if have to sell sludge.

6. Any other pending matters:

- a. Roscoe Gainer reported he met with engineers last week about this advertisement for the upgrades to existing structures. Gave them general information. Usually 8-10 contractors bid on each bidding. Generally they go with low bidder. Also complete projects quickly. They will again meet at noon tomorrow. Dunn engineering of Charleston gave interest. USDA says they can assist with securing funding and act as project manager. We have to straighten up our finances first before a rate increase is possible. Tim Meeks said it will take some time before we can look at a rate increase. Getting a contract for engineer to upgrade sewer system will follow a lengthy process (Wastewater System Improvements Engineering Selection Process). Meeks wants on the agenda for January.

New Business: (addressed earlier in meeting)

1. Election for board officers
 - a. Chair
 - b. Vice-Chair
 - c. Secretary/Treasurer
2. Creation of Budget and Finance Committee to oversee Accounts Payable, Accounts Receivable, and create a 2010 Monthly and Yearly Budget.

Bob Weaver asked if Ron Lane, Inc. had filed for an injunction. Whittier reported that not all parties have been served. No hearing is scheduled yet.

After reviewing minutes of the Dec. 7, 2009, Special Meeting, the meeting started at 5:10 p.m. and not 6:10 p.m. Roscoe Gainer moved to accept the minutes with the time change, Shirley Mace 2nd the motion. Motion carried.

Whittier will send a draft???

Norma asked about approving Accounts Payable and transfer of monies. Again we need a rate increase to bring the monthly revenues up equal or above expenses. The PSC would do an analysis and recommend a significant increase to cover the 13 years previous with no increase. First step would be to call a CPA. Tom Whittier knows someone that worked with the PSC before and now works on his own. If PSC grants a rate increase it can be issue to customers in increments. The raise must be right at \$35/month in order to be eligible for USDA grant money.

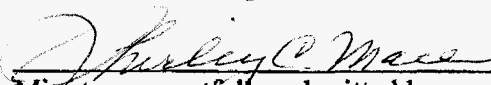

Sharon Postalwait, Chair 

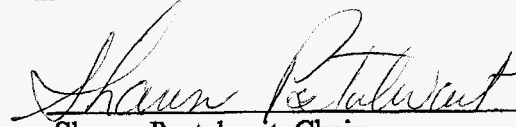

Shirley Mace, Sec/Trs 

We would have to contact the Infrastructure Council. We can ask PSC to do this without charge but it can take months. Whittier will talk to Leslie Anderson about possible rate increases and how we can get them for sewer.

Roscoe Gainer moved we request special assistance from PSC with sewer and water rates. Shirley Mace 2nd the motion. Motion carried. Whitter will check on having an executive meeting (committee) without formally meeting.

Roscoe Gainer moved to adjourn. Shirley Mace 2nd the motion. Motion carried.

Minutes
Regular Monthly Meeting
Mt. Zion PSD
January 11, 2010

Called to order at 6:00 p.m. by Chair, Sharon Postalwait.

Members present: Sharon Postalwait, Shirley Mace, and Roscoe Gainer, II.

Minutes of the December 14, 2009, Regular Monthly Meeting were read by Shirley Mace. Roscoe Gainer moved to accept the minutes as read, Shirley Mace 2nd the motion. Motion carried. Shirley gave a signed copy of the minutes to Bob Weaver for County Commission. Minutes need to be given to Tom Whittier for County Commission. Fred Rader reported the County Commission is the only entity required to receive minutes. Can e-mail a copy to the USDA, that would be helpful.

Financial Report: submitted by Norma Collins. The transfer of sewer monies collected can be easily tracked by a monthly accounting summary report. The J. F. Allen bill for water line damage was mailed. No reply has been received.

Unfinished business:

1. Receive report on Rt. 16 Waterline Project litigation:

a. *Contract 1:* Tom Whittier reported that litigation is in somewhat of a discovery stage. Both plaintiffs are moving for money damages. No copies of amended complaints have been received. He reported that Rodecker intends to file a motion to dismiss as far as PSD is concerned. A hearing is scheduled for January 22 on motion by Drew Patton for Jim Hildreth for attorney fees. The junction was denied. Whittier did not feel it was wrongfully requested.

b. *Contract 2:* Whittier reports he will aggressively pursue dismissal of motions. He filed for attorney fees. If Whittier completes work soon enough, he could try to introduce a motion to dismiss on January 22. Next date for hearing is February 22. They will be presenting then. Both bids have been extended. Hildreth expects both to be extended to end of March. The USDA has everything on hold pending what happens with these motions. Whittier feels there will be a dismissal. The judge has indicated an interest in public need for water in prior hearing.

2. Report on actions pending before Public Service Commission.

a. *Gary Burdick Case:* A reply to the PSC has been prepared by Whittier. Norma prepared a report to Whittier and information on research of records. Wilma's letter talked about bills getting flipped over in the sorter and returned. His reply would be that we don't know what she meant by that. Also had information on Lenore Coston-Westfall. No error was found in that case, just a name change. Several late fees were applied. He also explained to the PSC about the personnel change and qualified personnel are now volunteering to manage finances and accounting.

b. *Calhoun County Commission Case:* Whittier reported that a reply had been prepared to send to the Public Service Commission with Minutes of 2007 Aug-Dec, 2008 Aug-Dec, and 2009 Jan-Dec. He indicated in his reply that all minutes were not approved except minutes of Nov. 2009.

Sharon Postalwait, Chair 

Shirley Mace, Sec/Trs 

He also had copies of the Audits of 2005 and 2006. Lisa Thornburg was contacted. She quit and terminated her relationship when she had nearly finished her reports. Whittier asked if she will complete those for payment on her bill. He has not received a response yet. Whittier asked for the board to approve the responses to the cases. Shirley Mace moved to authorize Sharon Postalwait to sign these responses to the PSC cases. Roscoe Gainer 2nd the motion. Motion carried.

Whittier also reported on the Rule 19A Request for Change of Rates. His application for the PSD indicates the District is faced with extreme conditions where large rate increases are necessary. In support he cited the payment plan to the Town of Grantsville, 3 months behind with B & T (O & M Contract), penalties with the DEP of \$1,005 per month starting April, and payables in excess of \$80,000. He also explained there are volunteer employees and had figures attached to show data and income. PSC may send back due to lack of 2008 Annual Report. Whittier thinks they will give us time to have the Annual Report finished. He asked the board to authorize Sharon to sign this application. Fred Rader commented that if there are known capitol expenditures, the PSC will allow those to be capitalized. PSC attorney Anderson has worked with Whittier before and appears to be working with the PSD to help get the system straightened out. She could be asking for "Receivership" but has not at this point. Roscoe Gainer moved to approve Sharon Postalwait to sign the Rule 19A. Shirley Mace 2nd the motion. Motion carried.

3. *Review Operations and Maintenance Contract with B & T Battery Doctor:* Whittier reported a "simple" contract does not exist as a template. He talked to Virginia McDonald of the USDA and Allen Harris, her boss, and they will forward a copy of a contract to Whittier. He will then revamp it to suit the PSD's needs.

4. *Water and Sewer Field Reports:*

a. *Sewer:* Tom is home and very nauseated. He is gaining tho. Hauled one load of sludge, bill is in office. Need declor tablets. Sewer is running ok for now.

b. *Water:* Computer went out and the Gunn Tank went dry. Cindy Morgan had called and reported she had no water. Mr. Boyles looked at the situation and said something went wrong. He fixed it. The Pilot valves have been installed on Millstone Tank. Altitude valves are leaking through. Repair kits has leather packing and need those. The manual gauge is stuck. No dirt in the tank, it is clean. Should equalize the system. May have to estimate January readings due to bad weather. Leak is 9' deep and will fix as soon as weather breaks.

New Business

1. *Report from USDA on funds procurement for sewer treatment plant upgrades and/or existing water system upgrades and repairs:* Tim Meeks and Fred Rader reported there were 11 firms responded. Board will review those proposals and pick three to interview. Dick reported that three actually came out to inspect the plant. The engineers are only submitting qualifications at this point. Whittier asked about Homeland Security Funding. Fred Rader said he had make some phone calls to lots of different sources. He found nothing specific and no direction given and felt he was getting the run around.

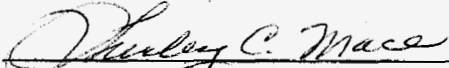

Sharon Postalwait, Chair 

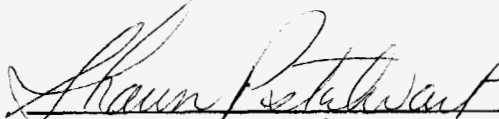

Shirley Mace, Sec/Trs 

2. *Discuss contracting an accountant* Whittier reported that Michael Griffith had indicated he was interested in doing accounting work for the PSD. He is to submit a contract for approval with rates. He has worked with the PSC and most of his staff has also. Fred Rader recommends Griffith also.

3. *Any Other new business:* Lisa Thornburg will submit a list of needed information to finish the 2007 or 2008 audits. Whittier will work on this. :

Roscoe Gainer moved to adjourn. Shirley Mace 2nd the motion. Motion carried.

I, Michael D. Griffith, a Certified Public Accountant, License No. WV003909, of Alum Creek, West Virginia, have reviewed the water service rates to be charged by the Mt. Zion Public Service District (the "District") that are included in a Recommended Decision of the Public Service Commission of West Virginia entered November 21, 2008, which became final on December 11, 2008, in Case No. 08-1360-PWD-CN, and which rates are effective for service rendered on or after substantial completion of the project. Based upon projected operation and maintenance expenses and anticipated customer usage, it is my opinion that the schedule of rates set forth in the Rate Tariff are adequate to pay operation and maintenance expenses of the System, as defined in the Bond Resolution, hereinafter described, to pay the principal of and interest, if any, on the 2010 Bonds and the Prior Bonds, as defined in the Bond Resolution, and to meet the one hundred fifteen percent (115%) debt service coverage requirement of the Prior Bonds and the 2010 Bonds and the Bond Resolution adopted by the Public Service Board of the District on November 28, 2009. It is my further opinion that the Net Revenues actually derived from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of the 2010 Bonds, plus the estimated average increased annual Net Revenues to be received in each of the three succeeding years after the completion of the improvements to be financed by the 2010 Bonds, will be not less than 115% of the largest aggregate amount that will mature and become due in any succeeding fiscal year for principal of and interest on the 2010 Bonds and the Prior Bonds.

CASE NO. 08-1360-PWD-CN

FINAL

12/11/2008

MT. ZION PUBLIC SERVICE DISTRICT,
a public utility, Valley Fork, Clay County.

Application for a certificate of convenience and necessity to construct water distribution system improvements consisting of approximately 24,000 linear feet of 10-inch water line, 45,000 linear feet of 8-inch water line, 38,000 linear feet of 6-inch water line, 2,300 linear feet of 2-inch water line, two pressure reducing stations, one booster station, one nominal 115,000-gallon water storage tank, telemetry equipment and miscellaneous appurtenances.

RECOMMENDED DECISION

On August 11, 2008, Mt. Zion Public Service District (District) filed an application, duly verified, for a certificate of convenience and necessity to construct certain additions and improvements to the District's water distribution system in Calhoun County. The project consists of approximately 24,000 linear feet of 10-inch water line, 45,000 linear feet of 8-inch water line, 38,000 linear feet of 6-inch water line, 2,300 linear feet of 2-inch water line, two pressure reducing stations, one nominal 115,000-gallon storage tank, telemetry equipment and miscellaneous appurtenances. The District proposed a 37% increase in its rates to generate sufficient revenues to cover the increased debt service and operation and maintenance (O&M) expenses associated with the project.

The estimated cost of the proposed project is approximately \$5,200,000, to be funded by Rural Utilities Service (RUS) Loans in the amounts of \$600,000 and \$850,000, both for terms of 40 years at 4.125% interest, RUS grants in the amounts of \$1,800,000 and \$450,000 and an Appalachian Regional Commission (ARC) grant in the amount of \$1,500,000. Commitment letters for the RUS funding were included with the application.

By Commission Order dated August 11, 2008, the Applicant was directed to give notice of the filing of its application by publishing a copy of the Order once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Calhoun County, making due return to the Commission of proper certification of publication immediately upon publication. Said Order also provided that anyone desiring to protest or intervene should file a written protest and intervention within thirty days following the date of publication.

By Commission Order dated August 20, 2008, this matter was referred to the Division of Administrative Law Judges with a decision due date of on or before December 29, 2008, if there has been no public protest to the application within thirty (30) days after the required notice has been provided. If a public protest was received within thirty (30) days after the required notice had been provided, the Division of Administrative Law Judges was to render its decision on or before April 2, 2009.

On September 2, 2008, the District submitted its letter of approval of funding from the ARC.

On September 5, 2008, the District filed an Affidavit of Publication reflecting that, on August 21, 2008, the Notice of Filing was published in The Calhoun Chronicle/Grantsville News, a newspaper duly qualified by the Secretary of State, published and of general circulation in Calhoun County. As of the date of this Order, no protests or requests to intervene have been filed.

On September 8, 2008, Staff Attorney Leslie J. Anderson filed an Initial Joint Staff Memorandum to which was attached the Initial Internal Memorandum prepared by Jonathan Fowler, P.E., Engineer II, Engineering Division, and Michael Quinlan, Utilities Analyst I, Water and Wastewater Division. This application is for a certificate of convenience and necessity to construct certain additions, extensions and improvements to the District's water distribution system in Calhoun County, West Virginia. The District currently serves approximately 406 customers and is proposing to extend its existing water distribution system to serve approximately 150 new customers in the areas of Sand Ridge, Russett, along WV Route 16 and along the waters of the West Fork of the Little Kanawha River.

The project is estimated to cost approximately \$5,200,000. The project has been approved by the West Virginia Infrastructure and Jobs Development Council (WVIJDC) and is proposed to be funded through a \$1,500,000 ARC grant, RUS loans in the amount of \$600,000 and \$850,000 and RUS grants in the amount of \$1,800,000 and \$450,000. All of the required information had been submitted with the application. Staff would continue to review the filing and issue its final recommendation in accordance with the Commission's required time frame. At a project cost of \$5,200,000 and given that the proposed customer density is 9.02 customers per mile of pipe, the average cost per customer was \$14,166.67.

On November 7, 2008, Staff Attorney Anderson filed the Final Joint Staff Memorandum to which was attached the Final Internal Memorandum prepared by Mr. Fowler and Mr. Quinlan. The proposed project will require that the treatment plant at Grantsville supply an additional estimated average daily consumption of just over 25,800 gallons, including a 15% loss. Based upon Staff's knowledge of this treatment plant and its current daily production, Staff opined that such additional production may easily be accommodated and it concurred with the District that using the existing plant at Grantsville as the water source represents the most practical and cost-efficient means of supplying water to the proposed extension.

The residents in the area commonly experience water quality and quantity problems. They rely on individual wells and cisterns. Complaints have included high levels of iron and other undesirable minerals that corrode pipes and fixtures; stained clothes; a strong sulfur odor; and "bad" tastes. Many residents in the area utilize expensive and unreliable home treatment units in an effort to improve the quality of water; however, the effectiveness of these units is often marginal at best. Many residents of the project area have also reported that their wells go dry at certain times of the year. Staff, therefore, supports the proposed project as being in the public interest. The project is necessary to enhance the public safety (by providing water for fire protection) and will positively impact the long-term economic viability of the area by providing an opportunity for commercial and business growth. The proposed project will involve the construction of approximately 20.65 miles of new waterlines of various sizes, one new storage tank and one new water booster station and necessary appurtenances.

The calculated customer density per mile of new main is 7.2 customers per mile, which normally is considered to be marginally low, and the estimated construction cost per new customer is estimated to be \$29,313 per customer, which is somewhat high, but not necessarily excessive in today's construction market. Staff noted that the financing includes a total of \$3,750,000 in grants, or 72.1% of the estimated project cost. Loan funds, on a unit-cost-per-customer basis, amount to just \$9,667 per customer, which Staff opines is quite favorable. This favorable grant/loan ratio should be taken into consideration when evaluating the feasibility of the project. The various engineering fees and associated technical services amount to \$530,000 or approximately 10% of the total project cost, which Engineering Staff opines is customary for projects of this scope and level of complexity.

The project has been reviewed by the West Virginia Bureau for Public Health and the necessary "Permit to Construct" (No. 18,007 dated June 16, 2008) has been issued by that agency. The West Virginia Division of Highways has been advised of this project and a draft permit has been prepared for the necessary construction activities and encroachment on State-controlled rights-of-way. All the necessary permits and regulatory approvals needed for this project have either been issued or will be available prior to the start of actual construction.

The estimate of O&M expenses as supplied by the District and its consulting engineer, as reflected in its Rule 42 exhibit, shows an increase in O&M expenses due to the proposed project of approximately \$40,600. Based upon Staff's review of this data and its review of similar utilities, Engineering Staff concurred that the estimated increased level of O&M expenses represents a reasonable, and not excessive, estimate of such costs.

The project funding consists of an ARC grant of \$1,500,000, an initial RUS loan of \$600,000 at 4.125% interest for 40 years, a subsequent RUS loan in the amount of \$850,000 at 4.125% interest for 40 years, an initial RUS grant in the amount of \$1,800,000 and a subsequent RUS grant of \$450,000. The loans will require a combined annual debt

service payment of \$77,424 and a debt service reserve of 10% of the annual debt payment, which is \$7,742. Letters of commitment for the RUS loans and grants dated May 18, 2007, were submitted with the application.

The District's current rates were established in Case No. 06-1764-PWD-30B and became effective for service rendered on and after May 23, 2007. The proposed rates are sufficient, based on the information provided, to cover the increased costs associated with the project. Staff made some changes to the recommended tariff.

The District has substantially complied with the notice provisions of West Virginia Code §24-2-11 and Rule 10.3.d. of the Commission's Rules of Practice and Procedure.

Based upon its review of the District's certificate application, supporting data and documents submitted therewith, Staff recommended that:

- (1) the District be granted a certificate;
- (2) The project financing be approved;
- (3) the Staff-recommended tariff rates and charges be approved which include, in addition to the District's proposed project-related rate increase, an increase in the 3-inch meter charge; a language change in the tap fee; and the addition of a security deposit;
- (4) if there are any changes in the plans or scope of the project, the District seek Commission approval of such changes;
- (5) if there are changes in the rates to be charged associated with the project, the District also seek Commission approval of such changes;
- (6) if there are changes in the project cost or financing which do not affect rates, the District file an affidavit executed by its CPA verifying that its rates and charges are not affected by the changes;
- (7) the District provide a copy of the engineer's certified bid tabulation within ten days of the bid opening date for each construction contract or vendor bid contract to be awarded for this project;
- (8) the District submit a copy of the Certificate of Substantial Completion issued for each construction contract associated with the project as soon as each becomes available; and
- (9) notice be given of the change in language of the tap fee and the addition of a security deposit to the District's tariff.

Staff recommended that the District be given ten days to file a response to Staff's recommendations.

By letter dated November 7, 2008, a copy of the Final Joint Staff Memorandum was sent to the District, advising it of its right to respond within ten days. Additionally, the letter reminded the District that failure to respond to Staff's recommendations could result in a decision in the case based on the documents in the case file without further hearing or notice. No response was received from the District within the ten-day response period, or as of the date of this Order. Therefore, it will be assumed that Mt. Zion Public Service District accepts the Staff recommendations in this case.

DISCUSSION

The need for the proposed project is evident given that residents in the area commonly experience water quality and quantity problems, including high concentrations of iron and other undesirable minerals which corrode pipes and fixtures; stained clothing; and a strong sulfur odor. Also, the project is necessary to enhance the public safety by providing water for fire protection and it will positively impact the long-term economic viability of the area by providing an opportunity for commercial and business growth. The project has been approved by the WVIJDC.

The project will add an additional 150 new customers to the District. The residents in this area will benefit from the project since it will alleviate existing health and safety concerns due to substandard water service. The District already has obtained user's agreements from 80% of the new customers.

Based upon a review of the District's application, as well as Staff's recommendations, it is clear that the proposed project is financially feasible and that the financing of the proposed project should be approved, since all funding commitment letters have been filed.

Accordingly, the certificate application will be granted, along with the financing for the project. The Staff-recommended rates will provide a reasonable cash flow surplus, after O&M expenses and debt service requirements, and, since there have been no protests filed to this application and rate increase, they also will be approved. There is no need for the District to publish notice of the Staff-recommended tariff changes. The change in the 3-inch meter charge is not significant and is covered by the language in the Notice of Filing that the proposed rates may be increased or decreased by the Public Service Commission. The language change regarding the tap fee merely incorporates a pre-construction tap fee which is lower than, and incorporated in, the post-construction tap fee which is already included in the District's tariff. Further, the \$100 pre-construction tap fee was published in the Notice of Filing. The absence of specific verbiage is irrelevant. Finally, the security deposit is already authorized in Rule 4.2.a.2. of the Commission's Water Rules, and is authorized by statute. For years, the Commission allowed security deposits to be collected without including them in utility tariffs. The fact that now the Commission prefers that

they be listed in the tariff does not mean that they must be published.

FINDINGS OF FACT

1. Mt. Zion Public Service District filed an application, duly verified, for a certificate of convenience and necessity to construct certain additions and improvements to its water distribution system in Calhoun County, West Virginia. The District proposed a 37% increase in its rates to generate sufficient revenues to cover the increased debt service and O&M expenses associated with the project. (See application filed August 11, 2008)

2. The estimated cost of the project, \$5,200,000, is to be financed by a \$1,500,000 ARC grant; an initial RUS loan in the amount of \$600,000, at 4.125% interest per annum for 40 years; a further RUS loan in the amount of \$850,000, at 4.125% interest per annum for 40 years; an initial RUS grant in the amount of \$1,800,000; and a subsequent RUS grant of \$450,000. Commitment letters for all of the funding sources have been filed. (See, application filed August 11, 2008; ARC letter filed September 2, 2008; Final Joint Staff Memorandum and attachments filed November 7, 2008).

3. The District gave notice of the filing of its certificate application in accordance with the Commission's requirements by publishing a Notice of Filing on August 21, 2008 in The Chronicle/Grantsville News, a newspaper, duly qualified by the Secretary of State, published and of general circulation in Calhoun County. No protests have been filed. (See, affidavit filed September 4, 2008).

4. The District's proposed 37% increase in rates will increase annual revenues to \$128,705. The District estimates that its annual O&M expenses will increase \$40,600, while total debt service and reserve requirements are projected to increase by \$85,166 per year as a result of this project. The remaining cash flow surplus is projected to increase \$2,939 and result in a pro forma cash flow surplus of \$35,616 and a debt service coverage of 135.386%. (See, Final Joint Staff Memorandum filed November 7, 2008).

5. The residents of the area to be served currently have an unsatisfactory water supply from individual wells and cisterns, including high concentrations of iron and other undesirable chemicals; stained clothing; a strong sulfur odor; and a bad taste. Also, many of the wells go dry at certain times of the year. (See, Final Joint Staff Memorandum filed November 7, 2008).

6. Commission Staff recommended that the project and its funding be approved. (See, Final Joint Staff Memorandum filed November 7, 2008).

CONCLUSIONS OF LAW

1. The public convenience and necessity require the issuance of a certificate of convenience and necessity to Mt. Zion Public Service District to provide safe, reliable and potable water service to the District's current customers and to serve approximately 150 new customers

in the areas of Sand Ridge, Russett, along West Virginia Route 16 and along the waters of the West Fork and Little Kanawha Rivers.

2. It is reasonable to approve the financing of the project, which consists of a \$1,500,000 ARC grant; an initial RUS loan in the amount of \$600,000, at 4.125% interest per annum for 40 years; a further RUS loan in the amount of \$850,000, at 4.125% interest per annum for 40 years; an initial RUS grant in the amount of \$1,800,000; and a subsequent RUS grant of \$450,000.

3. It is reasonable to approve the District's proposed rates and charges, as amended by Staff and as are more particularly set forth in Appendix A, attached hereto to become effective for all services rendered by the District on and after the date that the subject project is certified as substantially complete.

Re: Mount Zion Public Service District
Water Project 2001W-607

Dear Ms. Postalwait:

The West Virginia Infrastructure and Jobs Development Council (the "Council") has reviewed the Mount Zion Public Service District's (the "District") revised preliminary application to construct waterline, storage tanks, a booster station, pressure reducing stations and necessary appurtenances (the "Project").

Based on the findings of the Water Technical Review Committee, the Council has determined that the Project is technically feasible within the guidelines of the Infrastructure and Jobs Development Act. The District should carefully review the enclosed comments of the Water Technical Review Committee as the District may need to address certain issues raised in said comments as it proceeds with the Project.

Upon consideration of the revised preliminary application, the Council determined that the District should utilize a \$600,000 Rural Utilities Service loan, a \$1,800,000 Rural Utilities Service grant, a \$1,500,000 Appalachian Regional Commission grant, pursue an additional \$850,000 Rural Utilities Service loan and an additional \$450,000 Rural Utilities Service grant to fund this \$5,200,000 project. Please contact the Rural Utilities Service office at (304) 420-6666 for specific information on the steps the District needs to follow to apply for these funds. **Please note that this letter does not constitute funding approval from this agency.**

If you have any questions regarding this matter, please contact Jeff Brady at 558-4607.

Sincerely,

Sharon Postalwait, Chairperson
Mt. Zion Public Service District
P.O. Box 122
Grantsville, WV 26147

Dear Ms. Postalwait:

This letter, with Attachments 1 through 14 and enclosures, establishes conditions which must be understood and agreed to by you before further consideration may be given to your application. The loan and grant will be administered on behalf of the Rural Utilities Service (RUS) by the State and Area staff of USDA, Rural Development. Any changes in project cost, source of funds, scope of services, or any other significant changes in the project or applicant must be reported to and approved by USDA, Rural Development, by written amendment to this letter. Any changes not approved by Rural Development shall be cause for discontinuing processing of the application.

The docket may be completed on the basis of an RUS loan in the amount of \$600,000, an RUS grant in the amount of \$1,800,000, and other funding in the amount of \$1,500,000, for a total project cost of \$3,900,000. The other funding is planned in the form of a grant from the HUD – Small Cities Block Grant Program.

The loan will be considered approved on the date a signed copy of Form RD 1940-1, "Request for Obligation of Funds," is mailed to you. The interest rate will be the lower of the rate in effect at the time of loan approval or the time of loan closing.

Extra copies of this letter are being provided for use by your engineer, attorney, bond counsel and accountant. The enclosures and attachments listed below are attached to the copies as noted. Enclosed are the following:

- Attachment No. 1 - Project Construction Budget (All Copies)
- Attachment No. 2 - Water and Waste Processing Checklist for Mt. Zion PSD

- Attachment No. 3 - RUS Instruction 1780, Subparts A and B (Applicant Copy)
- Attachment No. 4 - RUS Instruction 1780, Subpart C (Engineer Copy)
- Attachment No. 5 - RUS Instruction 1780, Subpart D (Attorney and Bond Counsel
Copies)

- Attachment No. 6 - RUS Supplemental General Conditions (Engineer Copy)
- Attachment No. 7 - RUS Bulletin 1780-26, "Guidance for the Use of EJCDC Standard Documents on Water and Waste Project with RUS Financial Assistance"
- Attachment No. 8 - Government Auditing Standards (Revision 1994) (Accountant Copy)
- Attachment No. 9 - RUS Bulletin 1780-30, "Water Programs Audit Guide and Compliance Supplement "
- Attachment No. 10 - RUS Bulletin 1780-31, "Water Programs Compliance Supplement for OMB Circular A-133 Audits"
- Attachment No. 11 - Water Users Agreement (Applicant and Attorney Copies)
- Attachment No. 12 - Declination Statement (Applicant and Attorney Copies)
- Attachment No. 13 - Sample Credit Agreement (Applicant Copy)
- Attachment No. 14 - Various other RD Forms as identified on Attachment No. 2

The conditions referred to above are as follows:

1. Loan Repayment - The loan will be scheduled for repayment over a period of 40 years. The payments due the first 24 months will consist of interest only. Payments for the remaining 456 months will be equal amortized monthly installments. For planning purposes use a 4.50% interest rate and a monthly amortization factor of .00459, which provides for a monthly payment of \$2,754. You have the option of participating in the PREAUTHORIZED DEBIT (PAD) payment process. It will allow for your payment to be electronically debited from your account on the day your payment is due. Your authority must establish and fund monthly a debt service reserve account, which equals 10% of your monthly payment each month until you accumulate the equivalent of one annual installment on your loan.

You are reminded that your authority may be required to refinance (graduate) the unpaid balance of its RUS loan, in whole or in part, upon the request of RUS if at any time it shall be determined the authority is able to obtain a loan for such purposes from responsible cooperative or private sources at reasonable rates and terms for loans for similar purposes and periods of time.

2. Security - The loan must be secured by a statutory lien of equal priority with the District's existing bonds, a pledge of the system's revenues and other agreements between you and RUS as set forth in the bond resolution which must be properly adopted and executed by the appropriate officials of your organization. Additional security requirements are contained in RUS Bulletin 1780-12 and RUS Bulletin 1780-27 which are mentioned later.

3. Users - This conditional commitment is based upon you providing evidence that you will have at least 561 bona fide users on the proposed system when it has been completed and is placed in operation. This evidence will consist of 183 signed user agreements and a certification from you that identifies and attests to the number of users actually connected to and using the District's existing water system, which is to be partially replaced by the new system, at the time you request authorization to advertise the proposed project for construction bids.

The enclosed Water Users Agreement (RUS Bulletin 1780-9) will be used. Each user signing an agreement must make a user contribution of \$100. Each potential user who is located along planned lines and declines the offered service will be provided an opportunity to sign a "Service Declination Statement." A guide "Service Declination Statement" is attached for your use. If a potential user refuses to sign either a user agreement or a declination statement, the individual making the contact for the District should complete the declination statement for that potential user and note thereon his/her visit with the potential user, the potential user's refusal to sign, and the reason therefore. The declination statement should also be dated and signed by the individual making the contact.

Before RUS can agree to the project being advertised for construction bids, you must provide evidence that the total required number of bona fide users has been acquired and that all potential users have been offered the proposed service. Information and material evidencing compliance with this requirement must consist of (1) your certification (written) as to the number of users connected to and using the water service of the existing system (paying monthly bills), (2) signed user agreements, (3) signed service declination statements, (4) records evidencing user contributions having been paid, (5) a map locating each potential user's property in the new service area identifying it by number, (6) a list of all signed bona fide users numbered so as to be a cross-reference with the map, and (7) a list of all declination statements numbered so as to be a cross-reference with the map.

4. Bond Counsel - The services of a recognized bond counsel are required. The bond counsel will prepare the form of resolution to be used, in accordance with Subpart D of RUS Instruction 1780. You should immediately provide your bond counsel with a copy of this letter of conditions, its attachments and enclosures.
5. Engineering Services - It will be necessary for you to obtain the services of an engineer. EJCDC No. 1910-1-FA, "Standard Form of Agreement between Owner and Engineer for Professional Services" (Funding Agency Edition) should be used to obtain the services of an engineer. The EJCDC document is issued under copyright and cannot be provided by RUS.

Prior to loan and grant closing, you must provide RUS with documentation that the West Virginia Public Service Commission has reviewed and approved the engineering agreement.

6. Legal Services – It will be necessary for you to obtain the services of a local attorney. For your convenience RUS Bulletin 1780-7, “Legal Services Agreement” is enclosed for your use.
7. Accounting Services – It will be necessary for you to obtain the services of a qualified accountant. The accountant must agree to develop and provide the following:
 - a. All necessary accounting material required by the Public Service Commission of West Virginia (Rule 42 Exhibit).
 - b. Prior to the advertisement of bids, your accountant must certify that the accounts and records as required by your bond resolution have been established and are operational.

The Accountant's Agreement should be submitted to RUS for review. Compensation in the contract should include only those services identified above and not include payment for construction management services from the accountant unless RUS concurrence is obtained.

RUS regulations (Attachment No. 3) outline requirements for the submission of management reports and audits. Appropriate state statutes place certain audit requirements on your District. The attached booklets, “Government Auditing Standards (Revised 1994)” (Attachment No. 8), and RUS Bulletins 1780-30 1780-31 (Attachment Nos. 9 and 10) outline audit requirements.

You are reminded that certain provisions of the Office of Management and Budget Circular A-133 are applicable to any public body or nonprofit association that expends \$300,000 or more in federal funds in any one fiscal year. You must enter into an agreement annually with an accountant (or the State Tax Department) to perform the audit. The agreement must be in accordance with the requirements of the State Tax Commissioner of West Virginia. Compensation for preparation of the A-133 audit or your annual audit are not included in project funds and should be paid from the operational revenues generated from your system operation.

8. Facility Control - Prior to advertisement for construction bids, you must furnish satisfactory evidence that you have or can obtain adequate continuous and valid control over the lands and rights needed for the project. Such evidence must be in the following form:
 - a. A right-of-way map showing clearly the location of all lands and rights needed for the project. The map must designate public and private lands and rights and the appropriate legal ownership thereof.

- b. A copy of deeds, contracts or options for any lands needed other than rights-of-way, along with a preliminary title opinion covering such lands. Form RD 1927-9, "Preliminary Title Opinion" may be used. In the case of your existing system or where the District already acquired real property (land or facilities), a preliminary title opinion(s) concerning all such property(s) will be provided.
 - c. A narrative opinion from your attorney concerning all permits, certifications and other items necessary to show that all legal requirements can be met and stating how they will be met. This narrative should also identify any condemnation proceedings that are anticipated and state how they will be handled.
 - d. A certification and legal opinion relative to title to rights-of-way and easements. Form RD 442-22, "Opinion of Counsel Relative to Rights-of-Way," may be used. This form may contain a few exceptions such as properties that must be condemned; however, prior to the start of construction or loan closing, whichever occurs first, a new Form RD 442-22, must be provided which does not provide for any exceptions.
 - e. On the day of loan closing, the District's attorney must furnish final title opinions on all land(s) being acquired. Form RD 1927-10, "Final Title Opinion" may be used. In the case of your existing system or where the District has already acquired real property(s) (land or facilities), the District's attorney will provide a separate final title opinion(s) covering such property(s) on the day of loan closing.
9. Permits - Copies of all permits needed for the project must be provided for review prior to advertisement for construction bids. Such permits will include but are not limited to the following:
- West Virginia Department of Highways
 - State Department of Health
 - Department of Environmental Protection
 - Public Land Corporation
10. Public Service Commission Approvals - You must obtain the following from the Public Service Commission of West Virginia:
- a. A Certificate of Convenience and Necessity.
 - b. Approval of user charges that are acceptable to you and the Rural Utilities Service.
 - c. Approval of financing for the project's proposed financing arrangements.

The "Rule 42" Exhibit to be attached to the Public Service Commission application must contain at least the information shown in Attachment No. 1. A copy of the Public Service Commission application and its "Rule 42" Exhibit must be provided for review.

11. Insurance and Bonding Requirements - Prior to preliminary loan closing, you must acquire the following insurance and bond coverage:
 - a. Liability Insurance - Personal Liability - \$500,000; Property Damage - \$200,000 - \$200,000. The limits of liability coverage noted herein should be considered as suggested amounts only. RUS recommends that you consider analyzing your actual needs in detail before you obtain coverage in a specific amount.
 - b. Workers' Compensation - In accordance with appropriate State laws.
 - c. Position Fidelity Bond(s) - All positions occupied by persons entrusted with the receipt and/or disbursement of funds must be bonded. As a good business practice you will probably wish to have each position bonded in an amount equal to the maximum amount of funds to be under the control of that position at any one time. The minimum coverage acceptable to RUS will be for each position to be bonded for an amount at least equal to one annual installment on your loan(s).
 - d. National Flood Insurance - In addition to meeting the requirements for the type of assistance requested, the following requirements must be met for financial assistance for acquisition and/or construction in designated special flood or mudslide prone areas:
 - (1) If flood insurance is available, you must purchase a flood insurance policy at the time of loan closing.
 - (2) Applicants whose buildings, machinery or equipment are to be located in a community which has been notified as having special flood or mudslide prone areas will not receive financial assistance where flood insurance is not available.
 - e. Real Property Insurance - Prior to the acceptance of the facility from the contractor(s), you must obtain real property insurance (fire and extended coverage) on all above-ground structures, to include machinery and equipment housed therein. This does not apply to water reservoirs, standpipes, elevated tanks or noncombustible materials used in treatment plants, clearwells, filters and the like.

12. Contract Documents, Final Plans and Specifications -

a. The contract documents should consist of the following:

(1) EJCDC Document No. 1910-8-A-1-FA, 1997 Edition, "Standard Form of Agreement between Owner and Contractor on the Basis of Stipulated Price" and EJCDC Document No. 1910-8-FA, "Standard General Conditions of the Construction Contract – Funding Agency Edition" and Attachments. The EJCDC document is issued under copyright and cannot be provided by RUS.

(2) "RUS Supplemental General Conditions."

RUS Bulletin 1780-26, "Guidance for the Use of EJCDC Standard Documents on Water and Waste Projects with RUS Financial Assistance," is enclosed for use by your engineer in the preparation of the contract documents (Attachment No. 7).

b. The contract documents must provide, as a minimum, the following insurance:

(1) Liability Insurance - Personal Liability - \$500,000; Property Damage - \$200,000 - \$200,000. This coverage must include indemnification of the District and its engineer. RUS Bulletin 1780-13, Attachment 9, suggests certain limits of liability for insurance coverage. Those limits should be considered as minimum requirements only. It is recommended you consider increasing the given limits of liability after analyzing your specific needs.

(2) Builder's Risk Insurance - On all structures and mechanical and electrical equipment in place or stored on the site to the full insurable value thereof.

(3) Workers' Compensation - In accordance with applicable State laws.

c. The contract documents and final plans and specifications must be submitted to RUS for approval.

d. The project must be designed in compliance with Section 504 of the Rehabilitation Act of 1973.

13. Interim Financing - Interim financing will be used for the RUS loan if it is available at reasonable rates and terms. You must provide RUS with a copy of the tentative agreement reached in connection with interim financing. A copy of the proposed agreement should be provided for RUS review. A Sample Credit Agreement is attached for your use in meeting this requirement (Attachment No.13).

14. Disbursement of Funds - The RUS funds will be advanced as they are needed in the amount(s) necessary to cover the RUS proportionate share of any disbursements required of your District, over 30 day periods. Any grant funds not disbursed immediately upon receipt must be deposited in an interest bearing account.

Public Bodies – Interest earned on grant funds in excess of \$100 per year will be submitted to RUS at least quarterly as required in 7 CFR 3016.

The District must assure that all project funds are expended only for the eligible items included in the final project budget or as may be later approved by RUS.

15. Water Purchase Contract - You propose to purchase treated water from the Town of Grantsville; therefore, you must enter into a Water Purchase Contract. Form RD 442-30 must be used unless you receive an exception from RUS.
16. Other Grants - Prior to advertisement for construction bids, you must provide evidence showing the approval of the other grants. This evidence should include a copy of the grant award. Prior to award of the contract(s) to the contractor(s), you must provide evidence that the "other" grant funds are available for expenditure. This evidence should consist of at least a letter from the grantor stating the funds are available for expenditure.
17. At a properly called meeting, you must adopt and properly execute the following forms, and minutes showing the adoption must be provided:

Form RD 442-7 - "Operating Budget"

Form RD 1940-1 - "Request for Obligation of Funds"

RUS Bulletin 1780-12 - "Water or Waste System Grant Agreement"

RUS Bulletin 1780-27 - "Loan Resolution (Public Bodies)"

Form RD 400-1 - "Equal Opportunity Agreement"

Form RD 400-4 - "Assurance Agreement"

Form AD 1047 - "Certification Regarding Debarment - Primary"

Form AD 1049 - "Certification Regarding Drug-Free Workplace"

Form RD 1910-11 - "Applicant Certification, Federal Collection Policies"

FmHA Instruction 1940-Q, Exhibit A-1, "Certification for Contracts, Grants and Loans"

Certification of Compliance

Form RD 1942-46, "Letter of Intent to Meet Conditions"

18. The enclosed Water and Waste Processing Checklist (Attachment No. 2) outlines the items needed to complete the loan and grant docket. All the items listed must be included in the loan and grant docket when it is forwarded to the

USDA - Rural Development State Office with a request for loan closing instructions to be issued.

19. Upon receipt of the loan and grant docket, which contains all the items required above, RUS may authorize you to advertise the project for construction bids. Such advertisement must be in accordance with appropriate State statutes. Immediately after bid opening you must provide RUS with (a) a bid tabulation, (b) recommendations from you and your engineer as to the acceptability of the bids received, and (c) your recommendations for contract awards. If all parties then agree the construction bids received are acceptable, it is determined that adequate funds are available to cover the total facility costs, and that all the administrative conditions of loan approval have been satisfied, loan closing instructions will be issued. The closing instructions, a copy of which will be forwarded to you, will set forth any further requirements that must be met before the loan can be closed.

When all parties agree that the closing requirements can be met, a mutually acceptable date for the loan closing will be scheduled.

Any applicant contribution shall be considered as the first funds expended. After providing for all authorized costs, any remaining RUS project funds will be considered to be RUS grant funds and refunded to RUS. If the amount of unused RUS project funds exceeds the RUS grant, that part would be RUS loan funds.

If the conditions set forth in this letter are not met within six (6) months from the date hereof, RUS reserves the right to discontinue processing of the application. In the event the project has not advanced to the point of loan closing within the six-month period and it is determined the authority still wishes to proceed, it will be necessary that the proposed budget be reviewed again in detail. If during that review, it is determined the budget is no longer current and/or adequate, RUS reserves the right to require that it be revised or replaced.

We believe the information herein clearly sets forth the actions which must be taken; however, if you have any questions, please do not hesitate to contact me.

Sincerely yours,

JENNY N. PHILLIPS

**RE: Amendment No. 1 to
Letter of Conditions**

Dear Ms. Postalwait:

This letter, with Attachment No. 1 amends the letter of conditions dated July 1, 2002 and further establishes conditions which must be understood and agreed to by you before further consideration may be given to your application. The loan and grant will be administered on behalf of the Rural Utilities Service (RUS) by the State and Area staff of USDA, Rural Development (RD). Any changes in project cost, source of funds, scope of services, or any other significant changes in the project or applicant must be reported to and approved by USDA, Rural Development by written amendment to this letter. Any changes not approved by Rural Development shall be cause for discontinuing processing of the application.

The docket may be completed on the basis of an initial RUS loan in the amount of \$600,000, a subsequent RUS loan in the amount of \$850,000, an initial RUS grant in the amount of \$1,800,000, a subsequent RUS grant in the amount of \$450,000, and other funding in the amount of \$1,500,000, for a total project cost of \$5,200,000. The other funding is planned in the form of a grant from the Appalachian Regional Commission.

Subject to the requirements noted herein, all of the conditions of the July 1, 2002 letter of conditions remain in effect and must be satisfied prior to loan and grant closing.

Extra copies of this letter are being provided for use by your engineer, attorney, bond counsel and accountant. The enclosures and attachments listed below are attached to the copies as noted.

Enclosed are the following:

Attachment No. 1 - Project Construction Budget (All Copies)

Committed to the future of rural communities.

"USDA is an equal opportunity provider, employer and lender."

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, DC 20250-9410 or call (800)795-3272 (voice) or (202) 720-6382 (TDD).

The conditions referred to above are as follows:

1. Loan Repayment – The subsequent loan will be scheduled for repayment over a period of 40 years. The payments due the first 24 months will consist of interest only. The remaining 456 months will be equal amortized monthly installments. For planning purposes, use a 4.125% interest rate and a monthly amortization factor of .00435 which provides for a monthly payment of \$3,698 on the subsequent loan. (The monthly payment for the initial \$600,000 loan is \$2,754 and the monthly payment for the subsequent \$850,000 loan is \$3,698, for a total loan of \$1,450,000 and a total monthly payment of \$6,452.
2. Users – The conditional commitment is based upon the District providing evidence that there will be at least 540 bona fide users on the proposed system when it has been completed and is placed in operation. This evidence will consist of 150 signed user agreements and a certification from the District that identifies and attests to the number of users that are actually connected to the District's water system at the time you request authorization to advertise the project for construction bids.
3. Amendments to Professional Agreements – Amendments to the following professional agreements must be submitted to our office for review and approval:
 - a. Agreement for Engineering Services
 - b. Legal Services Agreement
 - c. Bond Counsel Engagement Letter
 - d. Agreement with Accountant
4. The bond for the \$850,000 subsequent loan will need to be a separate bond and it will include the interest rate determined applicable prior to loan closing. It will be satisfactory for the subsequent loan bond to be described in the same loan resolution as the \$600,000 initial loan and for all other information and items of the loan resolution and bond transcript to reflect a \$1,450,000 total issue consisting of two or more bonds. A copy of this letter should be provided to your bond counsel immediately.
5. Public Service Commission (PSC) Approval - You must obtain PSC approval of the project's proposed financing and user rates as may result from this amendment to the letter of conditions.
6. At a properly called meeting, you must adopt and properly execute the following forms, and minutes showing the adoption must be provided:
 - RUS Bulletin 1780-12 - "Water or Waste System Grant Agreement"
 - Form 1940-1 - "Request for Obligation of Funds"
 - RUS Bulletin 1780-27 - "Loan Resolution"
 - Form RD 1942-46 - "Letter of Intent to Meet Conditions"

If the conditions set forth in this letter are not met within six (6) months from the date hereof, RD reserves the right to discontinue processing of the application. In the event the project has not advanced to the point of loan closing within the six-month period and it is determined the District still wishes to proceed, it will be necessary that the proposed budget be reviewed again in detail. If, during that review, it is determined the budget is no longer current and/or adequate, RD reserves the right to require that it be revised or replaced.

We believe the information herein clearly sets forth the actions which must be taken; however, if you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, consisting of a series of connected loops and a final flourish.

MT. ZION PUBLIC SERVICE DISTRICT
WATER REVENUE BOND,
SERIES 2010 A

No. AR-1

Date: April 26, 2010

FOR VALUE RECEIVED, the MT. ZION PUBLIC SERVICE DISTRICT, a public service district created, expanded and contracted pursuant to the Act by orders issued by The County Commission of Calhoun County, in Calhoun County, West Virginia (herein called "Issuer"), hereby promises to pay to the order of the United States of America (the "Government"), or its registered assigns at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of Six Hundred Thousand and 00/100 Dollars (\$600,000), plus interest on the unpaid principal balance at the rate of four and 125/1000 percent (4.125%) per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing on the 30th day following delivery of the Bond and continuing on the corresponding day of each month for the first twenty-four (24) months after the date hereof, and \$2,610.00 covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of forty (40) years from the date of this Bond, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Issuer as requested by Issuer and approved by the Government, and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto and made a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to the principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Issuer. Refunds and extra payments, as defined in the regulations of the Rural Development Authority, acting on behalf of the Rural Utilities Service, according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Issuer to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Issuer shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Issuer may, at the option of the Government, be remitted by the Government to

the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Issuer, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Issuer, and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security hereof or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Issuer to the Government without demand. Issuer agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Issuer hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of construction of improvements to a water system (the "System") of the Issuer, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Issuer, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Bond Legislation, and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Article 13A of Chapter 16 of the West Virginia Code (herein called the "Act").

If at any time it shall appear to the Government that Issuer may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Issuer will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Issuer made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act, as amended. This Bond shall be subject to the present regulations of the Rural Development Authority, acting on behalf of the Rural Utilities Service, and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND SHALL BE ON PARITY AS TO LIEN ON AND SOURCE OF PAYMENT WITH THE ISSUER'S WATERWORKS REVENUE BONDS, SERIES B(1974), WATER REVENUE BONDS, SERIES 1984, WATER REVENUE BOND, SERIES 1998, AND WATER REVENUE BOND, SERIES 2010 B OF THE ISSUER DESCRIBED IN THE RESOLUTIONS ISSUED WITH RESPECT TO EACH SERIES.

The initial address of Government for purposes of bond registration is P.O. Box 678, Morgantown, WV 26505.

IN WITNESS WHEREOF, the MT. ZION PUBLIC SERVICE DISTRICT has caused this Bond to be executed by its Chairperson and its corporate seal to be hereunto affixed or imprinted hereon and attested by its Secretary, all as of the date hereinabove written.

Re: \$600,000 Mt. Zion Public Service District,
Water Revenue Bond, Series 2010 A and
\$850,000 Mt. Zion Public Service District,
Water Revenue Bond, Series 2010 B

Ladies and Gentlemen:

As attorney for the Mt. Zion Public Service District, Calhoun County, West Virginia (the "District"), we have examined the record of proceedings relating to the issue of the Mt. Zion Public Service District, Water Revenue Bond, Series 2010 A and Revenue Bond Series 2010 B, dated April 26, 2010, in the aggregate principal amounts of \$600,000 and \$850,000 (collectively, the "Bonds") and have considered the validity of the bond issues. In this connection, we have examined and am familiar with the Constitution and statutes of the State of West Virginia, including Chapter 16, Article 13A of the Code of West Virginia of 1931, as amended, the Orders of the Calhoun County Commission creating and expanding the District, related minutes and a certified copy of the Resolution passed by the District (the "Resolution"), a copy of the certificate of convenience and public necessity issued by the West Virginia Public Service Commission, the water rates necessary to pay for the Bonds as described in the Resolution, copies of contracts and other documents relating to the funding and approval for the project by the District, including but not limited to the construction contract, plans and specifications, and other documents relating to the project, the Letter of Conditions forwarded by the United States Department of Agriculture, Rural Development to the District, and other documents incidental and material to the issuance by the District of the Bonds. From such familiarity and examination, we are of the opinion as follows:

1. The District is a duly created and presently existing public service district of the State of West Virginia with full power and authority to construct and acquire and to operate and maintain the Water System and to issue and sell the Bonds, all under the provisions of Chapter 16, Article

13A (the "Act"), of the Code of West Virginia, 1931, as amended, and other applicable provisions of law.

2. The District, through its Board, has legally and effectively enacted the Resolution and has duly authorized the issuance and delivery of the Bonds to the United States of America, and the Chairperson of the Board is duly and lawfully entitled and authorized to execute the Bonds.

3. The Bonds constitute a valid and legally enforceable special obligation of the District secured by and payable solely from a parity lien on and pledge of the net revenues of the System on parity with the 1974 Bond, the 1984 Bond, and the 1998 Bond (collectively, the "Prior Bonds"), as described in the Resolution, all in accordance with the terms of the Bonds and the Resolution.

4. The District, through its Board, has legally and effectively enacted the water rates necessary to make the payments on the Bonds and the Prior Bonds from the rates described in the Resolution, and it has lawfully enacted and has filed a tariff which has been approved by the West Virginia Public Service Commission for the water rates that are described in the Resolution.

5. The District has obtained from the West Virginia Public Service Commission a valid, final and non-appealable certificate of convenience and necessity under Case No. 08-1360-PWD-CN which lawfully authorizes the District to proceed with the construction and operation of the District's Water System and approval of and issuance of the Bonds.

6. The District, through its Board, has legally and effectively adopted all other resolutions, contracts and agreements that are necessary to comply with the letter of conditions previously forwarded and conditions required in the letter of conditions as well as complied with all necessary provisions of the Resolution necessary before the Bonds may be issued and delivered and that the Bonds can in fact be lawfully issued and delivered.

7. The execution and delivery of the Bonds and the enactment of the Resolution and compliance with the provisions of them will not conflict with nor constitute a breach of or default under any agreement or other instrument known to me to which the District is a party, or any court order or consent decree known to me to which the District is subject, or any law or administrative regulation to which the District is subject.

8. All authorizations, consents, approvals and reviews by governmental bodies or regulatory authorities then required for the District's adoption, execution or performance of the Bonds and the Resolution have been obtained or affected, and we have no reason to believe that the District will be unable to obtain or affect any additional such authorizations, consents or approvals that may be required in the future for performance of any of them by the District.

9. To the best of my knowledge there is presently no action pending or suit pending against the Mt. Zion Public Service District before any Court, public board or body. There were formally two (2) civil actions pending in the Circuit Court of Calhoun County, West Virginia against the Mt. Zion Public Service District in which the procedures of the district in the bidding of this project were at issue. These civil actions - Welding, Inc. vs. Mt. Zion Public Service District, Boyles & Hildreth, Consulting Engineers, Inc. And Mid-Atlantic Storage Systems, Inc.

Calhoun County Civil Action 09-C-29 and Ronald Lane, Inc. vs. Mt. Zion Public Service District, Boyles & Hildreth, Consulting Engineers, Inc. And Mid-Atlantic Storage Systems, Inc. Calhoun County Civil Action 09-C-30 have both been dismissed in so far as they pertain to the Mt. Zion Public Service District.

These dismissals were however, without prejudice. This means that the Plaintiffs could at any time re-file the civil actions against Mt. Zion Public Service District. Counsel for the Plaintiffs in said civil actions have indicated that the Plaintiffs have no intentions of re-filing any civil action against Mt. Zion Public Service District. Counsel indicated that the Plaintiffs would file an amended Complaint against Boyles & Hildreth Engineering, but not against the District. The Plaintiffs have in fact filed a Motion for Leave To Amend and provided a copy of their amended Complaint which does not make any allegations against the Mt. Zion Public Service District.

To the best of my knowledge there is no action, suit or proceeding at law or at equity threatened against or affecting the Mt. Zion Public Service District at present. The Plaintiffs in the above noted civil actions threatened to bring suit against the Mt. Zion Public Service District several times in the past before actually bringing suit. Now that the suits have been dismissed the said Plaintiffs and their counsel have only indicated that they will not be suing the Mt. Zion Public Service District, so no suit is presently pending.

There is pending before the Public Service Commission of West Virginia a general investigation of the Mt. Zion Public Service District. This action was initially filed by the Calhoun County Commission. Since the filing of this action the district has changed personnel, revised a number of its policies, applied for a Rule 19A Rate Increase and entered into a contract with a new CPA. The Mt. Zion Public Service District has provided all available information requested by the Public Service Commission staff and has worked with members of the staff to remedy various problems. The Mt. Zion Public Service District expects the investigation to continue for a period of time and believes that the investigation will eventually be dismissed.

No facts exist relating to the composition of the Mt. Zion Public Service District Board or the exercise of their duties, wherein an unfavorable decision, ruling or finding would have a materially adverse effect upon the validity of the Bond or the Bond Resolution.

The foregoing opinion is qualified to the extent that the enforceability of the liens, pledges and terms set forth in the Bonds and in the Bond Resolution may be limited by bankruptcy, insolvency and other laws affecting the rights of creditors generally.

Very truly yours,

Thomas N. Whittier

Re: \$600,000 Mt. Zion Public Service District
Water Revenue Bond, Series 2010 A and
\$850,000 Mt. Zion Public Service District
Water Revenue Bond, Series 2010 B

Ladies and Gentlemen:

We have served as bond counsel for the above-referenced bonds. We have examined a record of proceedings relating to the issuance by the Mt. Zion Public Service District (the "Issuer") of its \$600,000 Water Revenue Bond, Series 2010 A (the "Series 2010 A Bond"), bearing interest at the rate of four and 125/100 percent (4.125%) per annum, and dated the date hereof. We have examined a record of proceedings relating to the issuance by the Issuer of its \$850,000 Water Revenue Bond, Series 2010 B (the "Series 2010 B Bond") and, together with the Series 2010 A Bond, the "Bonds"), bearing interest at the rate of four and 125/1000 percent (4.125%) per annum, and dated the date hereof.

The Bonds have been authorized by a resolution (the "Bond Resolution") duly adopted by the Public Service Board of the Issuer, which is the governing body of the Issuer.

Interest only on the Series 2010 A Bond is payable in monthly installments in the twenty four (24) months after delivery of the Series 2010 A Bond and thereafter the principal of and interest on the Series 2010 A Bond is payable in monthly installments of \$2,610.00 to and including the 480th month after the date of the Series 2010 A Bond, the

final installment to be in the sum of the unpaid principal and interest due on the date thereof. Interest only on the Series 2010 B Bond is payable in monthly installments in the twenty four (24) months after delivery of the Series 2010 B Bond and thereafter the principal of and interest on the Series 2010 B Bond is payable in monthly installments of \$3,698.00 to and including the 480th month after the date of the Series 2010 B Bond, the final installment to be in the sum of the unpaid principal and interest due on the date thereof.

Principal installments upon the Bonds are subject to payment in advance as provided therein and in the Bond Resolution.

The Bond Resolution and the Bonds provide that the issue is for the purpose of financing the costs of construction and acquisition of the improvements and additions to an existing water system (the "System") of the Issuer.

Upon issuance of the Bonds, the Issuer has outstanding the 1974 Bond, the 1984 Bond, the 1998 Bond and the Bond, all as described in the Bond Resolution.

We have relied, in part, upon the opinion letter of Hedges, Jones, Whittier and Hedges, attorney to the Issuer, and the General Certificate of Issuer and attorney for Issuer.

It is our opinion that:

1. The Issuer is duly organized and presently existing public service district and is a public corporation and a political subdivision of the State of West Virginia with full power and authority to construct, acquire, operate and maintain the System and issue and sell the Bonds, all under the provisions of Chapter 16, Article 13A (the "Act"), of the Code of West Virginia of 1931, as amended, and other applicable provisions of law.

2. The Issuer has legally and effectively adopted the Bond Resolution in connection with the bond issue and issued, sold and delivered the Bonds to the United States of America, Rural Utilities Service.

3. As of this date, the Bonds are in due and proper form, have been duly executed and delivered and constitute a valid and legally enforceable special obligations of the Issuer. The Bonds are secured by a statutory mortgage lien, on parity with the 1974 Bond, the 1984 Bond and the 1998 Bond (collectively, the "Prior Bonds"), as described in the Bond Resolution. The Bonds are payable from a pledge of the net revenues of the System, which pledge is on parity with the pledge granted to the Prior Bonds, all in accordance with the terms of the Bonds and the Bond Resolution.

GOODWIN & GOODWIN, LLP

April 26, 2010

Page 3

4. The Bonds and the interest thereon are, under the Act, exempt from taxation by the State of West Virginia or any county, municipality, political subdivision or agency thereof.

5. The Bonds have not been issued on the basis that the interest thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

6. It is to be understood that the rights of the holder of the Bonds and the enforceability of the Bonds and the Bond Resolution, and the liens and pledges set forth therein, may be subject to and this opinion is limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases.

We have examined the executed Bonds numbered AR-1 and BR-1, and, in our opinion, the form of said Bonds and their execution are regular and proper.

Respectfully submitted,

BE IT RESOLVED AND ORDERED BY THE PUBLIC SERVICE BOARD OF MT. ZION PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution is adopted pursuant to the provisions of Article 13A, Chapter 16 of the West Virginia Code and other applicable provisions of law. Mt. Zion Public Service District (herein called the "District") is a public service district created pursuant to said Article 13A by the County Court of Calhoun County.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows: --

(A) The District now has a public waterworks system.

(B) It is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the District, and, accordingly, it is hereby ordered, that there be constructed additions, extensions and improvements to the waterworks system of the District consisting of transmission lines to a new well with all necessary appurtenant facilities (herein called the "Project"), particularly described in and according to the plans and specifications prepared by J. H. Milam, Inc., Consulting Engineers, of Dunbar, West

Virginia (herein called the "Consulting Engineer"), and heretofore filed in the office of the Secretary of the Public Service Board of the District (herein called the "Board").

(C) It is necessary for the District to issue its revenue bonds in the principal amount of \$40,000 to finance the cost of such construction in the manner hereinafter provided.

(D) The estimated maximum cost of the construction of the Project is \$40,000, all which will be obtained from the proceeds of sale of the Series B Bonds herein authorized.

(E) The cost of such construction shall be deemed to include, without being limited to, the construction or acquisition of the Project, the acquisition of any necessary property, real or personal, or interest therein; interest on the Series B Bonds prior to, during and for six months after completion of such construction to the extent that revenues of the System are not sufficient therefor; engineering and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and such other expenses as may be necessary or incidental to the construction of the Project and the financing authorized by this resolution.

(F) The period of usefulness of the System after completion of the Project is not less than forty years.

(G) There are outstanding obligations of the District which will rank on a parity with the Series B Bonds as to lien and source of and security for payment, as follows:

The outstanding Water Distribution System Revenue Bond, Series A, of the District, dated on the 14th day of July, 1966, in the principal amount of \$85,600 (herein called the "Series A Bonds"), authorized by a resolution of the Board adopted on the 14th day of July, 1966 (herein called the "1966 Resolution").

(II) The entire principal amount outstanding of the Series A Bonds is held or insured by Farmers Home Administration. Farmers Home Administration has heretofore consented to the issuance of the Series B Bonds as herein authorized and has seen and approved a copy of this Resolution prior to the adoption hereof. Said Farmers Home Administration is expected by the Board to purchase the entire principal amount of the Series B Bonds.

(I) The District has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the Series B Bonds, or will have so complied prior to issuance of any of the Series B Bonds including, among other things, the consent and approval, pursuant to the Act, of the issuance of the Series B Bonds by the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which have expired.

AUTHORIZATION, TERMS, EXECUTION, REGISTRATION AND ISSUE OF SERIES B BONDS

Section 2.01. Authorization of Series B Bonds. Subject and pursuant to the provisions of this Resolution, Bonds of the District, to be known as "Waterworks Revenue Bonds, Series B", are hereby authorized to be issued in the aggregate principal amount of not exceeding Forty Thousand Dollars (\$40,000) for the purpose of financing the cost of the construction and acquisition of the Project.

Section 2.02. Description of Series B Bonds. The Series B Bonds may be issued in coupon or single, fully registered form, and shall be dated on the date of delivery. The Series B coupon Bonds shall be in the denomination of \$500 each, shall be numbered in order of maturity, lowest number first (numbers to bear the prefix "B"), and shall bear interest from date, payable annually on January 1 of each year, at the rate of five per centum (5%) per annum, and shall be sold for the par value thereof. Coupon and single, fully registered Series B Bonds shall be exchangeable and interchangeable at the expense of the holder on 90 days' notice in writing to the District, provided that the single, fully registered Series B Bond issued upon initial delivery of the Series B Bonds by the District shall be exchanged for coupon Bonds at the expense of the District.

The Series B Bonds shall mature serially in numerical order, lowest numbers first, and the fully registered Series B Bond shall be payable in principal installments, on January 1 in years and amounts as follows:

<u>Year</u>	<u>Amount</u>	<u>Year</u>	<u>Amount</u>	<u>Year</u>	<u>Amount</u>

The Series B Bonds shall be redeemable prior to their respective stated dates of maturity at the option of the District, in whole or in part, in inverse numerical order on January 1, 1985, and on any January 1 thereafter at the price of the par value thereof and accrued interest to the date of redemption, subject to earlier redemption as provided in Section 3.01 hereof upon completion of the Project. If all the Bonds are held by the United States of America, or any agency thereof, all or any number of the bonds may be redeemed at any time in inverse numerical order.

Notice of the redemption of any of the Series B Bonds shall be published at least once not less than thirty nor more than sixty days prior to the date of redemption in a financial newspaper published in the City of New York, New York, and notice of any such redemption shall be sent by registered or certified mail to the holders of registered Series B Bonds. If all Series B Bonds to be redeemed are registered other than to bearer, no publication of such redemption need be made. Interest shall cease upon any of the Series B Bonds so called for prior redemption on the date fixed for redemption, provided payment thereof has been duly made or provided for.

The Series B Bonds shall be payable with respect to both principal and interest in lawful money of the United States of America at Calhoun County Bank, Grantsville, West Virginia, or at First National

City Bank, New York, New York, at the option of the holder unless otherwise provided in and for the fully registered Series B Bonds, and shall bear interest from their date, payable in accordance with and, as to Series B Bonds in coupon form and not registered as to interest, upon the surrender of the appurtenant interest coupons as they severally mature.

Section 2.03. Execution of Series B Bonds and Coupons.

The Series B Bonds shall be executed in the name of the District by the Chairman and its corporate seal shall be affixed thereto and attested by the Secretary. In case any one or more of the officers who shall have signed or sealed any of the Series B Bonds shall cease to be such officer before the Series B Bonds so signed and sealed shall have been actually sold and delivered, such Series B Bonds may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Series B Bonds had not ceased to hold such office. Any Series B Bond may be signed and sealed on behalf of the District by such person as at the actual time of the execution of such Series B Bonds shall hold the proper office on the Board, although at the date of such Series B Bond such person may not have held such office or may not have been so authorized.

The Series B Bonds may be sold at one time in their entirety or from time to time in installments as the Board may determine, without preference or priority as to any of the Series B Bonds on account of any such sale in installments.

The coupons to be attached to the Series B Bonds shall be authenticated with the facsimile signatures of the present or any future Chairman and Secretary, and the District may adopt and use for that purpose the facsimile signature of any person who shall have been such Chairman or Secretary at the time when the Series B Bonds shall be actually sold and delivered.

Section 2.04. Negotiability and Registration. The Series B coupon Bonds shall be and have all the qualities and incidents of negotiable instruments under the laws of the State of West Virginia and shall pass by delivery except when registered. The Series B coupon Bonds may be registered as to principal only or converted into bonds registered as to both principal and interest in accordance with the provisions of the forms hereinafter provided.

Section 2.05. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Series B Bond shall become mutilated or be destroyed, stolen or lost, the District may in its discretion issue and deliver a new Series B Bond with all unmatured coupons attached of like tenor as the Series B Bond and attached coupons, if any, so mutilated, destroyed, stolen or lost, in exchange and substitution for such mutilated Series B Bond and attached coupons, if any, or in lieu of and substitution for the Series B Bond and attached coupons, if any, destroyed, stolen or lost, and upon the holder's furnishing the District proof of his ownership thereof and satisfactory indemnity and complying with such other reasonable regulations and conditions as the District may require. All Series B Bonds and coupons so surrendered shall be canceled and held for the account of the District. If any such Series B Bond or coupon shall have matured or be about to mature, instead of issuing a substitute Series B Bond or coupon, the District may pay the same, upon being indemnified as aforesaid, and, if such Series B Bond or coupon be destroyed, stolen or lost, without surrender thereof.

Any duplicate Series B Bonds and coupons issued pursuant to this Section shall constitute original, additional contractual obligations on the part of the District, whether or not the destroyed, stolen or lost Series B Bonds or coupons be at any time found by anyone, and such duplicate Series B Bonds and coupons shall be entitled

to equal and proportionate benefits with all other Series B Bonds and coupons issued hereunder.

Section 2.06. Bonds Secured by Pledge of Revenues. The payment of the debt service of all the Series B Bonds shall be secured forthwith equally and ratably, and on a parity in all respects with the Series A Bonds, by a first lien on the net revenues derived from the System in addition to the statutory mortgage lien on the System hereinafter provided for. The net revenues derived from the System in an amount sufficient to pay the principal of and interest on the Series A and Series B Bonds, and to make the payments into the Bond Fund and otherwise as hereinafter provided, are hereby irrevocably pledged to the payment of the principal of and interest on the Series B Bonds as the same become due and on a parity with payments of principal of and interest on the Series A Bonds.

Section 2.07. Form of Series B Bonds and Coupons. Subject to the provisions of this Resolution, the text of the Series B Bonds, the provisions for registration to be endorsed thereon, the coupons, the single Series B Bond and the other details thereof shall be of substantially the following tenor, with such omissions, insertions and variations as may be authorized or permitted by this Resolution or any subsequent resolution adopted prior to the issuance thereof:

Interest shall cease upon this Bond after the date fixed for redemption if it shall be duly called for prior redemption and payment thereof duly provided for.

This Bond is one of an authorized issue of Bonds in the aggregate principal amount of Forty Thousand Dollars (\$40,000) of like date, tenor and effect, except as to number* and date of maturity issued to finance the cost of the construction of extensions and improvements for the existing water system of the District under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly Article 13A, Chapter 16 of the West Virginia Code (herein called the "Act") and other applicable statutes, and a resolution duly adopted by the Public Service Board of the District.

No. BR-1

FOR VALUE RECEIVED, MT. ZION PUBLIC SERVICE DISTRICT (herein called "Borrower") promises to pay to the order of the United States of America, acting through the Farmers Home Administration, United States Department of Agriculture, (herein called the "Government") at its office in Grantsville, West Virginia, or at such other place as the Government may hereafter designate in writing, the principal sum of Forty Thousand Dollars (\$40,000), plus interest on the unpaid principal balance at the rate of five percent (5%) per annum. The said principal and interest shall be paid in the following installments on the following dates: Interest only on January 1, 1975, and January 1, 1976, and \$2,371 annually thereafter on January 1, except that the final installment shall be paid at the end of forty (40) years from the date of this Bond, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the reverse hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Farmers Home Administration according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower, and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower

agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of construction and acquisition of additions, extensions and improvements to the waterworks of the Borrower, is payable solely from the revenues to be derived from the operation of such waterworks after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the waterworks. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

The Bonds of the issue and series of which this Bond is one are on a parity with the Water Distribution System Revenue Bond, Series A, of the Borrower issued in the aggregate principal amount of \$85,000 on the 14th day of July, 1966 (herein called the "Series A Bonds") pursuant to a resolution of the Borrower adopted on said 14th day of July, 1966. Consent of the holders of all the Series A Bonds outstanding has been given for the issuance of the Series B Bonds, of which this Bond is one, on a parity with the Series A Bonds.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Article 13A of Chapter 16 of the West Virginia Code (herein called the "Act").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Administration Act of 1961. This Bond shall be subject to the present regulations of the Farmers Home Administration and to its future regulations not inconsistent with the express provisions hereof.

SERIES B BOND PROCEEDS; REVENUES AND APPLICATION THEREOF

Section 3.01. Series B Bond Proceeds; Project Construction

Account. All moneys received from the sale of any or all the Series B Bonds shall be deposited on receipt by the District in Calhoun County Bank, Grantsville, West Virginia, a member of Federal Deposit Insurance Corporation (herein called "FDIC"), in a special account heretofore created and designated as "Mt. Zion Public Service District Construction Account" (herein called the "Project Construction Account"). The moneys in the Project Construction Account in excess of the amount insured by FDIC shall be secured at all times by such bank by securities or in a manner lawful for the securing of deposits of State and municipal funds under West Virginia law. Moneys in the Project Construction Account shall be expended by the District solely for the purposes provided in this Resolution.

Moneys received upon delivery of the Series B Bonds representing accrued interest will be immediately transferred to and deposited in the Bond Fund.

Until completion of construction of the Project, the District will transfer from the Project Construction Account and deposit in the Bond Fund, not later than fifteen days prior to the next interest payment date, such sums as shall be from time to time required to pay the interest becoming due on the Series B Bonds on such interest payment date if moneys in the Bond Fund are insufficient for such purpose.

If the District shall determine at any time that all funds on deposit in the Project Construction Account exceed the estimated disbursements on account of the Project for the ensuing 90 days, the District may invest such excess funds in direct obligations

of, or obligations the principal of and interest on which are guaranteed by, the United States of America, which shall mature not later than eighteen months after the date of such investment. All such investments and the income therefrom shall be carried to the credit of the Project Construction Account.

When construction of the Project has been completed and all costs thereof have been paid or provision for such payment has been made, any balance remaining in the Project Construction Account shall first be used to refund promptly any overpayment made with respect to the aforesaid Federal grant, and any moneys then remaining in the Project Construction Account shall be promptly used to redeem or prepay the latest maturing Series B Bonds and any residue shall be deposited in the Bond Fund.

Section 3.02. Covenants of the District as to Revenues and Funds. So long as any of the Series B Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Sinking Fund and Reserve Account therein, hereinafter established, a sum sufficient to pay, when due or at the earliest practical redemption date, the entire principal of the Series B Bonds remaining unpaid together with interest accrued and to accrue thereon, the District further covenants with the holders of any and all Series B Bonds as follows:

(A) Revenue Fund. The entire gross revenues derived from the operation of the System, and all parts thereof, and all tap fees received, shall be deposited as collected by the District in a special fund in a bank or trust company in the State of West Virginia which is a member of FDIC, which Fund, known as the "Mt. Zion Public Service District Revenue Fund" (herein called the "Revenue Fund") was established by the 1966 Resolution. The Revenue Fund is with said Calhoun County Bank. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct

from all other funds of the District and used only for the purposes and in the manner provided in this Resolution.

(B) Disposition of Revenues. All revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following order and priority:

(1) The District shall first each month set aside in the Operation and Maintenance Fund established by the 1966 Resolution and the bank named in subsection (A) above, such sum as the Board shall determine, in accordance with its budget, to be necessary for operating expenses.

(2) The District shall next, by the fifteenth day of each month, transfer from the Revenue Fund and deposit into the "Bond Fund", established by the 1966 Resolution and now with said bank, one-twelfth of the amount required to pay the interest becoming due on the Series A and B Bonds on the next interest payment date and one-twelfth of the amount of principal maturing on the next principal maturity date for the Series A and B Bonds.

The District shall also pay to the said bank, from time to time, such amounts as shall be required to pay the fiscal charges due to paying agents for paying the Bonds and the interest thereon.

(3) The District shall next, by the fifteenth day of each month, transfer from the Revenue Fund and deposit with the said bank in the Reserve Fund established by the 1966 Resolution, 20% of the amount deposited into the Bond Fund in such month until the amount in the Reserve Fund equals the sum of \$6,600. The term "minimum reserve" defined in the 1966 Resolution to mean the sum of \$4,500 is hereby redefined to mean the sum of \$6,600. The District may reduce each such monthly deposit by 1/60th of the amount on deposit in the Reserve Fund on the date of delivery of the Series B Bonds. After the minimum reserve, as above redefined, has been accumulated in

the Reserve Fund, the District shall monthly deposit in the Reserve Fund such part of the moneys remaining in the Revenue Fund, after such provision for payment of maturing principal of and interest on the Series A and B Bonds and other payments or deposits required by the 1966 Resolution and this resolution, as shall be required to maintain the minimum reserve. Moneys in the Reserve Fund shall be used solely to make up any deficiency in the Bond Fund for payment of the principal of and interest on the Series A and B Bonds as the same shall mature on an equal pro rata basis and on a parity with each other or for prepayment of installments on fully registered Bonds, or for mandatory redemption of Bonds of all series as hereinafter provided, and for no other purpose.

(4) The District shall next, by the fifteenth day of each month, transfer from the Revenue Fund and deposit in the Repair and Replacement Fund established by the 1966 Resolution and now with said bank, including the amount required to be deposited into the Repair and Replacement Fund pursuant to the 1966 Resolution, not less than the sum of \$75 until there has been accumulated therein the aggregate sum of \$6,600 and thereafter, such sums as shall be required to maintain such amount therein. Moneys in the Repair and Replacement Fund shall be used first to make up any deficiencies in the Bond Fund for payment of principal of and interest on the Series A and B Bonds as the same mature, and next to restore to the Reserve Fund any sum or sums transferred therefrom to the Bond Fund. Thereafter, and provided that payments into the Bond Fund and the Reserve Fund are current and in accordance with the foregoing provisions, moneys in the Repair and Replacement Fund may be withdrawn by the District and used for repairs, replacements of equipment and improvements of the System, or any part thereof.

(5) After all the foregoing provisions for use of moneys in the Revenue Fund have been fully complied with, any moneys remaining

therein and not permitted to be retained therein may be used to prepay installments of or to redeem Series A and B Bonds outstanding or for any lawful purpose.

Whenever the moneys in the Bond Fund and in the Reserve Fund therein shall be sufficient to purchase or redeem all Series A and B Bonds outstanding, it shall be the mandatory duty of the District, anything to the contrary in this Resolution notwithstanding, to direct the said bank to purchase or redeem all outstanding Series A and B Bonds at the earliest practical date and in accordance with applicable provisions hereof, any such purchase to be at a price or prices not exceeding the then market price of Bonds so purchased, but in no event exceeding the then redemption price of the respective series of Bonds.

The aforesaid bank (and any successor appointed by the District) is hereby designated as the Fiscal Agent for the administration of the Bond Fund and the Reserve Fund as herein provided, and all amounts required therefor will be deposited by the District upon transfers of funds from the Revenue Fund at the times provided herein, together with written advice stating the amount remitted for deposit into each such Fund.

All the funds provided for in this Section shall constitute trust funds and shall be used only for the purposes and in the order provided herein, and until so used, the Bondholders shall have a lien thereon for further securing payment of the Series A and B Bonds and the interest thereon. The moneys in excess of the sum insured by FDIC in any of such funds, shall at all times be secured, to the full extent thereof in excess of such insured sum, in a manner lawful for securing deposits of State and municipal funds under the laws of the State of West Virginia.

If on any payment date the revenues are insufficient to place the required amount in any of the funds or accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to those which would otherwise be required to be made into the funds or accounts on the subsequent payment dates.

The Fiscal Agent shall keep the moneys in the Bond Fund, the Reserve Fund and the Repair and Replacement Fund invested and reinvested to the fullest extent practicable in direct obligations of, or obligations the payment of the principal of and interest on which are guaranteed by, the United States of America and having maturities not exceeding two years. Earnings upon moneys in the Reserve Fund, so long as the Minimum Reserve has been accumulated and is maintained, shall be paid annually into the Revenue Fund by the Fiscal Agent.

(C) Change of Fiscal Agent. The District may designate another bank insured by FDIC as Fiscal Agent if the aforesaid bank should cease for any reason to serve or if the Board determines by resolution that said bank or its successor should no longer serve as Fiscal Agent. Upon any such change, the Board will cause notice of the change to be sent by registered or certified mail to the Government and to the original purchaser of any of the Series A or B Bonds, and shall cause such notice to be published one time in The Daily Bond Buyer or other financial journal published in the English language in the City of New York.

ARTICLE IV

GENERAL COVENANTS

Section 4.01. General Statement. So long as any of the Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Bond Fund and the Reserve Fund therein a sum sufficient to pay when due, or redeem or purchase prior to maturity, the entire principal of the Bonds of Series A and B remaining unpaid, together with interest accrued and to accrue thereon and any applicable redemption premiums, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the District and the Bondholders.

Section 4.02. Rates. The District will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide revenues in each fiscal year sufficient to produce net revenues equal to not less than 110% of the average annual debt service on all Series A and B Bonds outstanding and to make the payments required herein into the Bond Fund, the Reserve Fund and the Repair and Replacement Fund and all the necessary expenses of operating and maintaining the System during such fiscal year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate revenues for such purposes.

Section 4.03. Sale of the System. The System may be sold, mortgaged, leased, or otherwise disposed of only as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient fully to pay all the Bonds and the interest thereon as herein provided. The proceeds from such sale, mortgage, lease or

other disposition of the System shall immediately be deposited in the Bond Fund and the District shall direct the Fiscal Agent to apply such proceeds to the payment of principal of and interest on the Series A and B Bonds at the redemption prices of the respective series or upon purchase at the then current market price not exceeding the par value thereof plus accrued interest to the date of purchase. Any balance remaining after the redemption or payment of all the Bonds and interest thereon shall be paid to the District by the Fiscal Agent unless necessary for the payment of other obligations issued by the District and payable out of the revenues of the System.

The foregoing provision notwithstanding, the District shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof, provided that the net book value thereof does not exceed \$5,000. Prior to any such sale, lease or other disposition of said property, the general manager or other duly authorized officer in charge of the System shall make a finding in writing, concurred in by resolution of the Board, determining that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof, and such proceeds shall be deposited in the Repair and Replacement Fund.

Payments of such proceeds into the Repair and Replacement Fund shall not reduce the amounts required to be paid into the same by other provisions of this Resolution.

Section 4.04. Covenant Against Encumbrances. The District shall not issue any obligations whatsoever, except additional parity Bonds hereinafter provided for, payable from the revenues of the System which rank prior to or equally as to lien on and source of and security for payment from such revenues with the Series A and

B Bonds; and all obligations hereafter issued by the District payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on and source of and security for payment from such revenues, and in all other respects, to the Series A and B Bonds.

The District shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge, having priority over or being on a parity with the lien of the Series A and B Bonds, and the interest thereon, upon any of the income and revenues of the System pledged as security therefor in this Resolution, or upon the System, or any part thereof.

Section 4.05. Issuance of Additional Parity Bonds. No additional parity Bonds, as in this Section defined, payable out of the revenues of the System, shall be issued except under the conditions and in the manner herein provided.

(A) No such additional parity Bonds shall be issued except for the purposes of financing the costs of the construction or acquisition of extensions, additions and improvements to the System or refunding Bonds of Series A or B on an equal pro rata basis, except as provided in subsection (G) of this Section.

(B) No such additional parity Bonds shall be issued at any time, however, unless and until there has been procured and filed with the Secretary a written certification by a certified public accountant not in the regular employ of the District, based upon the necessary investigation, reciting the conclusion that the net revenues, as defined herein and adjusted as provided below, actually derived from the System during the fiscal year immediately preceding the date of the issuance of such additional parity Bonds, shall have been not less than one hundred twenty per centum (120%) of the average

aggregate amount which will mature or become due in any succeeding fiscal year for principal of and interest on the Series A and B Bonds then outstanding, and on any additional parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then outstanding, and on the additional parity Bonds then proposed to be issued. This limitation may be waived or modified by the written consent of Bondholders representing 75% of the principal amount of each of the Series A and B Bonds then outstanding and of additional parity Bonds issued pursuant hereto.

(C) Prior to the issuance of any such additional parity Bonds, the District shall have entered into written contracts for the immediate acquisition or construction of such additions, extensions or improvements to the System which are to be financed by such additional parity Bonds.

(D) The term "additional parity Bonds", as used in this Section, shall be deemed to mean additional Bonds issued under the provisions and within the limitations of this Section, payable from the revenues of the System on a parity with the Series A and B Bonds, and all the covenants and other provisions of this Resolution (except as to details of such additional parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the holders of the Series A and B Bonds and of any additional parity Bonds subsequently issued within the limitations of and in compliance with this Section. All such Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System, and their source of and security for payment from said revenues, without preference of any Bond or coupon over any other. The District shall comply fully with all the increased payments into the various funds created in this Resolution required for such additional parity Bonds, in addition to the payments required for the Series A and B Bonds as herein provided. Redemption of Bonds prior to

maturity shall as nearly as practical be on an equal pro rata basis reflecting the original amounts of each issue.

(E) All additional parity Bonds issued pursuant to this Section shall mature on January 1 of each year of maturity, and the interest thereon shall be payable January 1 of each year.

(F) No additional parity Bonds shall be issued at any time unless all the payments into the respective Funds provided for in this Resolution on Bonds then outstanding and all other payments provided for in this Resolution shall have been made or paid up as required to the date of issuance of the additional parity Bonds and the District shall have fully complied with all the covenants, agreements and terms of this Resolution or shall have remedied any deficiency in such compliance.

(G) With the written consent in advance of the original purchaser of the Bonds originally authorized by this Resolution and anything to the contrary in subsections (A), (B) and (C) of this Section notwithstanding, additional parity Bonds may be authorized and issued by the District pursuant to supplemental resolution in the event that the Bonds hereby originally authorized and issued should be insufficient, together with other funds lawfully available therefor, to pay all costs of construction of the Project. Any such additional parity Bonds authorized and issued under the provisions of this subsection shall be limited to the aggregate principal amount required to make up any deficiency in funds for payment of such construction costs, and the maturities of any such additional parity Bonds shall be in years and amounts suggested by said original purchaser.

Section 4.06. Insurance and Bonds. The District hereby covenants and agrees that so long as any of the Bonds remain outstanding, it will, as an expense of operation and maintenance of the System, procure, carry and maintain insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(a) Fire, Lightning, Vandalism, Malicious Mischief and Extended Coverage Insurance, to be procured before issuance of any of the Series B Bonds, on all insurable portions of the System in an amount equal to the actual cost thereof. In the event of any damage to or destruction of any portion of the System, the District will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The District will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance to protect the interests of the District during construction of the Project in the full insurable value thereof.

(b) Public Liability Insurance, with limits of not less than \$100,000 for one person and \$300,000 for more than one person injured or killed in one accident to protect the District from claims for bodily injury and/or death, and not less than \$100,000 from claims for damage to property of others which may arise from the operation of the System, such insurance to be in effect prior to issuance of any of the Series B Bonds.

(c) Vehicular Public Liability Insurance, in the event the District owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the District is operated for the benefit of the District, with limits of not less than \$100,000 for one person and \$300,000 for more than one person injured or killed in one accident to protect the District from claims for bodily injury and/or death, and not less than \$100,000 from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle.

(d) Workmen's Compensation Coverage for all Employees of the District Eligible Therefor and Performance and Payment Bonds, such bonds to be in the amounts of 100% of the construction contract,

will be required of each contractor or subcontractor, and such payment bonds will be filed with the Clerk of the County Court of said County prior to commencement of construction of the Project in compliance with West Virginia Code, Chapter 38, Article 2, Section 39.

(e) Fidelity Bonds will be provided as to every member of the Board and as to every officer and employee thereof having custody of the Revenue Fund or of any revenues or other funds of the District in an amount at least equal to the total funds in the custody of any such person at any one time.

(f) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project and so long as the Government holds any of the Bonds, the District will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the District and during such construction will require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Government may specify, with insurance carriers or bonding companies acceptable to the Government.

Section 4.07. Statutory Mortgage. For the further protection of the holders of the Bonds and the coupons appertaining thereto, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding.

Section 4.08. Events of Default. Each of the following events is hereby declared an "Event of Default":

(A) Failure to make payment of the principal, and, if any premium be due, of such premium, of any of the Bonds either at the date therein specified for their payment or by proceedings for redemption or otherwise;

(B) Failure to make payment of any installment of interest due on any of the Bonds on the date specified for the payment of such interest;

(C) Failure duly and punctually to observe or perform any of the covenants, conditions and agreements on the part of the District in the Bonds or in this Resolution, or violation of or failure to observe any provision of any pertinent law, provided any such failure or violation, excluding those covered in (A) and (B) above in this Section, shall continue for a period of thirty days after written notice shall have been given to the District by the holder of any Series A or B Bond, specifying such failure or violation and requiring the same to be remedied.

Section 4.09. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, any Bondholder may proceed to protect and enforce the rights of the Bondholders by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights.

Upon application by such Bondholder, such court may, upon proof of such default, appoint a receiver for the affairs of the District and the System. The receiver so appointed shall administer the System on behalf of the District, shall exercise all the rights and powers of the District with respect to its System and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct.

Section 4.10. No Priority Between Bonds. The Series A and B Bonds shall not be entitled to priority one over the other in the application of the revenues of the System or with respect to the security for their payment, regardless of the time or times

of their issuance, it being the intention that there shall be no priority among the Bonds of Series A or B or within any such series, regardless of the fact that they may be actually issued and delivered at different times.

Section 4.11. Fiscal Year; Budget. While any Bonds are outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a fiscal year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than forty-five days prior to the beginning of each fiscal year, the District agrees to adopt the Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such fiscal year unless unanimously authorized and directed by the Board. Copies of each Annual Budget shall be mailed to the Government, to the original purchaser of the Bonds and to those Bondholders who shall have filed their names and addresses with the Secretary of the Board for such purpose.

If for any reason the District shall not have adopted the Annual Budget before the first day of any fiscal year, it shall adopt a Budget of Current Expenses from month to month until the adoption of the Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the year next preceding by more than ten per centum; and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget be for a reason beyond the control of the District. Each such Budget of Current Expenses shall be mailed immediately as in the case of the Annual Budget.

Section 4.12. Compensation of Board Members. The District hereby covenants and agrees that no compensation for policy direction

shall be paid to the members of its Board in excess of the amount permitted by the Act. Payment of any compensation to any member of the Board for policy direction shall not be made if such payment would cause the Net Operating Income to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision of this Resolution.

Section 4.13. Covenant to Proceed. The District hereby covenants to proceed as promptly as possible with the construction of the Project in accordance with the plans and specifications prepared by the Consulting Engineer and on file with the Secretary of the Board on the date of adoption of this Resolution.

Section 4.14. Books and Records. The District will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the District, in which complete and correct entries shall be made of all transactions relating to the System, and any holder of a Bond or Bonds, his agents and representatives, shall have the right at all reasonable times to inspect the System and all records, accounts and data of the District relating thereto.

The District shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants, shall mail a copy of such audit report to the Government and the original purchaser of the Bonds, and shall make available the report of said accountants at all reasonable times to any holder or holders of the Bonds, or any customer receiving services from the System, or anyone acting for and in behalf of such Bondholder, Bondholders or customer.

Section 4.15. Maintenance of System. The District covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as any of the Bonds are outstanding.

Section 4.16. Concerning Arbitrage. It is not reasonably expected that the proceeds of sale of the Series B Bonds will be invested in such a way as to violate the operating rules in the regulations of the Internal Revenue Service or of the Treasury Department of the United States of America in connection with the arbitrage provisions of Section 103(d) of the Internal Revenue Code of 1954, as amended. The Fiscal Agent is hereby expressly instructed not to violate such rules in investing such proceeds.

Zion Public Service District (the "Issuer") is a public service district created pursuant to the Act by The County Commission of Calhoun County.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows:

A. The Issuer now has a public waterworks system and desires to acquire and construct an extension to said system, within the boundaries of the Issuer to be owned and operated by the Issuer. The acquisition and construction of such an extension to the existing waterworks facilities is herein called the "Project."

B. It is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the Issuer, and, accordingly, it is hereby ordered, that there be constructed and acquired the Project consisting of water mains and transmission lines with all necessary appurtenant facilities (the "Project"), particularly described in and according to the plans and specifications prepared by the Consulting Engineer

and heretofore filed in the office of the Secretary of the Public Service Board (the "Governing Body") of the Issuer. Water will be purchased from the Town of Grantsville pursuant to a Water Purchase Agreement between the Issuer and said Town of Grantsville. The construction and acquisition of the Project and the financing hereby authorized and provided for are public purposes of the Issuer and are ordered for the purpose of meeting and serving public convenience and necessity.

C. It is necessary for the Issuer to issue its revenue bond in the principal amount of \$161,000 to finance a portion of the cost of such acquisition and construction in the manner hereinafter provided.

D. The estimated maximum cost of the acquisition and construction of the Project is \$1,101,500 of which \$161,000 will be obtained from the proceeds of sale of the Bond herein authorized, and \$161,000 from a grant by the Purchaser and \$779,500 in grants from the Department of Housing and Urban Development and the State of West Virginia.

E. The cost of such construction shall be deemed to include, without being limited to, the construction and acquisition of the Project, the acquisition of any necessary property, real or personal, or interest therein; interest on the Bond prior to, during and for six months after completion of such construction to the extent that revenues of the System (hereinafter defined) are not sufficient therefor; engineering and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and such other expenses as may be necessary or incidental to the acquisition and construction of the Project and the financing authorized hereby.

F. The period of usefulness of the System after completion of the Project is not less than forty years.

G. There are outstanding the obligations of the Issuer which will rank on a parity with the Bond as to lien and source of and security for payment as follows:

Water Distribution System Revenue Bond, Series A, of the Issuer dated July 16, 1966 (the "1966 Bond"), issued in the original principal amount of \$85,600, held or insured by the Purchaser.

Waterworks Revenue Bonds, Series B, of the Issuer, dated January 10, 1974 (the "1974 Bond"), issued in the original aggregate

principal amount of \$40,000, held by the Purchaser.

H. The Issuer has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the Bond, or will have so complied prior to issuance of the Bond including, among other things, the consent and approval, pursuant to the Act, of the issuance of the Bond by the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which have expired.

FOR VALUE RECEIVED, MT. ZION PUBLIC SERVICE DISTRICT (herein called "Borrower") promises to pay to the order of the United States of America, acting through the Farmers Home Administration, United States Department of Agriculture (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of ONE HUNDRED SIXTY-ONE THOUSAND DOLLARS (\$161,000) plus interest on the unpaid principal balance at the rate of five percent (5%) per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing on the 30th day of each month following delivery of the Bond and continuing on the corresponding day of each month for the first twenty-four months after the date hereof and \$791, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of forty (40) years from the date of this Bond, in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the reverse hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Farmers Home Administration according to the source of funds involved,

shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of construction and acquisition of improvements for the waterworks system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and

maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney, duly authorized in writing, at the office of the Registrar as defined in the Resolution hereinafter described, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in said Resolution, and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Article 13A of Chapter 16 of the West Virginia Code and a Resolution of the Borrower.

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of the Farmers Home Administration and to its future regulations not inconsistent with the express provisions hereof.

BOND PROCEEDS; REVENUES AND APPLICATION THEREOF

Section 3.01. Bond Proceeds; Project Construction Account. The proceeds of sale of the Bond shall be deposited on receipt by the Issuer in The Calhoun County Bank, Grantsville, West Virginia, a member of Federal Deposit Insurance Corporation (the "FDIC"), in a special account hereby created and designated as "Mt. Zion Public Service District Project Construction Account" (herein called the "Project Construction Account"). The moneys in the Project Construction Account in excess of the amount insured by FDIC shall be secured at all times by such bank by securities or in a manner lawful for the securing of deposits of State and municipal funds under West Virginia law. Moneys in the Project Construction Account shall be expended by the Issuer solely for the purposes provided herein.

Until completion of acquisition and construction of the Project, the Issuer will transfer from the Project Construction Account and pay to the Purchaser on or before the due date, such sums as shall be from time to time required to make the monthly installments on the Bond if there are not sufficient Net Revenues to make such monthly payment.

Moneys in the Project Construction Account shall be used solely to pay the cost of acquisition and construction of the Project upon vouchers and other documentation approved by Purchaser.

If the Issuer shall determine at any time that all funds on deposit in the Project Construction Account exceed the estimated disbursements on account of the Project for the ensuing 90 days, the Issuer may invest such excess funds in direct obligations of, or obligations the principal of and interest on which are guaranteed by, the United States of America ("Government Obligations"), which shall mature not later than eighteen months after the date of such investment, or in investments secured by a pledge of Government Obligations. All such investments and the income therefrom shall be carried to the credit of the Project Construction Account.

When acquisition and construction of the Project has been completed and all costs thereof have been paid or provision for such payment has been made, any balance remaining in the Project Construction Account shall be disposed of in accordance with the regulations of the Purchaser.

Section 3.02. Covenants of the Issuer as to Revenues and Funds. So long as the Bond shall be outstanding and unpaid, or until there shall have been set apart in the Reserve Fund hereinafter described, a sum sufficient to pay, when due or at the earliest practical prepayment date, the entire principal of the Bond remaining unpaid, together with interest accrued and to accrue thereon, the Issuer further covenants with the holder of the Bond as follows:

A. REVENUE FUND. The entire Gross Revenues derived from the operation of the System, and all parts thereof, and all tap fees received, shall be deposited as collected by the Issuer in a special fund in a bank or trust company in the State of West Virginia which is a member of FDIC, which Fund, known as the "Mt. Zion Public Service District Revenue Fund" (herein call the "Revenue Fund") was established by the 1966 Resolution and is hereby continued. The Revenue Fund is now on deposit with the bank named in Section 3.01. The Revenue Fund shall constitute a trust fund for the purposes provided in the Resolutions and shall be kept separate and distinct from all other funds of the Issuer and used only for the purposes and in the manner provided in the Resolutions.

B. DISPOSITION OF REVENUES. All Revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following order and priority:

(1) The Issuer shall first, each month, set aside in the Operation and Maintenance Fund established by the 1966 Resolution and hereby continued within the Bank named in Section 3.01 hereof, such sum as the Governing Body shall determine, in accordance with its budget, to be necessary for Operating Expenses.

(2) The Issuer shall next, on or before the due date of payment of each installment on the Bonds, transfer from the Revenue Fund and pay to the National Finance Office designated in the Bond or otherwise the amount required to pay the interest on the Bond, and to amortize the principal of the Bond over the life of the Bond issue, and shall transfer from the Revenue Fund and deposit into the "Bond Fund", established by the 1966 Resolution and now with said Bank, one-twelfth of the amount required to pay the interest becoming due on the Series A and B Bonds on the next interest payment date and one-twelfth of the amount of principal maturing on the next principal maturity date for the Series A and B Bonds.

The District shall also pay to the said Bank, from time to time, such amounts as shall be required to

pay the fiscal charges due to paying agents for paying the Bonds and the interest thereon.

(3) The Issuer shall next, by the 15th day of each month, transfer from the Revenue Fund and deposit with the said Bank in the Reserve Fund established by the 1966 Resolution and hereby continued, 20% of the amount deposited into the Bond Fund in such month, and 1/12th of 1/10th of the amount of principal and interest becoming due on the Bond in any year, until the amount in the Reserve Fund equals the sum of \$16,100, such sum being herein called the "Minimum Reserve." The term "minimum reserve" defined in the 1974 Resolution to mean \$6,600 is hereby redefined to mean the sum of \$16,100. After the Minimum Reserve has been accumulated in the Reserve Fund, the Issuer shall monthly deposit into the Reserve Fund such part of the moneys remaining in the Revenue Fund, after such provision for payment of maturing principal of and interest on the 1966 and 1974 Bonds and other payments or deposits required by the 1966 and 1974 Resolutions, and after provision for payment of monthly installments on the Bond and payment of operating expenses of the System, as shall be required to maintain the Minimum Reserve in the Reserve Fund. Moneys in the Reserve Fund shall be used solely to make up any deficiency in the Bond Fund for payment of the principal of and interest on the 1966 and 1974 Bonds as the same mature and for payment of monthly payments of the principal of and interest on the Bond to said National Finance Office as the same shall become due, on an equal pro rata basis and on a parity with each other, or for prepayment of installments on the Bonds, or for mandatory prepayment of the Bonds as hereinafter provided, and for no other purpose; provided, however, that when the Minimum Reserve has been accumulated in the Reserve Fund all earnings of investments of moneys therein shall at least annually be transferred to and deposited in the Revenue Fund and used for ratable prepayment of principal of the Bonds.

(4) The Issuer shall next, by the fifteenth day of each month, transfer from the Revenue Fund and deposit in the Repair and Replacement Fund, established by the 1966 Resolution with said Bank and hereby continued, the moneys remaining in the Revenue Fund and not permitted to be retained therein, including the amount required to be deposited into the Repair and Replacement Fund pursuant to the 1966 and 1974 Resolutions, which sum shall not be less than \$75, until there has been accumulated in the Repair and Replacement Fund the aggregate sum of \$61,700, and

thereafter such sums as shall be required to maintain such amount therein. Moneys in the Repair and Replacement Fund shall be used first to make up any deficiencies in the Bond Fund and for payment of principal of and interest on the 1966 and 1974 Bonds, as the same mature, and for monthly payments of principal of and interest on the Bond as the same become due, and next to restore to the Reserve Fund any sum or sums transferred to the Bond Fund or otherwise. Thereafter, and provided that payments into the Bond Fund and Reserve Fund are current and in accordance with the foregoing provisions, moneys in the Repair and Replacement Fund may be withdrawn by the Issuer and used for repairs and for replacements of equipment and improvements for the System, or any part thereof.

(5) After all the foregoing provisions for use of moneys in the Revenue Fund have been fully complied with, any moneys remaining therein and not permitted to be retained therein may be used to prepay installments of or to redeem the 1966 and 1974 Bonds outstanding, and to prepay portions of the principal amounts of the Bonds, ratably, or for any lawful purpose.

Whenever the moneys in the Bond Fund and the Reserve Fund shall be sufficient to purchase or redeem the Bonds outstanding in full, it shall be the mandatory duty of the Issuer, anything to the contrary herein notwithstanding, to direct said Bank to purchase or redeem the Bonds at the earliest practical date and in accordance with applicable provisions hereof, any such purchase to be at a price or prices not exceeding the then market price of the Bonds so purchased, but in no event exceeding the redemption price of the respective series of Bonds.

The aforesaid Bank (and any successor appointed by the Issuer) is hereby designated as the Fiscal Agent for the administration of the Bond Fund, the Reserve Fund and the Repair and Replacement Fund as herein provided, and all amounts required therefor will be deposited therein by the Issuer upon transfers of funds from the Revenue Fund at the times provided herein, together with written advice stating the amount remitted for deposit into each such Fund.

All the funds provided for in this Section shall constitute trust funds and shall be used only for the purposes and in the order provided herein, and until so used, the Purchaser shall have a lien thereon for further securing payment of the Bonds and the interest thereon,

but the aforesaid Bank shall not be a trustee as to such funds. The moneys in excess of the sum insured by FDIC in any of such funds shall at all times be secured, to the full extent thereof in excess of such insured sum, in a manner lawful for securing deposits of State and municipal funds under the laws of the State of West Virginia.

If on any payment date the revenues are insufficient to make the payments and transfers as hereinabove provided, the deficiency shall be made up in the subsequent payments and transfers in addition to those which would otherwise be required to be made on the subsequent payment dates.

The Fiscal Agent shall keep the moneys in the Bond Fund, the Reserve Fund and the Repair and Replacement Fund invested and reinvested to the fullest extent practicable in direct obligations of, or obligations the payment of the principal of and interest on which are guaranteed by, the United States of America and having maturities not exceeding two years. Earnings upon moneys in the Reserve Fund, so long as the Minimum Reserve is on deposit and maintained therein, shall be paid annually in January into the Revenue Fund by the Fiscal Agent.

C. CHANGE OF FISCAL AGENT. The Issuer may designate another bank insured by FDIC as Fiscal Agent if the aforesaid Bank should cease for any reason to serve or if the Governing Body determines by resolution that said Bank or its successor should no longer serve as Fiscal Agent. Upon any such change, the Governing Body will cause notice of the change to be sent by registered or certified mail to the Purchaser and to the original purchaser of any of the Bonds, and shall cause such notice to be published one time in The Daily Bond Buyer or other financial journal published in the English language in the City of New York.

D. USER CONTRACTS. The Issuer, prior to delivery of the Bond, shall obtain signed user agreements from at least 112 bona fide full time users initially to be served by the Project and deposit in the Project Construction Account not less than \$5,600, based on a tap fee of \$50.

ARTICLE IV

GENERAL COVENANTS

Section 4.01. General Statement. So long as the Bond shall be outstanding and unpaid, or until there shall have been set apart in the Reserve Fund a sum sufficient to prepay the entire principal of the Bond remaining unpaid, together with interest accrued and to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Purchaser.

Section 4.02. Rates. The Issuer will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide Revenues in each fiscal year sufficient to produce Net Revenues equal to not less than 110% of the annual debt service on the Bonds and sufficient to make the payments required herein into the Bond Fund, the Reserve Fund and the Repair and Replacement Fund and all the necessary expenses of operating and maintaining the System during such fiscal year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate Revenues for such purposes.

Section 4.03. Sale of the System. The System will not be sold without the prior written consent of the Purchaser so long as the Bond is outstanding. Such consent will provide for disposition of the proceeds of any such sale.

Section 4.04. Issuance of Additional Parity Bonds. No additional parity bonds payable out of the Revenues of the System shall be issued, except with the prior written consent of the Purchaser.

Section 4.05. Insurance and Bonds. The Issuer hereby covenants and agrees that it will, as an expense of construction, operation and maintenance of the System, procure, carry and maintain, so long as the Bond remains outstanding, insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(a) Fire, Lightning, Vandalism, Malicious Mischief and Extended Coverage Insurance, to be procured upon acceptance of any part of the Project from the contractor, and immediately upon any portion of the System now in use, on

all above-ground structures of the System and mechanical and electrical equipment in place or stored on the site in an amount equal to the full insurable value thereof. In the event of any damage to or destruction of any portion of the System, the Issuer will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance to protect the interests of the Issuer during construction of the Project in the full insurable value thereof.

(b) Public Liability Insurance, with limits of not less than \$500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from the operation of the System, such insurance to be procured not later than the date of delivery of the Bond.

(c) Vehicular Public Liability Insurance, in the event the Issuer owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the Issuer is operated at any time or times for the benefit of the Issuer, with limits of not less than \$500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle for the Issuer.

(d) Workmen's Compensation Coverage for All Employees of the District Eligible Therefor and Performance and Payment Bonds, such bonds to be in the amounts of 100% of the construction contract, will be required of each prime contractor, and such payment bonds will be filed with the Clerk of the County Commission of said

County prior to commencement of construction of the Project in compliance with West Virginia Code Section 38-2-39.

(e) Fidelity Bonds will be provided as to every member of the Governing Body and as to every officer and employee thereof having custody of the Revenue Fund or of any revenues or other funds of the Issuer in an amount at least equal to the total funds in the custody of any such person at any one time, and initially in the amount of \$10,000 upon the treasurer, provided, however, that no bond shall be required insofar as custody of the Project Construction Account is concerned so long as checks thereon require the signature of a representative of the Purchaser, or in such amounts as are required by the Purchaser.

(f) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project and so long as the Bond is outstanding, the Issuer will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the Issuer, and during such construction will require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Purchaser may specify, with insurance carriers or bonding companies acceptable to the Purchaser.

Section 4.06. Statutory Mortgage. For the further protection of the Purchaser, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon the delivery of the Bond and shall be for the equal benefit of the Bonds.

Section 4.07. Events of Default. Each of the following events is hereby declared an "Event of Default":

(a) Failure to make payment of any monthly amortization installment upon the Bond at the date specified for payment thereof; and

(b) Failure duly and punctually to observe or perform any of the covenants, conditions and agreements on the part of the Issuer contained

in the Bond or herein, or violation of or failure to observe any provision of any pertinent law.

Section 4.08. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, the Purchaser may proceed to protect and enforce its rights by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement, or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights.

Upon application by the Purchaser, such court may, upon proof of such default appoint a receiver for the affairs of the Issuer and the System. The receiver so appointed shall administer the System on behalf of the Issuer, shall exercise all the rights and powers of the Issuer with respect to the System, shall proceed under the direction of the court to obtain authorization to increase rates and charges of the System, and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct.

Section 4.09. Fiscal Year; Budget. While the Bond is outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a fiscal year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than thirty days prior to the beginning of each fiscal year, the Issuer agrees to adopt the Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such fiscal year unless unanimously authorized and directed by the Governing Body. Copies of each Annual Budget shall be delivered to the Purchaser by the beginning of each fiscal year.

If for any reason the Issuer shall not have adopted the Annual Budget before the first day of any fiscal year, it shall adopt a Budget of Current Expenses from month to month until the adoption of the Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the next year preceding by more than ten per centum; and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget be for a reason beyond the control of the Issuer. Each such Budget of Current Expenses shall be mailed immediately to the Purchaser.

Section 4.10. Compensation of Members of Governing Body. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision hereof.

Section 4.11. Covenant to Proceed and Complete. The Issuer hereby covenants to proceed as promptly as possible with the construction of the Project to completion thereof in accordance with the plans and specifications prepared by the Consulting Engineer and on file with the Secretary on the date of adoption hereof, subject to permitted changes.

Section 4.12. Books and Records, Audits. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and the Purchaser shall have the right at all reasonable times to inspect the System and all records, accounts and data of the Issuer relating thereto.

The Issuer shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants and shall mail a copy of such audit report to the Purchaser.

Section 4.13. Maintenance of System. The Issuer covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as the Bond is outstanding.

Section 4.14. No Competition. The Issuer will not permit competition with the System within its boundaries or within the territory served by it and will not grant or cause, consent to or allow the granting of any franchise, permit or other authorization for any person, firm, corporation, public or private body, agency or instrumentality whatsoever to provide any of the services supplied by the System within the boundaries of the Issuer or within the territory served by the System.

Section 4.15. Concerning Arbitrage. The proceeds of sale of the Bond will not be invested in such a way as to violate the regulations of the Internal Revenue Service or of the Treasury Department of the United States of America in connection with the

arbitrage provisions of Section 103(c) of the Internal Revenue Code of 1954, as amended.

ARTICLE V

RATES, ETC.

Section 5.01. Initial Schedule of Rates and Charges; Rules. A. The initial schedule of rates and charges for the services and facilities of the System, subject to change consonant with the provisions hereof, shall be as established by the Governing Body and as set forth in the Final Order of the Public Service Commission of West Virginia, entered on November 30, 1983, in Case No. 83-651-W-30-B, which Final Order is incorporated herein by reference as a part hereof.

B. There shall not be any discrimination or differential in rates between customers in similar circumstances.

C. All delinquent fees, rates and charges for services or facilities of the System shall be liens on the premises served of equal degree, rank and priority with the lien on such premises of state, county, school and municipal taxes, as provided in the Act. When such fees, rates and charges have been delinquent for thirty days, the Issuer shall have power pursuant to the Act forthwith to foreclose the lien on the premises served in the same manner provided by the laws of the State of West Virginia for the foreclosure of mortgages on real property.

D. The Issuer will not render or cause to be rendered any free services of any nature by the System nor any of the facilities; and in the event that the Issuer or any department, agency, officer or employee thereof should avail itself or themselves of the services or facilities of the System, the same fees, rates and charges applicable to other customers receiving like services under similar circumstances shall be charged, such charges shall be paid as they accrue, and revenues so received shall be deposited and accounted for in the same manner as other revenues of the System.

E. The Issuer may require any applicant for any service by the System to deposit a reasonable and equitable amount to insure payment of all charges for the services rendered by the System, which deposit shall be handled and disposed of under the applicable rules and regulations of the Public Service Commission of West Virginia.

F. The Issuer, to the extent permitted by law, will not accept payment of any water bill from a customer served with water and sewer services by the Issuer without payment at the same time of a sewer bill owed by such customer for the same premises.

ARTICLE VI

MISCELLANEOUS

Section 6.01. Modification or Amendment. The Bond Legislation may not be modified or amended after final passage without prior written consent of the Purchaser.

Section 6.02. Delivery of Bond No. R-1. The Chairman, Secretary and Treasurer of the Governing Body are hereby authorized and directed to cause Bond No. R-1, hereby awarded to the Purchaser pursuant to prior agreement, to be delivered to the Purchaser as soon as the Purchaser will accept such delivery.

Section 6.03. Severability of Invalid Provisions. If any one or more of the covenants, agreements or provisions hereof should be held contrary to any express provision of law or contrary to the policy of express law, although not expressly prohibited, or against public policy, or shall for any reason whatsoever be held invalid, then such covenants, agreements or provisions shall be null and void and shall be deemed separable from the remaining covenants, agreements or provisions hereof, and shall in no way affect the validity of all the other provisions hereof or the Bond.

Section 6.04. 1966 and 1974 Resolutions; Conflicting Provisions Repealed. The 1966 and 1974 Resolutions and all parts thereof not expressly hereby changed shall continue in full force and effect and this Bond Legislation shall be supplemental to the 1966 and 1974 Bond Resolutions.

BE IT RESOLVED AND ORDERED BY THE PUBLIC SERVICE BOARD OF MT. ZION PUBLIC SERVICE DISTRICT, MILLSTONE, WEST VIRGINIA:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS
AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution is adopted pursuant to the provisions of Article 13A, Chapter 16 of the Code of West Virginia of 1931, as amended (the "Act") and other applicable provisions of law.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows:

A. Mt. Zion Public Service District (the "Issuer") is a public service district created pursuant to the Act by an order issued by The County Commission of Calhoun County, located in Calhoun County, West Virginia.

B. It is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the Issuer and, accordingly, it is hereby ordered, that there be acquired and constructed certain improvements, expenditures and betterments to the existing public water system of the Issuer by an upgrade of the existing facilities (sometimes referred to herein as the "System") with all necessary appurtenant facilities (the "Project"), and generally described as the construction of approximately 11,000 linear feet of eight-inch (8") waterline, a one hundred thousand (100,000) gallon storage tank, and necessary appurtenances for a complete functional system, as more

particularly described in and according to the plans and specifications prepared by the Consulting Engineer (the "Plans") and heretofore filed in the office of the Secretary of the Public Service Board (the "Governing Body") of the Issuer. The construction and acquisition of the Project and the financing hereby authorized and provided for are public purposes of the Issuer and are ordered for the purpose of meeting and serving public convenience and necessity.

C. It is necessary for the Issuer to issue its revenue bonds in the aggregate principal amount of \$40,000 to finance a portion of the cost of such construction in the manner hereinafter provided.

D. The estimated maximum cost of the construction of the Project is \$470,000, of which \$40,000 will be obtained from the proceeds of sale of the Series 1998 Bond herein authorized, \$260,800 from a RUS Grant and \$169,200 from a West Virginia Infrastructure and Jobs Development Council Grant.

E. The cost of such construction shall be deemed to include, without being limited to, the construction or acquisition of the Project, the acquisition of any necessary property, real or personal, or interest therein; interest on the Bond prior to, during and for six months after completion of such construction to the extent that revenues of the System are not sufficient therefor; engineering and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and such other expenses as may be necessary or incidental to the construction of the Project and the financing authorized hereby.

F. The period of usefulness of the System after completion of the Project is not less than forty (40) years.

G. There are no other outstanding bonds or obligations of the Issuer which will rank prior to or on a parity with the Bond as to lien, pledge and/or source of and security for payment except for the Issuer's Water Distribution System Revenue Bond, Series A (1966), Waterworks Revenue Bonds, Series B (1974), and Water Revenue Bond, Series 1984, which will be on a parity as to lien, pledge and source of and security for payment with the Bonds.

H. The Issuer has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the Bond, or will have so complied prior to issuance of the Bond including, among other things, the imposition of rates and charges, the consent and approval, pursuant to the Act, of the issuance of the Bond by the Public Service Commission of West Virginia by final order, in Case No. 97-0175-PWD-CN, which became a Final Order of the Public Service Commission on May 4, 1998.

I. The estimated revenues to be derived in each year from the operation of the System after completion of the Project will be sufficient to pay all the costs of the operation and maintenance of the System, the principal of and interest on the Bond (as hereinafter defined) and all debt service, reserve fund and other payments provided for herein.

J. It is in the best interests of the Issuer that the Bond be sold to the United States Department of Agriculture, Rural Utilities Service, successor in interest to the Farmers Home Administration (the "Purchaser" or "RUS"), pursuant to the terms and provisions of a Letter of Conditions dated February 4, 1997, and all amendments thereto (the "Letter of Conditions").

K. The Issuer has also made arrangements for interim financing as requested by RUS and deems it to be in the best interests of the Issuer to enter into a Credit Agreement and execute a note or notes in the initial amount of \$40,000 payable to any interim construction or financing lender which lender is initially Calhoun County Bank.

Section 1.03. Resolution to Constitute Contract. In consideration of the acceptance of the Bond by the Purchaser, this Resolution (the "Resolution") shall be deemed to be and shall constitute a contract between the Issuer and the Purchaser, and the covenants and agreements set forth herein to be performed by the Issuer shall be for the benefit, protection and security of the Purchaser as holder of the Bond.

AUTHORIZATION, TERMS, EXECUTION, REGISTRATION AND ISSUANCE OF BOND

Section 3.01. Authorization of Bond. Subject and pursuant to the provisions hereof, the Bond of the Issuer to be known as "Mt. Zion Water Revenue Bond, Series 1998" in the principal amount of \$40,000 is hereby authorized to be issued for the purpose of financing a portion of the cost of the construction and acquisition of the Project.

Section 3.02. Description of Bond. The Bond shall be issued in single registered form No. R-1, and shall be dated on the date of delivery. The Bond shall bear interest from date, payable monthly at the rate of four and 50/100 percent (4.5%) per annum or such lower rate that the Purchaser will make available at closing, and shall be sold for the par value thereof.

The Bond shall be subject to prepayment of scheduled monthly installments, or any portion thereof, at the option of the Issuer and shall be payable as provided in the Bond form hereinafter set forth.

The initial address of the Purchaser for purposes of bond registration is Federal Building, Room 320, 75 High Street, Morgantown, West Virginia 26505-7500.

Section 3.03. Execution of Bond. The Bond shall be executed in the name of the Issuer by the Chairman and its corporate seal shall be affixed thereto and attested by the Secretary, and the

Chairman and the Secretary are hereby authorized to execute the Bond and such other documents as are necessary to finalize this transaction. The Bond shall be executed in the name of the Issuer by the Chairman and its corporate seal shall be affixed thereto and attested by the Secretary, and the Chairman and the Secretary are hereby authorized to execute the Bond and such other documents as are necessary to finalize this transaction. In case any one or more of the officers who shall have signed or sealed the Bond shall cease to be such officer of the Issuer before the Bond so signed and sealed have been actually sold and delivered, such Bond may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Bond had not ceased to hold such office.

Section 3.04. Negotiability, Registration, Transfer and Exchange of Bond. The Bond shall be and have all the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, but the Bond may only be transferred by transfer of the registration thereof upon the books required to be kept pursuant to Section 3.05 hereof, by the party in whose name it is registered, in person or by attorney duly authorized in writing, upon surrender of the Bond for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form acceptable to the Registrar. No interest in the Bond shall be transferable except by means of transfer of registration of a Bond representing such interest and delivery of a new Bond or Bonds in exchange thereof in accordance with this Resolution.

Whenever the Bond shall be surrendered for registration of transfer, the Issuer shall execute and deliver a new Bond in authorized denominations, for a like aggregate principal amount. The Registrar shall require the payment by the Bondholder requesting such transfer of any tax or other governmental charge required to be paid with respect to such transfer, but the Issuer shall pay any other expenses incurred by the Registrar with respect to such transfer.

The payment of the debt service of the Bond shall be secured forthwith by a parity lien on the net revenues derived from the System in addition to the statutory mortgage lien on the System hereinafter provided for on a parity with the Issuer's Water Distribution System Revenue Bond, Series A(1966), Waterworks Revenue Bonds, Series B(1974), and Water Revenue Bonds, Series 1984 (collectively, the "Prior Bonds"). WATER REVENUE BOND,
SERIES 1998

No. R-1

Date: May __, 1998

FOR VALUE RECEIVED, MT. ZION PUBLIC SERVICE DISTRICT, a public service district created pursuant to the Act by an order issued by The County Commission of Calhoun County, in Calhoun County of said State (herein called "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at the Government's National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of Forty Thousand Dollars (\$40,000), plus interest on the unpaid principal balance at the rate of four and 50/100 percent (4.5%) per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing on the 30th day following delivery of the Bond and continuing on the corresponding day of each month, for the first twenty-four (24) months after the date hereof, and \$184.00 per month covering principal and interest thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of forty (40) years from the date of this Bond, and except that prepayments may be made as provided herein. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto and made a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of Rural Utilities Service, successor in interest to the Farmers Home Administration, according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower, and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government, shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of construction of improvements to a Water system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined

Bond Legislation, and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Article 13A of Chapter 16 of the Code of West Virginia, as amended (herein called the "Act"),

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of Rural Utilities Service, successor in interest to the Farmers Home Administration, and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND SHALL BE ON A PARITY AS TO LIEN ON AND SOURCE OF PAYMENT WITH THE ISSUER'S WATER DISTRIBUTION SYSTEM REVENUE BOND, SERIES A(1966), WATERWORKS REVENUE BONDS, SERIES B(1974), AND WATER REVENUE BONDS, SERIES 1984.

The address of Government for purposes of bond registration is Federal Building, Room 320, 75 High Street, Morgantown, West Virginia 26505-7500.

This Bond will be in default should any proceeds be used for a purpose that will contribute to excessive erosion of highly erodible land or to the conversion of wetlands to produce an agricultural commodity, as set forth in Exhibit M of subpart G of Part 1940 of Title 7 of the Code of Federal Regulations, as amended.

IN WITNESS WHEREOF, the MT. ZION PUBLIC SERVICE DISTRICT has caused this Bond to be executed by its Chairman and its corporate seal to be hereunto affixed or imprinted hereon and attested by its Secretary, all as of the date hereinabove written.

INTERIM CONSTRUCTION FINANCING

Section 4.01. Authorization and General Terms. In order to pay certain costs of the Project pending receipt of the gross proceeds of the Bond, the Issuer may issue and sell its Note or Notes (the "Notes"), in an aggregate principal amount not to exceed \$40,000. The Notes may be issued as evidence of a line of credit from a commercial bank or other lender, at the discretion of the Issuer, and as shall be set forth in a resolution supplemental hereto. The Notes shall bear interest from the date or dates, at such rate or rates, payable on such date or dates and shall mature on such date or dates and be subject to such prepayment or redemption, all as provided in the supplemental resolution.

Section 4.02. Terms of and Security for Notes. The Notes, if issued, shall be issued with such terms and secured in the manner set forth in a supplemental resolution.

Section 4.03. Notes are Special Obligations. The Notes shall be special obligations of the Issuer payable as to principal and interest solely from the proceeds of the Bond, grant proceeds, surplus revenues, letter of credit proceeds, if any, and other sources. The Notes do not and shall not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provisions. The general funds of the Issuer are not liable and neither the full faith and credit nor the taxing power, if any, of the Issuer is pledged for the payment of the Notes. The holders of the Notes shall never have the right to compel the forfeiture of any property of the Issuer. The Notes shall not be a debt of the Issuer, nor a legal or equitable pledge, charge, lien or encumbrance upon any property of the Issuer or upon any of its income, receipts or revenues except as set forth in the supplemental resolution.

Section 4.04. Execution of Documents. The Notes, Credit Agreement and any other documents required to be executed by the commercial bank or other lender shall be executed in the name of the Issuer by the Chairman, and the Chairman and Secretary are hereby authorized to execute any Note, Notes, Credit Agreement or any other documents necessary to secure the interim financing.

ARTICLE V

REVENUES AND APPLICATION THEREOF; DISPOSITION OF BOND PROCEEDS; FUNDS AND ACCOUNTS

Section 5.01. Establishment of Funds and Accounts with Depository Bank. The following special funds or accounts are created and established with and shall be held by the Depository Bank, separate, distinct and apart from all other funds or accounts

of the Depository Bank and from each other:

- (1) Revenue Fund;
- (2) Project Construction Account;
- (3) Reserve Fund; and
- (4) Sinking Fund.

Section 5.02. Bond Proceeds; Project Construction Account. All moneys received from the sale of the Bond shall be deposited upon receipt by the Issuer in the Depository Bank, a member of the Federal Deposit Insurance Corporation (the "FDIC"), in a special account hereby now established and designated as "\$40,000 Mt. Zion Public Service District Water System Construction Account" (herein called the "Project Construction Account"). The moneys in the Project Construction Account in excess of the amount insured by FDIC shall be secured at all times by such bank by securities or in a manner lawful for the securing of deposits of State and municipal funds under State law. Moneys in the Project Construction Account shall be expended by the Issuer solely for the purposes provided herein.

Until completion of the construction of the Project, the Issuer will transfer from the Project Construction Account and pay to the Purchaser on or before the due date, such sums as shall be from time to time required to make the monthly installment payments on the Bond if there are not sufficient Net Revenues to make such monthly payment.

If the Issuer shall determine at any time that all funds on deposit in the Project Construction Account exceed the estimated disbursements on account of the Project for the ensuing ninety (90) days, the Issuer may invest such excess funds in Qualified Investments.

Pending application as provided in this Section 5.02. money and funds in the Project Construction Account shall be invested and reinvested at the direction of the Issuer, to the extent possible in accordance with applicable law, in Qualified Investments.

When construction of the Project has been completed and all costs thereof have been paid or provision for such payment has been made, any balance remaining in the Project Construction Account shall be disposed of in accordance with the regulations of the Purchaser.

Section 5.03. Covenants of the Issuer as to Revenues and Funds. So long as the Bond shall be outstanding and unpaid, or until there shall have been set apart in the Reserve Fund hereinafter established a sum sufficient to pay, when due or at the earliest practical prepayment date, the entire principal of the

Bond remaining unpaid, together with interest accrued and to accrue thereon, the Issuer further covenants with the holder of the Bond as follows:

(A) Revenue Fund. The entire Gross Revenues derived from the operation of the System, and all parts thereof, and all Tap Fees received, shall be deposited as collected by the Issuer in a special fund in a bank or trust company in the State which is a member of the FDIC, which Fund, known as the "Revenue Fund" is established with the Depository Bank. The Revenue Fund shall constitute a trust fund for the purposes provided herein and shall be kept separate and distinct from all other funds of the Issuer and used only for the purposes and in the manner provided herein.

(B) Disposition of Revenues. All revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following order and priority:

(i) The Issuer shall first each month pay from the moneys in the Revenue Fund all current Operating Expenses.

(ii) The Issuer shall next, each month, on or before the due date of payment of each installment on the Bonds, transfer moneys from the Revenue Fund and remit to the National Finance Office designated in the Bonds (or such other place as may be provided pursuant to the Bonds), the amount required to pay interest on the Bonds, and to amortize the principal of the Bonds over the respective lives of each Bond issue. All payments with respect to principal of and interest on the Bonds shall be made in accordance with the aggregate principal amount thereof outstanding. There is hereby created a sinking fund at the Depository Bank into which the Issuer shall deposit sufficient amounts from the Revenue Fund to pay the interest on the Bonds and to amortize the principal of the Bonds over the remaining life of the Bond issue. As long as the Government owns the Bonds, such deposits can be replaced by the remittances described above.

(iii) The Issuer shall next, on each date that payment is made as set forth in (ii) above, transfer from the Revenue Fund and remit to the Depository Bank for deposit in the Reserve Fund, 1/12th of 1/10th of the amount, as of the date of calculation, equal to the maximum aggregate amount of principal and interest which will become due on the Bonds in any year, until the amount in the Reserve Fund equals such maximum amount (the "Reserve Requirement"). After the Reserve Requirement has been accumulated in the Reserve Fund, the Issuer shall monthly deposit into the Reserve Fund such part of the moneys remaining in the Revenue Fund, after such provision for payment of monthly installments on the Bonds and for payment of Operating Expenses of the System, as shall be required to maintain the Reserve Requirement. Moneys in the Reserve Fund shall be used solely to make up any deficiency for monthly payments of the principal of and interest on the Bonds to said National Finance Office (or other place provided) as the same

shall become due or for prepayment of installments on the Bonds, or for mandatory prepayment of the Bonds as hereinafter provided, and for no other purpose, in accordance with the aggregate principal amount thereof outstanding.

(iv) After all the foregoing provisions for use of moneys in the Revenue Fund have been fully complied with, moneys remaining therein and not permitted to be retained therein, if any ("Surplus Revenues"), may be used to prepay installments of the Bonds, or for any lawful purpose.

(v) Any withdrawals from the Reserve Fund which result in a reduction in the balance of the Reserve Fund to below the Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full for payment of debt service on the Bonds.

(vi) After all the foregoing provisions for use of moneys in the Revenue Fund have been fully complied with, any moneys remaining therein and not required to be retained therein may be used to prepay installments of the Bonds or for any lawful purpose.

Whenever the moneys in the Reserve Fund shall be sufficient to prepay the Bonds in full, it shall be the mandatory duty of the Issuer, anything to the contrary herein notwithstanding, to prepay the Bonds at the earliest practical date and in accordance with applicable provisions hereof.

The Depository Bank (and any successor appointed by the Issuer) is hereby designated as the Fiscal Agent for the administration of the Reserve Fund as herein provided, and all amounts required therefor will be deposited therein by the Issuer upon transfers of funds from the Revenue Fund at the times provided herein, together with written advice stating the amount remitted for deposit into such Fund.

All the funds provided for in this Section shall constitute trust funds and shall be used only for the purposes and in the order provided herein, and until so used, the Purchaser shall have a lien thereon for further securing payment of the Bonds and the interest thereon, but the Depository Bank shall not be a trustee as to such funds. The moneys in excess of the sum insured by FDIC in any of such funds shall at all times be secured, to the full extent thereof in excess of such insured sum, in a manner lawful for securing deposits of State and municipal funds under State law.

If on any payment date the Revenues are insufficient to make the payments and transfers as hereinabove provided, the deficiency shall be made up in the subsequent payments and transfers in addition to those which would otherwise be required to be made on the subsequent payment dates.

The Depository Bank shall keep the moneys in the Reserve Fund invested and reinvested to the fullest extent possible in accordance with applicable law, and to the extent practicable, in Qualified Investments having maturities consonant with the required use thereof. Investments in any fund or account under this Resolution shall, unless otherwise provided herein or required by law, be valued at the lower of cost or the then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held by the "consolidated fund" managed by the West Virginia State Board of Investments. Any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, and interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account.

(C) Change of Depository Bank. The Issuer may designate another bank or trust company insured by FDIC as Depository Bank if the aforesaid Depository Bank should cease for any reason to serve or if the Governing Body determines by resolution that said Depository Bank or its successor should no longer serve as Depository Bank. Upon any such change, the Governing Body will cause notice of the change to be sent by registered or certified mail to the Purchaser.

(D) User Contracts. The Issuer shall, prior to delivery of the Bond, provide evidence that there will be at least one (1) new bona fide user of the System, being the Calhoun County High/Middle School, and must obtain a user agreement and the user contribution, if any, from each new user and deposit in the Project Construction Account all such user contributions collected.

(E) Charges and Fees. The Issuer shall remit from the Revenue Fund to the Depository Bank such additional sums as shall be necessary to pay the charges and fees of the Depository Bank then due.

(F) Remittances. All remittances made by the Issuer to the Depository Bank shall identify clearly the fund or account into which each amount is to be deposited.

(G) Gross Revenues. The Gross Revenues of the System shall only be used for purposes of the System.

ARTICLE VI

GENERAL COVENANTS

Section 6.01. General Statement. So long as the Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Reserve Fund a sum sufficient to prepay the entire principal of the Bonds remaining unpaid, together with interest accrued and

to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Purchaser.

Section 6.02. Rates. The Issuer will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide revenues in each fiscal year sufficient to produce Net Revenues equal to not less than one hundred ten percent (110%) of the annual debt service on the Bonds and to make the payments required herein into the Reserve Fund and all the necessary expenses of operating and maintaining the System during such fiscal year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate revenues for such purposes.

Section 6.03. Sale of the System. The System may not be sold without the prior written consent of the Purchaser so long as the Bond is outstanding. Such consent will provide for disposition of the proceeds of any such sale.

Section 6.04. Issuance of Parity Bonds. No parity bonds payable out of the revenues of the System shall be issued after the issuance of the Bond pursuant hereto except with the prior written consent of the Purchaser or the then holder of or Trustee or agent for the holder of the Bond.

Section 6.05. Insurance and Bond. The Issuer hereby covenants and agrees that it will, as an expense of construction, operation and maintenance of the System, procure, carry and maintain, so long as the Bond remains outstanding, insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(A) Fire, Lightning, Vandalism, Malicious Mischief and Extended Coverage Insurance, to be procured upon acceptance of any part of the Project from the contractor, and immediately upon any portion of the System now in use, on all above-ground structures of the System in an amount equal to the actual cost thereof. In the event of any damage to or destruction of any portion of the System, the Issuer will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance to protect the interests of the Issuer during construction of the Project in the full insurable value thereof.

(B) Public Liability Insurance, with limits of not less than \$500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from the operation of the System, such insurance to be procured not later than the date

of delivery of the Bond.

(C) Vehicular Public Liability Insurance, in the event the Issuer owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the Issuer is operated at any time or times for the benefit of the Issuer, with limits of not less than \$500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than \$200,000 to protect the Issuer from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle for the Issuer.

(D) Workers' Compensation Coverage for all Employees of the District Eligible Therefor and Performance and Payment Bonds, such bonds to be in the amounts of 100% of the construction contract, will be required of each prime contractor, and such payment bonds will be filed with the Clerk of the County Commission of Jackson County prior to commencement of construction of the Project in compliance with West Virginia Code Section 38-2-39. Workers' Compensation coverage shall be maintained as required by the laws of the State.

(E) Fidelity Bonds will be provided as to every member of the Board and as to every officer and employee thereof having custody of the Revenue Fund or of any revenues or other funds of the Issuer in an amount at least equal to the total annual debt service requirement for all outstanding loans made and bonds held by the Purchaser.

(F) Flood Insurance to be procured, to the extent available at reasonable cost to the Issuer.

(G) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project and so long as the Bond is outstanding, the District will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the Issuer, and during such construction will require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Purchaser may specify, with insurance carriers or bonding companies acceptable to the Purchaser.

Section 6.06. Statutory Mortgage. For the further protection of the holders of the Bond, a statutory mortgage lien upon the System and Revenues is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon delivery of the Bond.

Section 6.07. Events of Default. Each of the following events is hereby declared an "Event of Default":

(A) Failure to make payment of any monthly amortization installment at the date specified for payment thereof and/or;

(B) Failure duly and punctually to observe or perform any of the covenants, conditions and agreements on the part of the Issuer contained in the Bond or herein, or violation of or failure to observe any provision of any pertinent law or of this Resolution.

Section 6.08. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, the Purchaser shall have all rights under the Act and may proceed to protect and enforce its rights by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement, or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights and shall have all rights prescribed by the Act, State Code and other applicable law.

Upon application by the Purchaser, such court may, upon proof of such default, appoint a receiver for the affairs of the Issuer and the System. The Receiver so appointed shall administer the System on behalf of the Issuer, shall exercise all the rights and powers of the Issuer with respect to the System, shall proceed under the direction of the court to obtain authorization to increase rates and charges of the System, and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct.

Section 6.09. Fiscal Year; Budget. While the Bond is outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a fiscal year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than thirty (30) days prior to the beginning of each fiscal year, the Issuer agrees to adopt the Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such fiscal year unless unanimously authorized and directed by the Governing Body. Copies of each Annual Budget shall be delivered to the Purchaser by the beginning of each fiscal year.

If for any reason the Issuer shall not have adopted the Annual Budget before the first day of any fiscal year, it shall adopt a Budget of Current Expenses from month to month until the adoption of the Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the preceding year by more than ten percent (10%); and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget shall be for a reason

beyond the control of the Issuer. Each such Budget of Current Expenses shall be mailed immediately to the Purchaser.

Section 6.10. Compensation of Members of Governing Body. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision hereof.

Section 6.11. Covenant to Proceed and Complete. The Issuer hereby covenants to proceed as promptly as possible with the construction of the Project to completion thereof in accordance with the plans and specifications prepared by the Consulting Engineer and on file with the Secretary on the date of adoption hereof, subject to permitted changes.

Section 6.12. Books and Records. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and the Purchaser shall have the right at all reasonable times to inspect the System and all records, accounts and data of the Issuer relating thereto.

The Issuer shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants and shall mail a copy of such audit report to the Purchaser. The Issuer further covenants to comply with the Act with respect to such books, records and accounts.

Section 6.13. Maintenance of System. The Issuer covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as the Bond is outstanding.

Section 6.14. No Competition. The Issuer will not permit competition with the System within its boundaries or within the territory served by it and will not grant or cause, consent to or allow the granting of any franchise, permit or other authorization for any person, firm, corporation, public or private body, agency or instrumentality whatsoever to provide any of the services supplied by the System within the boundaries of the Issuer or within the territory served by the System.

Section 6.15. Tax Covenants as to Tax Exempt Status of Bonds.

1. The Issuer covenants that (a) it shall not permit or cause to be done any act or thing which would result in the loss of

exemption from tax of interest on the Bond under Section 103(a) of the Internal Revenue Code of 1986, as amended, and all Regulations promulgated thereunder (the "Code"), or under any successor or similar provision of the Code hereinafter enacted and applicable to the Bond; (b) it shall not invest or otherwise use or permit or cause to be invested or used, any of the proceeds of the Bond, or moneys deemed to be proceeds of the Bond under the Code, directly or indirectly, in any manner which would result in such Bond being classified as an "arbitrage bond" within the meaning of Section 148 of the Code or regulations thereunder, and shall comply with the requirements of such Section; and (c) no part of the proceeds of the Bond or any funds held under the Resolution shall at any time be used directly or indirectly for any purpose which would cause the Bond to be subject to treatment as a "private activity bond" under the Code and to that end the Issuer will comply with the applicable law as long as the Bond is outstanding.

2. Tax Covenants. The Issuer hereby further covenants and agrees as follows:

A. PRIVATE BUSINESS USE LIMITATION. The Issuer shall assure that (i) not in excess of ten percent (10%) of the Net Proceeds of the Bond are used for private business use if, in addition, the payment of more than ten percent (10%) of the principal or ten percent (10%) of the interest due on the Bond during the term thereof is, under the terms of the Bond or any underlying arrangement, directly or indirectly, secured by any interest in property used or to be used for a private business use or in payment in respect of property used or to be used for a private business use or to be derived from payments, whether or not to the Issuer, in respect of property or borrowed money used or to be used for a private business use, and (ii) and that, in the event that both (A) in excess of five percent (5%) of the Net Proceeds of the Bond are used for a private business use, and (B) an amount in excess of five percent (5%) of the interest due on the Bond during the term thereof is, under the terms of the Bond or any underlying arrangement, directly or indirectly, secured by any interest in property used or to be used for said private business use or in payments in respect of property used or to be used for said private business use or is to be derived from payments, whether or not to the Issuer, in respect of property or borrowed money used or to be used for said private business use, then said excess over said five percent (5%) of Net Proceeds of the Bonds used for a private business use shall be used for a Private Business Use related to the governmental use of the Project, or if the Bonds are for the purpose of financing more than one project, a portion of the Project, and shall not exceed the proceeds used for the governmental use of that portion of the Project to which such private business use is related.

B. PRIVATE LOAN LIMITATION. The Issuer shall assure that not in excess of five percent (5%) of the Net Proceeds of the Bond are used, directly or indirectly, to make or finance a loan (other

than loans constituting Nonpurpose Investments) to persons other than state or local government units.

C. FEDERAL GUARANTEE PROHIBITION. The Issuer shall not take any action or permit or suffer any action to be taken if the result of the same would be to cause the Bonds to be "federally guaranteed" within the meaning of Section 149(b) of the Code.

D. INFORMATION RETURN. The Issuer will file all statements, instruments and returns necessary to assure the tax-exempt status of the Bond and the interest thereon, including without limitation, the information return required under Section 149(e) of the Code.

E. FURTHER ACTIONS. The Issuer will take any and all actions that may be required of it (including those deemed necessary by the Holder) so that the interest on the Bond will be and remain excludable from gross income for federal income tax purposes, and will not take any actions, or fail to take any actions (including those determined by the Holder) which would adversely affect such exclusion.

§ 16-13A-1. Legislative findings

The Legislature of the state of West Virginia hereby determines and finds that the present system of public service districts within the state has provided a valuable service at a reasonable cost to persons who would otherwise have been

unable to obtain public utility services. To further this effort, and to insure that all areas of the state are benefiting from the availability of public service district utility services and to further correct areas with health hazards, the Legislature concludes that it is in the best interest of the public to implement better management of public service district resources by expanding the ability and the authority of the public service commission to assist public service districts by offering advice and assistance in operational, financial and regulatory affairs.

In addition to the expanded powers which shall be given to the public service commission, the Legislature also concludes that it is in the best interest of the public for each county commission to review current technology available and consider consolidating existing public service districts where it is feasible and will not result in the interference with existing bond instruments. Further, if such consolidation is not feasible, the Legislature finds that it is in the best interest of the public for each county commission to review current technology available and consider consolidating or centralizing the management of public service districts within its county or multi-county area to achieve efficiency of operations. The Legislature also finds that additional guidelines should be imposed on the creation of new public service districts and that county commissions shall dissolve inactive public service districts as hereinafter provided. The Legislature also finds that the public service commission shall promulgate rules and regulations to effectuate the expanded powers given to the commission relating to public service districts.

Validity 1

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying water and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6.

In statute authorizing creation of public service districts, provision for delinquent fixed rates and charges for services rendered to be lien on premises served was not unconstitutional as depriving owners of property without due process of law or as violating Fourteenth Amendment of United States Constitution or applicable provisions of State Constitution. Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24. 3. Construction and application

provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⚡ 80(3)

Condemnation by public service district is not a taking of private property for private use in violation of applicable constitutional provision. Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Eminent Domain ⚡ 13

5. Property of public service district

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. Acts 1953, c. 147, § 1 et seq.; Const. art. 10, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Taxation ⚡ 2289

6. Rates and charges for service

Relief under Federal Securities Act of 1933 was not adequate or sufficient remedy for relief sought by corporations holding sewer revenue bonds of public service district in mandamus proceeding to compel district to establish and collect rates for services rendered by district sufficient to provide for all operational and maintenance expenses, to pay, when due, principal and interest of revenue bonds issued by district, and to file tariff reflecting such charges with Public Service Commission, and any relief afforded under provisions of federal statute could not supersede relief which could be granted in mandamus proceeding. Securities Act of 1933, § 1 et seq., 15 U.S.C.A. § 77a et seq.; Code, 16-13A-1 et seq. State ex rel. Allstate Ins. Co. v. Union Public Service Dist., 1966, 151 S.E.2d 102, 151 W.Va. 207. Mandamus ⚡ 3(8)

Corporations holding sewer revenue bonds of public service district, a public corporation and political subdivision of state, had right by mandamus to enforce and compel district and members of the Public Service Board to establish, charge and collect rates for services rendered by district sufficient to provide for all operation-

It was ministerial duty of chairman of public service board of public service district to sign revenue bonds and to assist in effectuating their issuance, and in view of constitutionality of statute authorizing creation of the public service board, relator's showing of legal right to require performance of such duty, was sufficient and writ of mandamus would issue. § 16-13A-1a. Jurisdiction of the public service commission

The jurisdiction of the public service commission relating to public service districts shall be expanded to include the following powers and such powers shall be in addition to all other powers of the public service commission set forth in this code:

(a) To study, modify, approve, deny or amend the plans created under section one-b of this article for consolidation or merger of public service districts and their facilities, personnel or administration;

(b) To petition the appropriate circuit court for the removal of a public service district board member or members; and

(c) To create by general order a separate division within the public service commission to provide assistance to public service districts in technological, operational, financial and regulatory matters.

Acts 1986, c. 81.

PUBLIC HEALTH

Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations ⇨ 222; Municipal Corporations ⇨ 225(1)

8. Admissibility of evidence

Extrinsic evidence relating to background and negotiations with regard to forming a public service district were not admissible in regard to construction of a contract for furnishing of water, where contract language was clear and unambiguous that district was to furnish water as customer should require. Berkeley County Public Service Dist. v. Vitro Corp. of America, 1968, 162 S.E.2d 189, 152 W.Va. 252. Evidence ⇨ 448

9. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. § 16-13A-1b. County commissions to develop plan to create, consolidate, merge, expand or dissolve public service districts

Each county commission shall conduct a study of all public service districts which have their principal offices within its county and shall develop a plan relating to the creation, consolidation, merger, expansion or dissolution of such districts or the consolidation or merger of management and administrative services and personnel and shall present such plan to the public service commission for approval, disapproval, or modification: Provided, That within ninety days of the effective date of this section each county commission in this state shall elect either to perform its own study or request that the public service commission perform such study. Each county commission electing to perform its own study has one year from the date of election to present such plan to the public service commission. For each county wherein the county commission elects not to perform its own study, the public service commission shall conduct a study of such county. The public service commission shall establish a schedule for such studies upon a priority basis, with those counties perceived to have the greatest need of creation or consolidation of public service districts receiving the highest priority. In establishing the priority schedule, and in the performance of each study, the bureau of public health and the division of environmental protection shall offer their assistance and cooperation to the public service commission. Upon completion by the public service commission of each study, it shall be submitted to the appropriate county commission for review and comment. Each county commission has six months in which to review the study conducted by the public service commission, suggest changes or modifications thereof, and present such plan to the public service commission. All county plans, whether conducted by the county commission itself or submitted as a result of a public service commission study, shall, by order, be approved, disapproved or modified by the public service commission in accordance with rules promulgated by the public service commission and such order shall be implemented by the county commission.

§ 16-13A-2. Creation of districts by county commission; enlarging, reducing, merging, or dissolving district; consolidation; agreements, etc.; infringing upon powers of county commission; filing list of members and districts with the Secretary of State

(a) The county commission of any county may propose the creation, enlargement, reduction, merger, dissolution, or consolidation of a public service district by any of the following methods: (1) On its own motion by order duly adopted, (2) upon the recommendation of the Public Service Commission, or (3) by petition of twenty-five percent of the registered voters who reside within the limits of the proposed public service district within one or more counties. The petition shall contain a description, including metes and bounds, sufficient to identify the territory to be embraced therein and the name of such proposed district: *Provided*, That after the effective date of this section, no new public service district shall be created, enlarged, reduced, merged, dissolved or consolidated under this section without the written consent and approval of the Public Service Commission, which approval and consent shall be in accordance with rules promulgated by the Public Service Commission and may only be requested after consent is given by the appropriate county commission or commissions pursuant to this section. Any territory may be included regardless of whether or not the territory includes one or more cities, incorporated towns or other municipal corporations which own and operate any public service properties and regardless of whether or not it includes one or more cities, incorporated towns or other municipal corporations being served by privately owned public service properties: *Provided, however*, That the same territory shall not be included within the boundaries of more than one public service district except where the territory or part thereof is included within the boundaries of a separate public service district organized to supply water, sewerage services, stormwater services or gas facilities not being furnished within such territory or part thereof: *Provided further*, That no city, incorporated town or other municipal corporation shall be included within the boundaries of the proposed district

except upon the adoption of a resolution of the governing body of the city, incorporated town or other municipal corporation consenting.

(b) The petition shall be filed in the office of the clerk of the county commission of the county in which the territory to constitute the proposed district is situated, and if the territory is situated in more than one county, then the petition shall be filed in the office of the clerk of the county commission of the county in which the major portion of the territory extends, and a copy thereof (omitting signatures) shall be filed with each of the clerks of the county commission of the other county or counties into which the territory extends. The clerk of the county commission receiving such petition shall present it to the county commission of the county at the first regular meeting after the filing or at a special meeting called for the consideration thereof.

(c) When the county commission of any county enters an order on its own motion proposing the creation, enlargement, reduction, merger, dissolution or consolidation of a public service district, as aforesaid, or when a petition for the creation is presented, as aforesaid, the county commission shall at the same session fix a date of hearing in the county on the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed public service district, which date so fixed shall be not more than forty days nor less than twenty days from the date of the action. Within ten days of fixing the date of hearing, the county commission shall provide the Executive Secretary of the Public Service Commission with a copy of the order or petition and notification of the time and place of the hearing to be held by the county commission. If the territory proposed to be included is situated in more than one county, the county commission, when fixing a date of hearing, shall provide for notifying the county commission and clerk thereof of each of the other counties into which the territory extends of the date so fixed. The clerk of the county commission of each county in which any territory in the proposed public service district is located shall cause notice of the hearing and the time and place thereof, and setting forth a description of all of the territory proposed to be included therein to be given by publication as a Class I legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for the publication shall be by publication in each city, incorporated town or municipal corporation if available in each county in which any territory in the proposed public service district is located. The publication shall be at least ten days prior to the hearing.

(d) In all cases where proceedings for the creation, enlargement, reduction, merger, dissolution or consolidation of the public service districts are initiated by petition as aforesaid, the person filing the petition shall advance or satisfactorily indemnify the payment of the cost and expenses of publishing the hearing notice, and otherwise the costs and expenses of the notice shall be paid in the first instance by the county commission out of contingent funds or any other funds available or made available for that purpose. In addition to the notice required herein to be published, there shall also be posted in at least five conspicuous places in the proposed public service district, a notice containing

the same information as is contained in the published notice. The posted notices shall be posted not less than ten days before the hearing.

(e) All persons residing in or owning or having any interest in property in the proposed public service district shall have an opportunity to be heard for and against its creation, enlargement, reduction, merger, dissolution or consolidation. At the hearing the county commission before which the hearing is conducted shall consider and determine the feasibility of the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district. If the county commission determines that the construction or acquisition by purchase or otherwise and maintenance, operation, improvement and extension of public service properties by the public service district will be conducive to the preservation of public health, comfort and convenience of such area, the county commission shall by order create, enlarge, reduce, merge, dissolve or consolidate such public service district. If the county commission, after due consideration, determines that the proposed district will not be conducive to the preservation of public health, comfort or convenience of the area or that the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district as set forth and described in the petition or order is not feasible, it may refuse to enter an order creating the district or it may enter an order amending the description of the proposed district and create, enlarge, reduce, merge, dissolve or consolidate the district as amended.

(f) If the county commission determines that any other public service district or districts can adequately serve the area of the proposed public service district, whether by enlargement, reduction, merger, dissolution or consolidation, it shall refuse to enter the order, but shall enter an order creating, enlarging, reducing, merging, dissolving or consolidating the area with an existing public service district, in accordance with rules adopted by the Public Service Commission for such purpose: *Provided*, That no enlargement of a public service district may occur if the present or proposed physical facilities of the public service district are determined by the appropriate county commission or the Public Service Commission to be inadequate to provide such enlarged service. The clerk of the county commission of each county into which any part of such district extends shall retain in his office an authentic copy of the order creating, enlarging, reducing, merging, dissolving or consolidating the district: *Provided, however*, That within ten days after the entry of an order creating, enlarging, reducing, merging, dissolving or consolidating a district, such order must be filed for review and approval by the Public Service Commission. The Public Service Commission may provide a hearing in the affected county on the matter and may approve, reject or modify the order of the county commission if it finds it is in the best interests of the public to do so. The Public Service Commission shall adopt rules relating to such filings and the approval, disapproval or modification of county commission orders for creating, enlarging, merging, dissolving or consolidating districts. The provisions of this section shall not apply to the implementation by a county commission of an order issued by the Public Service Commission pursuant to this section and section one-b, of this article.

(g) The county commission may, if in its discretion it deems it necessary, feasible and proper, enlarge the district to include additional areas, reduce the area of the district, where facilities, equipment, service or materials have not been extended, or dissolve the district if inactive or create or consolidate two or more such districts. If consolidation of districts is not feasible, the county commission may consolidate and centralize management and administration of districts within its county or multi-county area to achieve efficiency of operations: *Provided*, That where the county commission determines on its own motion by order entered of record, or there is a petition to enlarge the district, merge and consolidate districts, or the management and administration thereof, reduce the area of the district or dissolve the district if inactive, all of the applicable provisions of this article providing for hearing, notice of hearing and approval by the Public Service Commission shall apply. The Commission shall at all times attempt to bring about the enlargement or merger of existing public service districts in order to provide increased services and to eliminate the need for creation of new public service districts in those areas which are not currently serviced by a public service district: *Provided, however*, That where two or more public service districts are consolidated pursuant to this section, any rate differentials may continue for the period of bonded indebtedness incurred prior to consolidation. The districts may not enter into any agreement, contract or covenant that infringes upon, impairs, abridges or usurps the duties, rights or powers of the county commission, as set forth in this article, or conflicts with any provision of this article.

(h) A list of all districts and their current board members shall be filed by the county commission with the Secretary of State and the Public Service Commission by the first day of July of each year.

Validity 1

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying wa-

ter and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6, § 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes Ⓒ 123(3); Statutes Ⓒ 123(5)

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24.

2. Creation of public service districts

Where notice, hearing and order with respect to creation of public service district considered only the question of furnishing water, such district was created only for the purposes of furnishing water services, and had no power to condemn real estate for sewerage facilities. Code, 16-13A-1, 16-13A-2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Eminent Domain Ⓒ 32

Where public service district was created for purpose of furnishing water services, county court had authority to add sewerage services to the facilities of the district under appropriate proceedings. Code, 16-13A-2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations Ⓒ 270

Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations Ⓒ 222; Municipal Corporations Ⓒ 225(1)

3. District boundaries

Public service district statute that allowed county commission to designate district's boundaries did not also empower commission to make service territories exclusive, displacing Public Service Commission's (PSC) authority to determine service rights. Code, 16-13A-2. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. Counties Ⓒ 47

4. Notice of hearing

Provisions of statute, with respect to creation of public service districts, which relate to the filing of the petition or motion of the county court, the description of the territory to be embraced, and like provisions are mandatory; but, despite use of the word "shall," the require-

ments for posting and publication of notice and the time of setting the hearing are directory and require only substantial compliance. Code, 16-13A-2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations Ⓒ 12(3); Municipal Corporations Ⓒ 12(6)

Though record with respect to creation of public service district was silent with respect to posting of notice of hearing and as to whether hearing was not more than 40 nor less than 20 days after his fixing the date for hearing as provided by statute, there was substantial compliance with statute where hearing was set some time prior to the date of the hearing, there was publication of notice more than ten days prior to the date of the hearing as required, and there were no objections either before, during or after the hearing to the creation of the district or to the procedures employed in its creation. Code, 16-13A-2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations Ⓒ 12(6)

5. Number of voters within district

Public service district was not void because there were not 100 legal voters owning property within the district. Code, 16-13A-2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations Ⓒ 6

6. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. 7. Referendum

A public service district, once created by county court, not subject to referendum on issue to continue or be abolished. 52 W.Va. Op. Atty. Gen. 33 (August 11, 1966) 1966 WL 87428.

§ 16-13A-3. District to be a public corporation and political subdivision; powers thereof; public service boards

From and after the date of the adoption of the order creating any public service district, it is a public corporation and political subdivision of the state, but without any power to levy or collect ad valorem taxes. Each district may acquire, own and hold property, both real and personal, in its corporate name, and may sue, may be sued, may adopt an official seal and may enter into

contracts necessary or incidental to its purposes, including contracts with any city, incorporated town or other municipal corporation located within or without its boundaries for furnishing wholesale supply of water for the distribution system of the city, town or other municipal corporation, or for furnishing stormwater services for the city, town or other municipal corporation, and contract for the operation, maintenance, servicing, repair and extension of any properties owned by it or for the operation and improvement or extension by the district of all or any part of the existing municipally owned public service properties of any city, incorporated town or other municipal corporation included within the district: Provided, That no contract shall extend beyond a maximum of forty years, but provisions may be included therein for a renewal or successive renewals thereof and shall conform to and comply with the rights of the holders of any outstanding bonds issued by the municipalities for the public service properties.

The powers of each public service district shall be vested in and exercised by a public service board consisting of not less than three members, who shall be persons residing within the district, who possess certain educational, business or work experience which will be conducive to operating a public service district. Each board member shall, within six months of taking office, successfully complete the training program to be established and administered by the public service commission in conjunction with the division of environmental protection and the bureau of public health. Board members shall not be or become pecuniarily interested, directly or indirectly, in the proceeds of any contract or service, or in furnishing any supplies or materials to the district nor shall a former board member be hired by the district in any capacity within a minimum of twelve months after board member's term has expired or such board member has resigned from the district board. The members shall be appointed in the following manner:

Each city, incorporated town or other municipal corporation having a population of more than three thousand but less than eighteen thousand is entitled to appoint one member of the board, and each city, incorporated town or other municipal corporation having a population in excess of eighteen thousand shall be entitled to appoint one additional member of the board for each additional eighteen thousand population. The members of the board representing such cities, incorporated towns or other municipal corporations shall be residents thereof and shall be appointed by a resolution of the governing bodies thereof and upon the filing of a certified copy or copies of the resolution or resolutions in the office of the clerk of the county commission which entered the order creating the district, the persons so appointed become members of the board without any further act or proceedings. If the number of members of the board so appointed by the governing bodies of cities, incorporated towns or other municipal corporations included in the district equals or exceeds three, then no further members shall be appointed to the board and the members so appointed are the board of the district except in cases of merger or consolidation where the number of board members may equal five.

§ 16-13A-3a. Removal of members of public service board

The county commission or the public service commission or any other appointive body creating or establishing a public service district under the provisions of this article, or any group of five percent or more of the customers of a public service district, may petition the circuit court of the county in which the district maintains its principal office for the removal of any member of the governing board thereof for consistent violations of any provisions of this article, for reasonable cause which includes, but is not limited to, a continued failure to attend meetings of the board, failure to diligently pursue the objectives for which the district was created, or failure to perform any other duty either prescribed by law or required by a final order of the public service commission or for any malfeasance in public office. Any board member charged with a violation under this section who offers a successful defense against such charges shall be reimbursed for the reasonable costs of such defense from district revenues. Such costs shall be considered as costs associated with rate determination by the public service district and the public service commission. If the circuit court judge hearing the petition for removal finds that the charges are frivolous in nature, the judge may assess all or part of the court costs, plus the reasonable costs associated with the board member's defense, against the party or parties who petitioned the court for the board member's removal.

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. 2. In general

Statute providing that private property may be taken or damaged for a number of specified purposes amounts to legislative declaration of public purposes within meaning of laws, and it is a judicial question whether such declaration is consonant with organic law. 6. Connections with sewers or drains

City, rather than sewer and water districts, was entitled to provide sewer and water services to newly developed tract that was within districts' boundaries, but was annexed to city, where such services were not previously furnished to tract. If a tract of real estate located within a public service district has been annexed into a municipality, then, as between the municipality and the public service district, the municipality has the superior right to extend water and/or sewer service which were not being previously furnished to the tract by the public service district, and under those circumstances, a public service district would need the consent of the municipality and the Public Service Commission (PSC) in order to provide such service. Code, 16-13A-8. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. Municipal Corporations ⇨ 712(1); Waters And Water Courses ⇨ 201; Waters And Water Courses ⇨ 202

7. Public corporation

A public service district is a public corporation and does not come within constitutional provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇨ 80(3)

§ 16-13A-9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees

(a)(1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management,

maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district. The board shall establish rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia division of highways.

(2) Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant's specific customer class or fifty dollars, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or fifty dollars and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant's specific customer class or fifty dollars. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant's specific customer class or fifty dollars

has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer's account at a rate as the public service commission may prescribe: *Provided*, That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the public service commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service district included within the district owns and operates separately either water facilities or sewer facilities, and the district owns and operates the other kind of facilities either water or sewer, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer service fees and charges: *Provided*, That any contracts entered into by a public service district pursuant to this section shall be submitted to the public service commission for approval. Any public service district providing water and sewer service to its customers has the right to terminate water service for delinquency in payment of either water or sewer bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer district is providing water service, and the district providing sewer service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer district that is providing water service, upon the request of the district providing sewer service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer account: *Provided*, however, That any termination of water service must comply with all rules and orders of the public service commission.

(c) Any district furnishing sewer facilities within the district may require, or may by petition to the circuit court of the county in which the property is located, compel or may require the division of health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where

there is gravity flow or transportation by any other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this paragraph is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the main sewer line, the public service district board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the division of health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the public service commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the division of health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay the rates and charges for services established under this article only after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner's, tenant's or occupant's specific customer class.

(e) Whenever any district has made available a stormwater system to any owner, tenant or occupant of any real property located near the stormwater system and where stormwater from real property affects or drains into the stormwater system, it is hereby found, determined and declared that the owner, tenant or occupant is being served by the stormwater system and it is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge, and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-day notice of the availability of the stormwater system has been received by the owner.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and municipi-

pal taxes. In addition to the other remedies provided in this section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided*, That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the division of environmental protection, as prescribed by section eleven, article eleven, chapter twenty-two of this code, is exempt from the provisions of this section.

(b) The Public Service Commission may waive the provision of prior consent and approval for entering into contracts for engineering, design or feasibility studies pursuant to this section for good cause shown which is evidenced by the public service district filing a request for waiver of this section stated in a letter directed to the commission with a brief description of the project, a verified statement by the board members that the public service district has complied with chapter five-g of this code, and further explanation of ability to evaluate their own engineering contract, including, but not limited to:

If an objection is filed, the Public Service Commission shall issue its decision within one hundred twenty days of the filing date. In the event objection is received to a request for a waiver, the application shall be considered a request for waiver as well as a request for approval in the event a waiver is not appropriate.
